```
Q. Well, actually, that is not quite
 1
 2
    true, is it, because this isn't one single
 3
    complete page from the search page results for
    Southwest Airlines, it is just an excerpt of
 4
 5
    some of page 1; is it not?
 6
                 MR. FENSTER: Object to form.
 7
                 THE WITNESS: That's correct but,
 8
   again, I wasn't concerned about that because it
    clearly shows the sponsored links, which is the
 9
10
   subject of this survey.
11
   BY MR. MORAN:
           Q. Fair enough, but it's also the
12
13
    case that what a respondent sees here on page 65
    is not the complete page 1 of the search page
14
   results; true?
15
           A. That's correct.
16
17
           Q. It's a portion of them; true?
           A. Yes.
18
           Q. Okay. And it consists of three
19
   sponsored links; correct?
20
21
                 Yes.
           Q. As we've seen from earlier
22
   exhibits some other screen shots that you all
23
   looked at had additional sponsored links. We've
24
   seen one that has five. You chose one here for
25
```

```
279
    the survey of three; right?
 1
 2
            A.
                  Yes.
 3
            0.
                  The sponsored link at the top,
 4
    which is the Southwest official site; correct?
 5
            A.
                  Yes.
 6
            Q.
                  And that's a sponsored link;
 7
    right?
 8
                  Yes.
            Α.
 9
                  You did not test for that one; did
            0.
10
    you?
11
            A.
                  I did not test for that. No, I
    did not.
12
13
                  And, obviously, on page 65 when a
            0.
    respondent is doing a survey they have no
14
15
    ability to scroll; true?
16
            Α.
                  They can't scroll beyond this, no.
17
                  They can't scroll at all; can
            Ο.
    they?
18
19
            A.
                  That is correct, they cannot.
20
                  It's a static piece of paper or a
            0.
21
    static image before question number 6; correct?
22
            A.
                  Yes.
                  And that's not how people actually
23
            Ο.
    see and deal with either organic or sponsored
24
    links in real life; is it?
25
```

- I believe it is. Again, the focus Α. 1 here was on if they are searching for Southwest 2 There's really no reason why they 3 Airlines. would need to scroll down, because the official 4 5 website is there to book flights, airline tickets and whatever, plus they have a Southwest 6 Airlines sponsored link. So could they have 7 scrolled down? Yes. 9 My focus was on not all the
  - organic or natural links, but rather on the sponsored links, and those are clearly delineated on that page.
  - Q. Of the three sponsored links that are shown on page 65, why did you choose the one that says smartfares.com/southwest, as opposed to the other two sponsored links, the one that's the Southwest official site or the Southwestern Airline, the one above it?
- Again, the official one has the 19 brand name in it and I wanted the one that 20 didn't. And then the question of the two, it 21 just seemed like that one was as easy to use as not. Again, the questions have -- they see them 23 in front of them, so it really didn't matter to 24 me which one I used, and 25

```
281
    smartfares.com/southwest seemed like one that is
 1
    more realistically something where they think
 2
    they could buy it.
 3
 4
                  And that's why you didn't test
            0.
 5
    that one?
                  I'm sorry?
 6
            Α.
 7
                  That's why you did not test that
            Q.
 8
    the one?
 9
                  MR. FENSTER: Object to form.
10
                  THE WITNESS: Again, the
11
    smartfares.com/southwest was the one that was.
   BY MR. MORAN:
12
13
            Ο.
                  Was tested?
                        If you look at question 7 it
14
            Α.
                  Yes.
15
   says, do you see that link.
16
            Q.
                  Yeah, thank you. Let's go on.
17
                  So you're displaying the stimuli
                  The Google search results, right,
   here; right?
18
19
   on page 65?
                  Yes.
2.0
            Α.
21
            Q.
                  And then you ask two questions of
22
   the respondents and then they hit the submit
   button; correct?
23
                  That's correct.
24
            Α.
                  So this is the exception, really,
25
            Q.
```

- about the organic or natural results; right?
- A. That's correct.

- Q. So after they hit click and answer question number 7 and go on to the remaining questions of FPX-1, the respondents could no longer view the Southwest Airlines search page results that we see on page 65; true?
  - A. That is correct.
- Q. Can't go back to that screen shot for questions 8, 9, 10 and 11; right?
- A. That's correct, because after the question 7 there's the word submit and they cannot go back.
- Q. Did you in the survey that you did here, did you rotate any of the questions 8, 9, 10 or 11 in any of the surveys that you did?
- A. No, I didn't see a need to. And,
  as I said, that's really not an algorithm that's
  permitted within Zoomerang, or to the best of my
  knowledge any of the other search engines -- I
  mean, survey research platforms.
- Q. In this, on page 66 you introduce
  a question or a term, rather, in question number
  Do you see that? Whether or not there's an
  association between the sponsored link and

any time during your work?

1

6

7

8

9

10

- A. I don't recall.
- Q. Do you know if you were to click
  on that website whether or not you could
  purchase a ticket on Southwest Airline?
  - A. I don't know.
  - Q. Do you know if you could -- if you clicked on that same website whether or not you could buy an airline ticket on any other airlines?
- 11 A. I don't know. I didn't look at 12 it.
- 13 Q. I'm sure -- strike that.
- To state the obvious, when anyone
  who was answering these surveys, they weren't
  able to click on any of these depictions on page
  for right?
- 18 A. That's correct.
- 19 Q. Now, let's go to page 68,
- 20 Professor, which is the questionnaire for Trek.
- 21 Do you see that?
- 22 A. Page 68, yes.
- Q. 68. My question for you, sir,
- 24 question 1, do you own a bicycle? And they had
- a question, yes or no was the possible answer;
