The foregoing is unnecessary if the document is being produced to Eolas in lieu of the answer to an Interrogatory. If the document has already been produced, “identify” means to provide the

production number of the document.

3. “Person” shall refer to any natural person, firm, association, partnership, corporation, group, organization or other form of legal business entity.

4. “Frito-Lay” means Frito-Lay, Inc., and includes any officers, directors, partners, associates, employees, staff members, agents, representatives, attorneys, subsidiaries foreign or domestic, parents, affiliates, divisions, successors, predecessors, and any other related entities, and specifically includes all assets or companies that have been acquired by Frito-Lay or with respect to which it has succeeded to rights or obligations.

5. “You,” or “Your” means Frito-Lay, and includes any officers, directors, partners, associates, employees, staff members, agents, representatives, attorneys, subsidiaries foreign or domestic, parents, affiliates, divisions, successors, predecessors, and any other related entities, and specifically includes all assets or companies that Frito-Lay has acquired or with respect to which Frito-Lay has succeeded to rights or obligations.

6. As used herein, the term “document” means and includes, but is not limited to, the following items, whether typed, printed, handwritten, drawn, created, recorded, stored, or reproduced by any means or process and whether or not a claim of privilege or other bar to discovery is asserted: notes, letters, memoranda, correspondence, e-mail, drafts, books, telegrams, telexes, telephone bills, telephone logs, notebooks, charts, tables, lists, graphs, agendas, outlines, schedules, plans, studies, applications, policies, procedures, rules, guidelines, manuals, handbooks, evaluations, worksheets, minutes, bids, bid forms, promissory notes, memoranda of understanding, statements of work, requests for proposal, requests for quotation, letters of intent, contracts, agreements, journal ledgers, accounting ledgers, invoices, spreadsheets, loan agreements, tabulations, compilations, financial statements, income statements, balance sheets, checks, registers, pro-formas, budgets, projections, strategic plans,

7. As used herein, the term “Accused Products” means, but is not limited to, the following:

The websites (including the servers hosting those websites) and functionality identified in the charts titled “906 – Frito-Lay - Chart1” and “985 – Frito-Lay - Chart1” attached to Eolas’ P.R. 3-2 submission. This includes, but is not limited to the following:

- fritolay.com
- happiness.lays.com

8. Embedded Interactive Media means embedded audio, visual, and/or video content that allows a user to pause, play, fast-forward, rewind, advance, and/or vary the volume of the content.

9. Embedded Interactive Ads means embedded advertising content that allows a user to scroll through different ads or otherwise interact with the ad.

10. Flash and Shockwave means Adobe Flash and Adobe Shockwave (formerly Macromedia Flash and Macromedia Shockwave) used to add animation, video, and/or interactivity to web pages.

11. QuickTime means the multimedia framework developed by Apple Inc., capable of handling various formats of digital video, picture, sound, panoramic images, and interactivity.

12. Java means applets written in any Java platform (including JavaFX) used to add animation, video, and/or interactivity to web pages.

13. HTML5 means HTML used to add animation, video, audio, and/or interactivity to web pages through the use of the <video> tag, <audio> tag or some other method for including interactive multimedia and graphical content on the web without having to resort to proprietary plugins and APIs.

14. AJAX means a group of interrelated web development methods used on the client-side to create interactive web applications. With Ajax, web applications can retrieve data from the server asynchronously in the background without interfering with the display and behavior of the existing page (i.e., there is no need to “refresh” the page to update the information displayed). Data is usually (but not necessarily) retrieved using the XMLHttpRequest object. Despite the name, the use of XML is not needed, and the requests need not be asynchronous.

15. Interactive Product Viewer means any product viewer that provides zoom and/or pan functionality for viewing the image.

16. As used herein, the term “Accused Feature” means and includes, but is not limited to, the use and/or support of (a) Embedded Interactive Media (including, but not limited to, Flash, Shockwave, QuickTime, Java, and HTML5), (b) Embedded Interactive Ads, (c) AJAX or AJAX-like functionality, and (d) Interactive Product Viewers.
