2:06-CV-72 DF

**JOINT CLAIM CONSTRUCTION AND PREHEARING
STATEMENT IN COMPLIANCE WITH PATENT RULE 4-3**

Pursuant to the Court's Second Amended Docket Control Order, the Parties¹ hereby submit this Joint Claim Construction and Prehearing Statement in compliance with Patent Rule 4-3. Each Defendant joins this Joint Claim Construction and Prehearing Statement solely with respect to those terms found in claims asserted against it. The Parties expressly reserve the right to modify this Joint Claim Construction Statement should the Court issue any relevant claim construction rulings between now and the Markman hearing scheduled for September 24, 2007.

I. P.R. 4-3(a)

Pursuant to P.R. 4-3(a), the Parties present the agreed construction of the claim terms, phrases, or clauses, contained in **Exhibit A**.

¹ First Citizens Bancshares, Inc., HSBC North America Holdings Inc., and Union BanCal Corporation join this Statement subject to, and without waiver of, their lack of personal jurisdiction defenses.

II. P.R. 4-3(b)

Pursuant to P.R. 4-3(b), the Parties present the disputed constructions of the following claim terms, phrases, or clauses, contained in **Exhibit B** (the “’007 Patent”), **Exhibit C** (the “’868 Patent”), **Exhibit D** (the “’759 Patent”), and **Exhibit E** (the “’778 Patent”). **Exhibits B thru E** include citations to example intrinsic and extrinsic evidence asserted to support the parties’ respective claim constructions. For brevity, terms and phrases are defined only once, where they first appear. For purposes of presenting the disputed constructions in **Exhibits B thru E**, the Defendants’ constructions are placed in the following groups:

“Defendant Group 1”:

Bank of America Corporation
 Bank of America, National Association
 Bank of Tokyo-Mitsubishi UFJ, LTD
 BB&T Corporation
 Branch Banking and Trust Company
 Citizens Financial Group, Inc.

U.S. Bancorp
U.S. Bank, National Association
UBS Americas, Inc.
Union Bank of California, National Association
UnionBanCal Corporation
Wachovia Bank, National Association
Wachovia Corporation

“Defendant Group 2”:

KeyBank, National Association
KeyCorp
PNC Bank, National Association
PNC Financial Services Group, Inc.

The parties expressly reserve the right to modify this identification of intrinsic and extrinsic evidence, including the right to cite additional evidence not identified herein, to support their respective claim constructions.

III. P.R. 4-3(c)

The Court’s Second Amended Docket Control Order has designated 4 hours for each side to present at the Claim Construction Hearing on September 24, 2007, with the hearing to continue September 25th if necessary. No Party currently proposes to change the Court’s Scheduling Order.

IV. P.R. 4-3(d)

Pursuant to P.R. 4-3(d), the parties state as follows:

A. Terry Geer and David James may testify at the Claim Construction Hearing as to the various structural embodiments representing certain means-for applications.

B. If required or helpful to the Court, “Defendant Group 1” proposes to call Dr. Dewayne E. Perry as an expert witness providing testimony for the construction of the means-plus-function claim terms for which he is identified below. Dr Perry may be

called on to explain the technology, the states-of-the-art at the time the patent application was filed and/or issued, the meaning of claim terms as they would be understood by those of ordinary skill in the art at the time of the invention, the proper construction of various claim terms in light of the intrinsic and extrinsic evidence, and the level of ordinary skill in the relevant art. Dr. Perry may also be called if required or helpful to the Court as a rebuttal witness to testimony provided by Plaintiff at the Claim Construction Hearing. Dr. Perry may testify to the lack of corresponding structure sufficient to perform the claimed function(s). Specifically, with respect to the “means-plus-function” terms that recite a computer-implemented function(s), Dr. Perry may provide testimony supporting the following:

- The identified “means-plus-function” claim terms recite a computer-implemented function(s) which require a CPU, a microprocessor, a programmed computer, and/or software to perform it/them.
- It is well known in the art that a stand-alone processor or CPU could not perform the functions in the identified “means-plus-function” claim terms without associated software and/or programming.
- For each identified “means-plus-function” term, the patent does not provide a flowchart, mathematical equations, source code, or detailed descriptions in the specification that could constitute an algorithm for performing the functions of any of the computer-implemented means-plus-function limitations.

“Defendant Group 1” reserves the right to call Mr. Karl Sammons if required or helpful to the Court as a rebuttal witness to testimony provided by Plaintiff at the Claim Construction Hearing. Mr. Sammons may be called on to explain the technology, the states-of-the-art at the time the patent application was filed, the meaning of claim terms as they would be understood by those of ordinary skill in the art at the time of the invention, the proper construction of various claim terms in light of the intrinsic and extrinsic evidence, and the level of ordinary skill in the relevant art.

C. “Defendant Group 2” does not intend to call any witnesses. “Defendant Group 2” reserves the right to rely on the testimony of witnesses offered by other parties in this case or related cases in support of its claim constructions.

V. P.R. 4-3(e)

Pursuant to P.R. 4-3(e), the parties state as follows:

A. Plaintiff foresees no need for a prehearing conference on claim construction issues, other than for limiting the number of terms for construction at the Markman hearing.

B. At present, “Defendant Group 1” is unaware of any additional issues which might require the scheduling of a prehearing conference. If such issues later arise, “Defendant Group 1” will inform the Court and the parties involved and propose dates for a prehearing conference.

C. At present, “Defendant Group 2” is unaware of any additional issues which might require the scheduling of a prehearing conference. If such issues later arise, “Defendant Group 2” will inform the Court and the parties involved and propose dates for a prehearing conference.
