

Exhibit 19

Company

Google's mission is to organize the world's information and make it universally accessible and useful.

Our company has packed a lot into a relatively young life. Since Google was founded in 1998, we've grown to serve millions of people around the world.

When Larry met Sergey

Founders Larry Page and Sergey Brin met at Stanford University in 1995. By 1996, they had built a search engine (initially called BackRub) that used links to determine the importance of individual webpages.
