Thomas E. Ciotti is a partner and co-founder of the Venture Intellectual Property group, and founder of the biotechnology/chemistry, medical device, and greentech patent groups at Morrison & Foerster LLP. Mr. Ciotti has over 40 years of experience in life sciences intellectual property law and is regularly acknowledged by his peers as one of the top life sciences intellectual property lawyers in the United States. Mr. Ciotti is one of a distinguished group of attorneys who have been listed in The Best Lawyers in America for ten years. He was one of the first biotechnology patent attorneys and represented, and continues to represent, universities and corporations that pioneered the field of biotechnology. For many years Mr. Ciotti's practice revolved around counseling emerging life science companies, not only in the chemistry/biotech field, but also in the medical device field. In the course of doing so, he has served as principal intellectual property counsel to numerous biotechnology and medical device companies. Due diligence counseling from both the investor and company sides has always been a significant part of his practice. In recent years venture side due diligence has become the mainstay of Mr. Ciotti's practice and a critical and important part of Morrison & Foerster's intellectual property practice. With the recent interest in renewable energy/cleantech by the venture capital community, Mr. Ciotti's practice has grown to include those technologies. Mr. Ciotti holds chemical engineering and law degrees from the University of Michigan. He was president of the San Francisco Intellectual Property Law Association and has served as chairman of the Intellectual Property Section of the State Bar of California.

Scott W. Doyle **Partner**

scott.doyle@shearman.com

Education

The George Washington University Law School, LL.M., 1997, with highest honors
George Mason University, School of Law, J.D., 1993
George Washington University, M.S.E.E., 1988
Virginia Polytechnic Institute and State University, B.S.E.E., 1984

Practice

Mr. Doyle is a partner in the Litigation Group of Shearman & Sterling. Mr. Doyle is co-chair of the firm's intellectual property litigation practice and has extensive experience in the areas of intellectual property litigation, particularly patents and trade secrets, and in technology transactions and global patent strategy.

Mr. Doyle has been lead counsel in multiple litigations in courts throughout the United States, and has participated in all aspects of alternative dispute resolution. In trying a complex case, he is successful at taking complex material and simplifying the presentations of both law and technology to the bench and to a jury. He is also skilled at developing successful strategies for resolving disputes for his clients. He has litigated cases including a wide range of technologies including telecommunications, VoIP telephony, computer hardware and software, photolithography machines, set top box technologies, chemical compositions, medical devices, bar scanning devices, mechanical devices, among others. As an electrical engineer prior to practicing law, he helped design and develop next-generation military satellite and terrestrial communications systems.

Recent Experience

- » Currently representing Synchrome Technologies, Inc. in a patent litigation case pending in the District Court of Delaware. Synchrome is the plaintiff alleging patent infringement against several disk drive manufacturers and users on patents relating to disk drive technology.
- » Represented a large communications company in a trade secret matter. Mr. Doyle obtained an admission of misappropriation and an agreement by the opponent party to

Practice Areas

- » Intellectual Property & Technology Litigation
- » Litigation
- » Financial Services
- » Media, Electronics & Telecommunications
- » Medical Devices
- » Pharmaceuticals & Life Sciences

- discontinue use of client's trade secrets and cease shipping the compromised products.
- » *Nikon v. ASML et al. (N.D. of California)* – Represented Nikon in major photolithography patent case. Payment of \$145 million to Nikon.
- » *Macrovision Corporation v. Motorola, Inc. (N.D. of California)* – Represented Motorola against Macrovision in patent and contract disputes involving analog copy protection technology. Case settled.
- » Represented defendant in disputes involving trade secrets, IP ownership, and breach of contract. Mr. Doyle was successful in getting plaintiff to voluntarily dismiss all claims with no payment or other consideration by defendant.
- » *Vonage v. Nortel et al. (N.D. Tex. & D. Del.)* – Represented Vonage in multiple patent cases where Nortel was asserting 12 patents against Vonage and Vonage was asserting 3 patents against Nortel and others. Case settled.
- » *Software AG v. BEA (D. Del. and E.D.V.A.)* – Represented BEA Systems against Software AG, including the defense of an action for patent infringement in the District of Delaware, the assertion of infringement claims against Software AG in the Eastern District of Virginia, and the successful initiation of reexamination proceedings before the United States Patent and Trademark Office, leading to settlement of all litigation.
- » Represented Vonage in a three-week trial before the Eastern District of Virginia and on appeal at the Court of Appeals for the Federal Circuit.
- » *IPT v. Motorola, Inc. (N.D. of Illinois)* – Represented defendant Motorola in patent case involving four patents. Case settled.
- » *Ronald Katz Licensing v. Amtrak et al. (E.D. Tex. and C.D. of Ca.)* – Represented Amtrak in patent case relating to automatic telephone call processing technology. Case settled.
- » *ACTV, Inc. v. The Walt Disney Company (Court of Appeals for the Federal Circuit, S.D.N.Y.)* – Managed litigation as in-house counsel resulting in victory at the Federal Circuit on claim construction.
- » Mr. Doyle was an expert witness for Bancorp in the *Hartford Insurance v. Bancorp* case resulting in a victory in the District Court.

