

Exhibit B

**XEROX AND MICROSOFT CREATE A NEW COMPANY
TO MANAGE INTELLECTUAL PROPERTY ON THE INTERNET.
SHARE IT, TRACK IT, CONTROL IT AND PROTECT IT.**

 **CONTENTGUARD** ContentGuard is a new company built on the belief that anyone who does business on the Internet should have a sure way to share the ideas they create. ContentGuard will deliver the industry's most comprehensive software and services to manage books, documents, music, software and other valuable content distributed over the Web. Microsoft will add ContentGuard technology to its existing rights management offerings in Windows®. ContentGuard will give publishers, authors, musicians and anyone who creates content, unprecedented freedom in marketing and delivering digital content. To get a better idea of how ContentGuard can help you manage your intellectual properties, visit www.contentguard.com.
