Claim	Claim Language	Exemplary Evidence from CDW Corp.'s websites
1a	receiving, at the client workstation from the network server over the network environment, at least one file containing information to enable a browser application to display at least a portion of a distributed hypermedia document within a browser-controlled window;	Users of CDW Corp.'s websites, the websites themselves and/or the servers hosting those websites (and/or the combination thereof), operate in a hypermedia network environment that includes client workstations executing browsers. CDW Corp.'s servers transmit a series of communications to client workstations in the distributed hypermedia network. CDW Corp.'s servers format the communications so that the client workstation receives, from the network server over the network environment, at least one file containing information to enable a browser application to display at least a portion of a distributed hypermedia document within a browser-controlled window. In addition, CDW Corp. provides the infrastructure (e.g. servers, CDW Corp.'s websites, etc.), in addition to instructions to users, and causes them to use CDW Corp.'s websites in an infringing manner in its default and expected use.

		 <p>The screenshot shows the CDW website homepage in a Mozilla Firefox browser window. The URL is http://www.cdw.com/. The page features a navigation bar with 'Shop CDW' and 'My Account' tabs. A search bar is present with a 'Find It' button. Below the navigation, there are several promotional banners and product categories. A prominent banner titled 'MEMORY FAILING YOU?' is highlighted with a red box, featuring the text 'Use our memory finders to quickly pinpoint the best RAM upgrades for existing systems.' and a 'Find Your RAM' button. Other banners include 'Welcome to CDW', 'Account Log On', and 'Featured Brands' with products like APC Back-UPS NS and Eaton 5130 UPS. The footer includes logos for NETGEAR, HP, and Microsoft.</p> <p>Source: Webpage of CDW at URL http://www.cdw.com/</p>

Claim	Claim Language	Exemplary Evidence from CDW Corp.'s websites
		 <p>The screenshot shows the CDW website homepage. At the top left is the CDW logo. To its right are 'Shop CDW' and 'My Account' buttons. Below these is a search bar with 'Search for...' and a dropdown menu set to 'All Products', with a 'Find It' button and a link to 'Browse All Categories'. A navigation menu includes 'Products', 'Services', 'Solutions Center', and 'What CDW Offers'. On the left, a 'Welcome to CDW' section lists categories like 'Small / Home Office' and 'Small Business'. The main banner features the text 'LOOKING TO SPEND LESS?' and 'Our Best Deals on notebooks, LCDs, printers, data storage and more can all be found in one convenient location.' with a 'Say YES to Savings' button. Below the banner is a 'Best Deals' link. On the right, there is an 'Account Log On' section with input fields for 'Enter User Name' and 'Forgot User Name?', a 'Forgot Password?' link, checkboxes for 'Keep me logged on all day' and 'Remember my User Name', and a 'Log On' button. Below the banner is a row of category links: 'Best Deals', 'Outlet CDW Outlet', 'New to CDW?', 'Microsoft', and 'Ink & Toner'. At the bottom, there are five product category tiles: 'Notebooks', 'Desktops', 'LCD Monitors', 'Printers', and 'Data Storage', each with 'View All' and 'Top Sellers' links.</p> <p>Source: http://www.cdw.com/</p>

Claim	Claim Language	Exemplary Evidence from CDW Corp.'s websites
		 <p>The screenshot displays the CDW website's homepage. At the top, there is a navigation bar with the CDW logo, a search bar, and links for 'Shop CDW' and 'My Account'. Below this is a main menu with categories: 'Products', 'Services', 'Solutions Center', and 'What CDW Offers'. A large central banner for 'CDW OUTLET' is highlighted with a red border, featuring the text 'Find great prices on thousands of returned, overstocked and barely touched IT products. New items added all the time.' and a 'Save at CDW Outlet' button. To the right of the banner is an 'Account Log On' section with input fields for 'Enter User Name' and 'Forgot User Name?', a password field, and a 'Log On' button. Below the banner is a horizontal navigation bar with links for 'BEST DEALS', 'Best Deals', 'Outlet CDW Outlet', 'New to CDW?', 'Microsoft', and 'Ink & Toner'. Further down are product category tiles for 'Notebooks', 'Desktops', 'LCD Monitors', 'Printers', and 'Data Storage', each with 'View All' and 'Top Sellers' links. At the bottom, there is a 'Featured Brands' section with a 'Select Brand' dropdown and a 'CDW Recommends' section.</p> <p>Source: http://www.cdw.com/</p>

