AFFIRMATIVE DEFENSES

93. MagTek asserts the following defenses to the First Amended Complaint. Assertion of a defense does not concede that MagTek has the burden of proving the matter

asserted.

FIRST DEFENSE

(Noninfringement and Absence of Liability for Infringement)

94. MagTek and its products have not infringed, directly, contributorily or by inducement, and do not infringe directly, contributorily or by inducement, any valid claim of the '759 or '778 patents. MagTek is not liable in any respect for any infringement of the '759 or '778 patent by anyone.

SECOND DEFENSE

(Noninfringement)

95. Because of the prior state of the art, because of the language of the claims of the '759 and '778 patents, and because of the proceedings in the United States Patent and Trademark Office during the prosecution of the applications for the '759 and '778 patents, Plaintiff is estopped from maintaining that the claims cover any products of MagTek and, therefore, are estopped from maintaining that MagTek has directly infringed, contributed to the infringement of, or induced anyone to infringe any claims of the '759 or '778 patents.

THIRD DEFENSE

(Invalidity)

96. Each of the claims of the '759 and '778 patents is invalid and void for failing to comply with one or more of the requirements for patentability specified in Title 35, U.S. Code, §§ 102, 103 and 112.

FOURTH DEFENSE

(Patent Misuse)

97. On information and belief, DataTreasury has asserted the '759 and the '778 patents against Magtek asserting that mere manufacture of check scanning devices, which are staple articles of commerce, constitutes infringement of the '759 and '778 patents. On information and belief, DataTreasury justifies this conduct by asserting that it owns valid and enforceable patents that cover all scanning and storing of images of checks. On information and belief,

DataTreasury knows that it does not own valid and enforceable patent rights that cover all scanning and storing of images of checks and has deliberately attempted to extend any valid patent rights it may have far beyond any valid scope of such patent rights by means of its licenses, thus attempting to prevent the sale of staple articles of commerce.

98. DataTreasury's allegations of direct and contributory infringement of the '759 and '778 patents by the mere production and/or sale of check scanning devices against MagTek are objectively baseless.

99. On information and belief, by its conduct alleged above and by its assertion of the '759 and '778 patents against MagTek, DataTreasury has asserted its patents against the mere production and/or sale of check scanning devices in bad faith.

100. By its conduct alleged above and by its assertion of the '759 and '778 patents against MagTek knowing that MagTek has not infringed any valid claim of those patents, DataTreasury has engaged in patent misuse as to the '759 and '778 patents, rendering those patents unenforceable.

FIFTH DEFENSE

(Unclean Hands)

101. As a result of the conduct alleged above with respect to DataTreasury's patent misuse, DataTreasury has unclean hands in connection with the '759 and '778 patents and in connection with any assertion of infringement of these patents against MagTek.

COUNTERCLAIMS

102. Counterclaimant MagTek, Inc. ("MagTek"), asserts the following counterclaims against DataTreasury Corporation ("DataTreasury"), and alleges as follows:

JURISDICTION AND VENUE

103. MagTek's First and Second Counterclaims arise under 28 U.S.C. §§ 2201 and 2202 and seek declaratory relief and further relief based upon a declaratory judgment or decree.

In these Counterclaims, MagTek seeks a judicial declaration as to noninfringement, invalidity and unenforceability of U.S. Patent Nos. 5,910,988 ("the '988 patent"), and 6,032,137 ("the '137 patent"). This Court has original jurisdiction over all counterclaims under 28 U.S.C. §§ 1331, 1338(a) and (b), and 1367.

104. Venue is proper in this district under 28 U.S.C. § 1391.

PARTIES

105. MagTek, Inc. is a California corporation that maintains its principal place of business at 20725 South Annalee Avenue, Carson, California 90746.

106. Based on the allegations of paragraph 1 of the First Amended Complaint, DataTreasury Corporation is a Delaware corporation that maintains its principal place of business at 101 East Park Blvd., #600, Plano Texas, 75074.

