Lee:

We have discussed your request for an extension. We do not believe any discovery is necessary in order for SRA to prepare its opposition to our transfer motion. However, as a courtesy to you and your trial schedule, we will agree to grant you until March 31 to file your opposition to our transfer motion. You may therefore list us as unopposed on a motion for an extension of time until and including March 31, 2009 for SRA to file its opposition to our transfer motion. However, in your certificate of conference, while you may state that you we do not oppose an extension until and including March 31, 2009, please do not state that we are in agreement that such an extension is necessary so that SRA can conduct discovery on the motion to transfer.

Best regards,

Mark

Mark, Tom, and Rich --

Could y'all try to get back to me on this extension request today? I have to drive to Marshall on Monday and won't have time to spend on drafting the motion after the weekend. Thx. Lee

Tom, Mark and Rich--

I will need discovery to respond to your motion to transfer. I also am deeply immersed in trial prep in another case (jury selection 3/3, additional hearing set 3/5 and the actual trial beginning 3/23). I don't see how I could obtain discovery before the last half of April. Therefore I would appreciate your agreement to an extension of 60 days from the current response date (March 9) to May 8. Could u pls let me know if Defts agree?

On another topic, any intelligence on the Delaware hearing date(s)?

Rgds. Lee