5a	parsing the received file to identify text formats included in the received file.	CDW Corp.'s websites and/or the servers hosting those websites (and/or the combination thereof), operate in a hypermedia network environment that includes client workstations executing browsers. CDW Corp.'s servers transmit a series of communications to client workstations in the distributed hypermedia network. CDW Corp.'s servers format the communications so that the browser parses the received file to identify text formats included in the received file. In addition, CDW Corp. provides the infrastructure (e.g. servers, CDW Corp.'s websites, etc.), in addition to instructions to users, and causes them to use CDW Corp.'s websites in an infringing manner in its default and expected use.

		 <p>The screenshot shows the CDW website homepage. At the top, there is a navigation bar with the CDW logo, 'Shop CDW', and 'My Account' buttons. Below this is a search bar and a dropdown menu for 'All Products'. The main content area features a large 'CDW OUTLET' banner with the text 'Find great prices on thousands of returned, overstocked and barely touched IT products. New items added all the time.' and a 'Save at CDW Outlet' button. To the left of the banner is a 'Welcome to CDW' section with a list of categories: Small / Home Office, Small Business, Medium / Large Business, Government / Education, and Healthcare. To the right is an 'Account Log On' section with input fields for user name and password, and a 'Log On' button. Below the banner is a horizontal navigation bar with links for 'BEST DEALS', 'Outlet CDW Outlet', 'New to CDW?', 'Microsoft', and 'Ink & Toner'. Further down are several product category tiles: Notebooks, Desktops, LCD Monitors, Printers, and Data Storage, each with a 'View All' and 'Top Sellers' link. At the bottom, there is a 'Featured Brands' section with a 'Select Brand' dropdown and a 'View All Brands' link, and a 'CDW Recommends' section.</p> <p>Source: http://www.cdw.com/</p>

14d	and processing said information at the client workstation to interactively control said controllable application.	Users of CDW Corp.'s websites, the websites themselves and/or the servers hosting those websites (and/or the combination thereof), operate in a hypermedia network environment that includes client workstations executing browsers. CDW Corp.'s servers transmit a series of communications to client workstations in the distributed hypermedia network. CDW Corp.'s servers format the communications so that the client workstation processes said information to interactively control said controllable application. In addition, CDW Corp. provides the infrastructure (e.g. servers, CDW Corp.'s websites, etc.), in addition to instructions to users, and causes them to use CDW Corp.'s websites in an infringing manner in its default and expected use.

Below these is a search bar with 'Search for...' and a dropdown menu set to 'All Products', with a 'Find It' button and a link to 'Browse All Categories'. A navigation menu below the search bar includes 'Products', 'Services', 'Solutions Center', and 'What CDW Offers'. On the left side, there is a 'Welcome to CDW' section with a list of categories: Small / Home Office, Small Business, Medium / Large Business, Government / Education, and Healthcare. The main content area features a large banner with the text 'LOOKING TO SPEND LESS?' and 'Our Best Deals on notebooks, LCDs, printers, data storage and more can all be found in one convenient location.' Below this text is a red button that says 'Say YES to Savings'. To the right of the banner is an 'Account Log On' section with input fields for 'Enter User Name' and 'Forgot User Name?', a 'Forgot Password?' link, and checkboxes for 'Keep me logged on all day' and 'Remember my User Name', followed by a 'Log On' button. Below the banner is a horizontal navigation bar with links for 'Best Deals', 'Outlet', 'CDW Outlet', 'New to CDW?', 'Microsoft', and 'Ink & Toner'. At the bottom, there are five product category tiles: 'Notebooks', 'Desktops', 'LCD Monitors', 'Printers', and 'Data Storage', each with a 'View All' and 'Top Sellers' link.</p> <p>Source: http://www.cdw.com/</p>