FIRST CLAIM FOR RELIEF

(Against DataTreasury for Declaration of Noninfringement and Invalidity of U.S. Patent No. 5,583,759)

107. MagTek repeats and incorporates herein the allegations of Paragraphs 1-106 of this Answer to the First Amended Complaint for Patent Infringement and Counterclaims.

108. An actual controversy exists between DataTreasury and MagTek. DataTreasury sued MagTek alleging infringement of the '759 patent. MagTek denies that its products infringe any valid, enforceable claim of the '759 patent, or that it has engaged in any acts which constitute direct infringement, contributory infringement, or inducement of infringement of any valid, enforceable claims of the '759 patent, and further denies that it has induced any acts of alleged infringement by its customers, or anyone else. MagTek contends that it, its customers, and the public are entitled to make, have made, use, offer to use, sell and import the accused infringing products without interference from DataTreasury.

109. The claims of the '759 patent are invalid and void for the reasons set forth in the Affirmative Defenses set forth above in this Answer to the First Amended Complaint for Patent Infringement and Counterclaims, the allegations of which are incorporated herein by reference.

110. On information and belief, DataTreasury has asserted the '759 patent against MagTek knowing that the '759 patent is invalid and having no reasonable basis for claiming infringement by MagTek or that MagTek has contributed to infringement or induced infringement of the '759 patent, making this an exceptional case within the meaning of 35 U.S.C. § 285.

111. On information and belief, unless enjoined, DataTreasury will continue to charge that MagTek, its customers, and everyone else who makes, has made, used, offered to use, sold or imported MagTek's products have infringed or is infringing the '759 patent and, unless enjoined, DataTreasury will continue to threaten, institute or prosecute litigation alleging such infringement. On information and belief, unless enjoined, the conduct of DataTreasury will irreparably harm MagTek and will interfere with the ability of MagTek to sell its products.

SECOND CLAIM FOR RELIEF

(Against DataTreasury For Declaration of Noninfringement and Invalidity of U.S. Patent No. 5,930,778)

112. MagTek repeats and incorporates herein the allegations of Paragraphs 1-111 of this Answer to First Amended Complaint for Patent Infringement and Counterclaims.

113. An actual controversy exists between DataTreasury and MagTek. DataTreasury sued MagTek alleging infringement of the '778 patent. MagTek denies that its products infringe any valid, enforceable claim of the '778 patent, or that it has engaged in any acts which constitute direct infringement, contributory infringement, or inducement of infringement of any valid, enforceable claims of the '778 patent, and further denies that it has induced any acts of alleged infringement by its customers, or anyone else. MagTek contends that it, its customers,

and the public are entitled to make, have made, use, offer to use, sell and import the accused infringing products without interference from DataTreasury.

114. On information and belief, DataTreasury has asserted the '778 patent against MagTek knowing that the '778 patent is invalid and having no reasonable basis for claiming infringement by MagTek or that MagTek has contributed to infringement or induced infringement of the '778 patent, making this an exceptional case within the meaning of 35 U.S.C. § 285.

115. On information and belief, unless enjoined, DataTreasury will continue to charge that MagTek, its customers, and everyone else who makes, has made, used, offered to use, sold or imported MagTek's products have infringed or is infringing the '778 patent and, unless enjoined, DataTreasury will continue to threaten, institute or prosecute litigation alleging such infringement. On information and belief, unless enjoined, the conduct of DataTreasury will irreparably harm MagTek and will interfere with the ability of MagTek to sell its products.

PRAYER FOR RELIEF

MagTek respectfully requests:

1. That Plaintiff takes nothing by its First Amended Complaint;
2. That the Court determine and declare that MagTek has not and does not infringe, contributorily infringe, or infringe by inducement any claim of the '759 or '778 patents and that the claims of these patents are invalid, void, and unenforceable;
3. That the Court preliminarily and permanently enjoin DataTreasury and its agents from instituting, prosecuting or threatening any action alleging that MagTek, any of MagTek's customers, or anyone else acting in concert with MagTek has or is infringing, contributorily infringing, or infringing by inducement any claim of the '759 or '778 patents by manufacturing, selling, offering for sale, or importing or using any of MagTek's products;
4. That the Court award MagTek its costs of suit;
