Amazon Development Center, India

Amazon's Development Center in India is all about innovation. Everything we are involved in is focused on innovating in the space we are in. We are focused on building products in some of the most interesting and challenging areas of technology right now.

We have just one way to describe what it is to be at Amazon - **Work hard. Have fun. Make history** . Work and Fun are not different experiences here - it is a singular way of life at Amazon!

Whether it is , creative pursuits or a challenging technology problem that we have resolved to solve, life at Amazon inspires us to make history!

Amazon.com invests more than \$200 million per year in technology and content, which is used to maintain and innovate on the customer experience.

Amazon India - Bangalore

Amazon India - Chennai
