

GOOGLE'S MOTION TO COMPEL COMPLIANCE WITH PATENT RULE 3-1

Exhibit 7

Join us in an open-source browser project to help move the web forward

Chromium is the open-source project behind Google Chrome. We're releasing a first look at Chromium and invite you to join us in our effort to:

- Help build a safer, faster, and more stable way for all Internet users to experience the web
- Create a powerful platform for developing a new generation of web applications

Built for the open web

All of the code in the project is open source, including [V8](#), a new JavaScript virtual machine. You can get Chromium's [source code](#) and contribute to the project.

Built by the web community

-  Join our developer discussion [groups](#) to learn about Chromium and contribute to its future
-  Make Chromium better by finding bugs and filing [bug reports](#)
-  Submit patches for [known bugs](#)

Ready to learn more? Read the [documentation](#) and follow the [Getting Started guide](#).
