**IX. COUNT SIX - THE '778 DEFENDANTS**

90. Denied.

91. Denied.

**AFFIRMATIVE DEFENSES**

92. MagTek asserts the following defenses to the Complaint. Assertion of a defense does not concede that MagTek has the burden of proving the matter asserted.

**FIRST DEFENSE**

**(Noninfringement and Absence of Liability for Infringement)**

93. MagTek and its products have not infringed, directly, contributorily or by inducement, and do not infringe directly, contributorily or by inducement, any valid claim of the '759 or '778 patents. MagTek is not liable in any respect for any infringement of the '759 or '778 patent by anyone.

**SECOND DEFENSE**

**(Noninfringement)**

94. Because of the prior state of the art, because of the language of the claims of the '759 and '778 patents, and because of the proceedings in the United States Patent and Trademark Office during the prosecution of the applications for the '759 and '778 patents, Plaintiff is estopped from maintaining that the claims cover any products of MagTek and, therefore, are estopped from maintaining that MagTek has directly infringed, contributed to the infringement of, or induced anyone to infringe any claims of the '759 or '778 patents.

**THIRD DEFENSE**

**(Invalidity)**

95. Each of the claims of the '759 and '778 patents is invalid and void for failing to comply with one or more of the requirements for patentability specified in Title 35, U.S. Code, §§ 102, 103 and 112.

**FOURTH DEFENSE**

**(Unclean Hands)**

96. As a result of the conduct alleged above with respect to DataTreasury's inequitable conduct and patent misuse, DataTreasury has unclean hands in connection with the

'759 and '778 patents and in connection with any assertion of infringement of these patents against MagTek.

**FIFTH DEFENSE**

**(Failure to State a Claim)**

97. The Complaint, in whole or in part, fails to state a claim for which relief can be granted.

**SIXTH DEFENSE**

**(Waiver, Acquiescence, Estoppel and Laches)**

98. DataTreasury's claims are barred, in whole or in part, by the equitable doctrines of waiver, acquiescence, estoppel, and laches, in that, without limitation, DataTreasury unreasonably delayed in bringing its claims.

**COUNTERCLAIMS**

99. Counterclaimant MagTek, Inc. ("MagTek"), asserts the following counterclaims against DataTreasury Corporation ("DataTreasury"), and alleges as follows:

**JURISDICTION AND VENUE**

100. MagTek's First and Second Counterclaims arise under 28 U.S.C. §§ 2201 and 2202 and seek declaratory relief and further relief based upon a declaratory judgment or decree. In these Counterclaims, MagTek seeks a judicial declaration as to noninfringement, invalidity and unenforceability of U.S. Patent Nos. 5,910,988 ("the '988 patent"), and 6,032,137 ("the '137 patent"). This Court has original jurisdiction over all counterclaims under 28 U.S.C. §§ 1331, 1338(a) and (b), and 1367.

101. Venue is proper in this district under 28 U.S.C. § 1391.

**PARTIES**

102. MagTek, Inc. is a California corporation that maintains its principal place of business at 20725 South Annalee Avenue, Carson, California 90746.

103. Based on the allegations of paragraph 1 of the Complaint, DataTreasury Corporation is a Delaware corporation that maintains its principal place of business at 101 East Park Blvd., #600, Plano Texas, 75074.

**FIRST CLAIM FOR RELIEF**

**(Against DataTreasury for Declaration of Invalidity, Noninfringement, and Unenforceability of U.S. Patent No. 5,583,759)**

104. MagTek repeats and incorporates herein the allegations of Paragraphs 1-103 of this Answer to the Complaint for Patent Infringement and Counterclaims.

105. An actual controversy exists between DataTreasury and MagTek. DataTreasury sued MagTek alleging infringement of the '759 patent. MagTek denies that its products infringe any valid, enforceable claim of the '759 patent, or that it has engaged in any acts which constitute direct infringement, contributory infringement, or inducement of infringement of any valid, enforceable claims of the '759 patent, and further denies that it has induced any acts of alleged infringement by its customers, or anyone else. MagTek contends that it, its customers, and the public are entitled to make, have made, use, offer to use, sell and import the accused infringing products without interference from DataTreasury.

106. The claims of the '759 patent are invalid and void for the reasons set forth in the Affirmative Defenses set forth above in this Answer to the Complaint for Patent Infringement and Counterclaims, the allegations of which are incorporated herein by reference.

107. The claims of the '759 patent are unenforceable for the reasons set forth in the Affirmative Defenses set forth above in this Answer to the Complaint for Patent Infringement and Counterclaims, the allegations of which are incorporated herein by reference.

108. On information and belief, DataTreasury has asserted the '759 patent against MagTek knowing that the '759 patent is invalid and unenforceable and having no reasonable basis for claiming infringement by MagTek or that MagTek has contributed to infringement or induced infringement of the '759 patent, making this an exceptional case within the meaning of 35 U.S.C. § 285.

