GOOGLE INC.’S UNOPPOSED MOTION TO EXCEED PAGE LIMIT BY ONE PAGE

Google respectfully requests permission to file one additional page in its responsive claim construction brief, beyond the default limit of 30 pages. Google believes the Court and all parties would benefit from briefing that lays out the disputed claim terms and the parties’ respective constructions in the body of the brief. There is good cause to extend the page limit by one page to allow Google to provide the competing constructions in proximity to the relevant evidence and argument.

Google seeks additional pages solely to properly respond to Rockstar’s claim construction positions. Google has conferred with Plaintiffs, who do not oppose this motion. A proposed order is attached herewith.