Admitted to the Bar

U.S. Patent and Trademark Office

Education

Purdue University, B.S.E.E., 1969

Highlights

John E. Gunther is a patent agent with SoCal IP Law Group. He was admitted to the Patent Bar in February, 1999.

John's technical experience includes electro-optical systems and components, liquid crystal devices, radar and RF systems, electronics, mechanical systems, and manufacturing methods.

John has a total of nearly 30 years of technology development and management experience at Northrop-Grumman, Texas Instruments, Hughes Electronics, and several commercial start-up companies. He was an inventor on 24 U.S. Patents. Examples of some patents John prepared are listed here:

- 6,816,650 Planar lightwave filter device
- 6,710,921 Polarizer apparatus for producing a generally polarized beam of light
- 6,693,749 Low-observability, wide-field-of-view, situation awareness viewing device
- 6,563,638 Wide-angle collimating optical device
- 6,452,724 Polarizer apparatus for producing a generally polarized beam of light
- 6,348,995 Reflective optical polarizer device with controlled light distribution and liquid crystal display incorporating the same
- 6,208,463 Polarizer apparatus for producing a generally polarized beam of light
- 6,141,124 Color filter and color picture display device using the same
- 6,108,131 Polarizer apparatus for producing a generally polarized beam of light
- 6,081,376 Reflective optical polarizer device with controlled light distribution and liquid crystal display incorporating the same
- 5,986,730 Dual mode reflective/transmissive liquid crystal display apparatus
- 5,907,416 Wide FOV simulator heads-up display with selective holographic reflector combined
- 5,764,389 Holographic color filters for display applications, and operating method
- 5,702,805 Photopolymer holographic decal for plastic substrate
- 5,541,825 Dual image CHMSLs without holography
- 5,499,116 Encoded hologram for producing a machine readable image and a human readable image
- 5,406,395 Holographic parking assistance device
- 5,101,193 Universal stand-alone holographic center high mounted stoplight
- 4,586,781 Diffraction optics diffusing screen
- 4,586,780 Directional diffusing screen with suppressed zero-order light
- 4,349,817 Liquid crystal display system using fiber optic faceplates
- 4,344,668 Fiber optic light traps for electro-optical

Practice Areas

Intellectual property strategy, licensing and contracts, patents, trademarks, copyrights and trade secrets

Admitted to the Bar

California, U.S. Patent and Trademark Office

Education

University of Maryland, B.S.E.E., 1986
Boston University, J.D., 1991

Highlights

Steve Sereboff is recognized as a premiere intellectual property strategist. Clients rely on Steve not only for great patents, they also depend on his economic and business acumen to guide their decisions on what to patent and where. Steve's clients rely on him for pragmatic advice on managing corporate risks arising from IP. He regularly advises clients on how to leverage their IP rights, and how to avoid claims of infringing others' IP rights.

Steve Sereboff has specialized in intellectual property law since 1991. His practice includes licensing and contracts, patents, trademarks, copyrights and trade secrets. He holds a B.S. degree in Electrical Engineering from the University of Maryland, and had seven years of experience in the computer software business before earning his law degree from Boston University. While at Boston University, Mr. Sereboff founded Boston University's Technology, Science and Law Association, and was employed by MIT to negotiate and manage software licenses. His technical expertise includes many aspects of computers (both software and hardware) and myriad electronic and electrical devices, their operation and manufacture. Steve Sereboff is the President of the Conejo Valley Bar Association.
