

## Why use Google Chrome?

Google Chrome is a web browser that runs web pages and applications with lightning speed. Read about why we built a browser.

### Speed: Fast to launch, fast to load web pages

- Quick to start up from your desktop
- Loads web pages in a snap
- Runs web applications faster than ever

### Simplicity: Designed for efficiency and ease of use

- Search and navigate to web pages from the same box
- Arrange and organize tabs however you wish — quickly and easily
- Get to your favorite websites with just a click, from the thumbnails of your most visited sites in the New Tab page

### Style: Themes to add delight to your browser

Try Minimalist, Star Gazing, or Google Chrome Artist Themes.