109. On information and belief, unless enjoined, DataTreasury will continue to charge that MagTek, its customers, and everyone else who makes, has made, used, offered to use, sold or imported MagTek's products have infringed or is infringing the '759 patent and, unless enjoined, DataTreasury will continue to threaten, institute or prosecute litigation alleging such infringement. On information and belief, unless enjoined, the conduct of DataTreasury will irreparably harm MagTek and will interfere with the ability of MagTek to sell its products.

### **SECOND CLAIM FOR RELIEF**

#### **(Against DataTreasury For Declaration of Invalidity, Noninfringement, and Unenforceability of U.S. Patent No. 5,930,778)**

110. MagTek repeats and incorporates herein the allegations of Paragraphs 1-109 of this Answer to Complaint for Patent Infringement and Counterclaims.

111. An actual controversy exists between DataTreasury and MagTek. DataTreasury sued MagTek alleging infringement of the '778 patent. MagTek denies that its products infringe any valid, enforceable claim of the '778 patent, or that it has engaged in any acts which constitute direct infringement, contributory infringement, or inducement of infringement of any valid, enforceable claims of the '778 patent, and further denies that it has induced any acts of alleged infringement by its customers, or anyone else. MagTek contends that it, its customers, and the public are entitled to make, have made, use, offer to use, sell and import the accused infringing products without interference from DataTreasury.

112. The claims of the '778 patent are invalid and void for the reasons set forth in the Affirmative Defenses set forth above in this Answer to the Complaint for Patent Infringement and Counterclaims, the allegations of which are incorporated herein by reference.

113. The claims of the '778 patent are unenforceable for the reasons set forth in the Affirmative Defenses set forth above in this Answer to the Complaint for Patent Infringement and Counterclaims, the allegations of which are incorporated herein by reference.

114. On information and belief, DataTreasury has asserted the '778 patent against MagTek knowing that the '778 patent is invalid and unenforceable and having no reasonable basis for claiming infringement by MagTek or that MagTek has contributed to infringement or induced infringement of the '778 patent, making this an exceptional case within the meaning of 35 U.S.C. § 285.

115. On information and belief, unless enjoined, DataTreasury will continue to charge that MagTek, its customers, and everyone else who makes, has made, used, offered to use, sold or imported MagTek's products have infringed or is infringing the '778 patent and, unless enjoined, DataTreasury will continue to threaten, institute or prosecute litigation alleging such infringement. On information and belief, unless enjoined, the conduct of DataTreasury will irreparably harm MagTek and will interfere with the ability of MagTek to sell its products.

### **THIRD CLAIM FOR RELIEF**

#### **(Against DataTreasury for Unfair Competition)**

116. MagTek repeats and incorporates herein the allegations of Paragraphs 1-115 of this Answer to the Complaint for Patent Infringement and Counterclaims.

117. The acts of DataTreasury alleged above constitute unfair competition under the common law of California and under California Business and Professions Code § 17200, et seq.

118. On information and belief, unless enjoined, DataTreasury will continue to unfairly compete with MagTek by illegally asserting its patents and threatening suit against MagTek's manufacture and sale of check imaging devices regardless of how they are used, knowing that

the asserted '759 and '778 patents are invalid, unenforceable, and not infringed. Such accusations and threats of suit will illegally coerce MagTek's existing and prospective customers not to purchase MagTek's products. DataTreasury will thereby irreparably harm MagTek and interfere with its ability to sell its products.

119. MagTek is entitled to restitution by disgorgement of DataTreasury's illicit profits.

**PRAYER FOR RELIEF**

MagTek respectfully requests:

1. That Plaintiff takes nothing by its Complaint;
2. That the Court determine and declare that MagTek has not and does not infringe, contributorily infringe, or infringe by inducement any claim of the '759 or '778 patents and that the claims of these patents are invalid, void, and unenforceable;
3. That the Court preliminarily and permanently enjoin DataTreasury and its agents from instituting, prosecuting or threatening any action alleging that MagTek, any of MagTek's customers, or anyone else acting in concert with MagTek has or is infringing, contributorily infringing, or infringing by inducement any claim of the '759 or '778 patents by manufacturing, selling, offering for sale, or importing or using any of MagTek's products;
4. That the Court determine and declare that DataTreasury has engaged in acts of unfair competition;
5. That the Court award to MagTek the profits resulting from DataTreasury's acts of unfair competition;
6. That the Court award MagTek its costs of suit;
7. That the Court award MagTek its attorneys' fees and litigation expenses pursuant to 35 U.S.C. § 285 or on any other applicable basis; and
8. That MagTek receive any other appropriate relief.
