John -- out of the office this week. Will get you comments on Monday.

Is Apple moving forward with the search terms on e-mail?

John,

We do have some comments on the protective order. The designations are okay (as long as the attorney eyes only designation is not over used), but we will have some suggested changes on the review of source code. I will get back to you with the other comments in the next few days.

Stan and Shawn –

Apple is processing its first batch of documents for production. Some of these documents are confidential, and will need to be designated as such. Can you please let me know if EMG has comments on the attached protective order? If you are not in a position to tell me yet, can you at least let me know if EMG agrees to the confidentiality designations in the attached protective order?

**Thanks,
John**