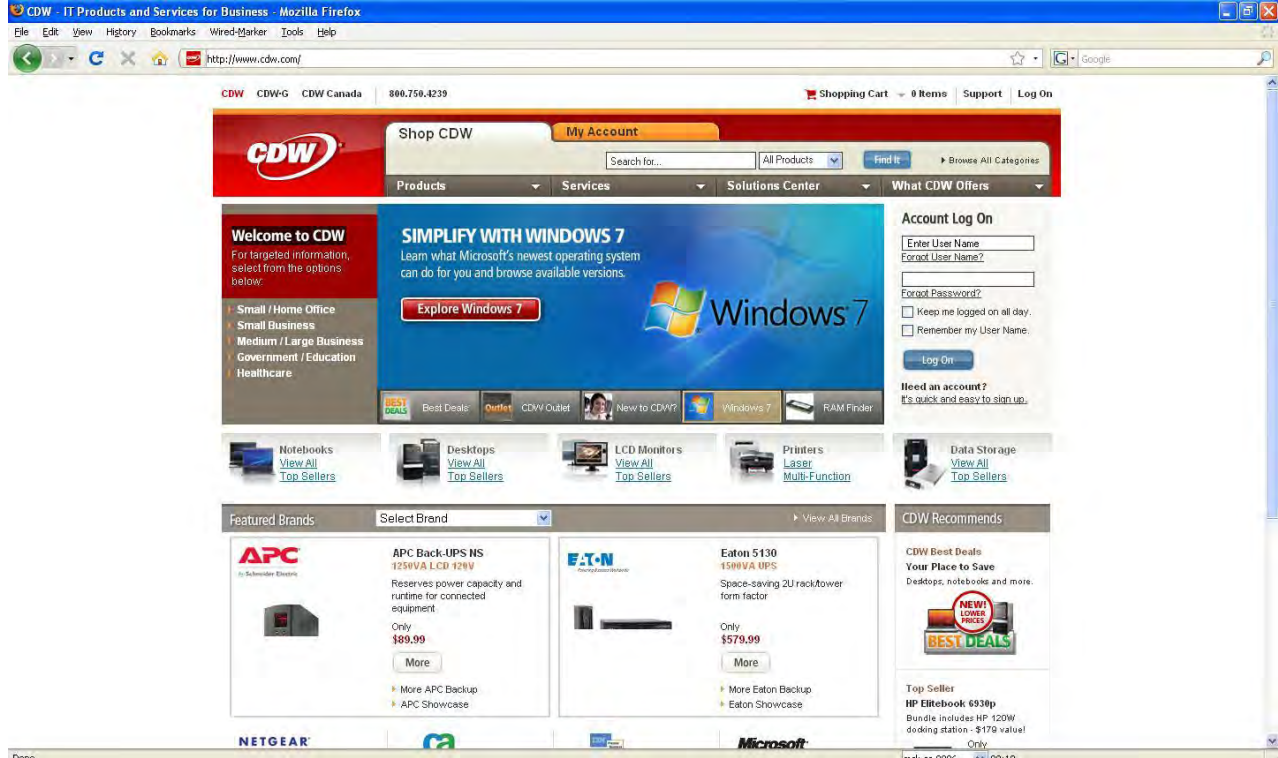

Claim	Claim Language	Exemplary Evidence from CDW Corp.'s websites
37	The method of claim 36 where: the information to enable comprises text formats.	<p>Users of CDW Corp.'s websites, the websites themselves and/or the servers hosting those websites (and/or the combination thereof) further comprises the method of claim 36 where: the information to enable comprises text formats. In addition, CDW Corp. provides the infrastructure (e.g. servers, CDW Corp.'s websites, etc.), in addition to instructions to users, and causes them to use CDW Corp.'s websites in an infringing manner in its default and expected use.</p> <p><i>See the evidence and information cited for claim 2 supra which is expressly incorporated herein.</i></p>
38	The method of claim 37 where: the text formats are HTML tags.	<p>Users of CDW Corp.'s websites, the websites themselves and/or the servers hosting those websites (and/or the combination thereof) further comprises the method of claim 37 where: the text formats are HTML tags. In addition, CDW Corp. provides the infrastructure (e.g. servers, CDW Corp.'s websites, etc.), in addition to instructions to users, and causes them to use CDW Corp.'s websites in an infringing manner in its default and expected use.</p> <p><i>See the evidence and information cited for claim 3 supra which is expressly incorporated herein.</i></p>
39	The method of claim 36 where: the information contained in the file received comprises at least one embed text format.	<p>Users of CDW Corp.'s websites, the websites themselves and/or the servers hosting those websites (and/or the combination thereof) further comprises the method of claim 36 where: the information contained in the file received comprises at least one embed text format. In addition, CDW Corp. provides the infrastructure (e.g. servers, CDW Corp.'s websites, etc.), in addition to instructions to users, and causes them to use CDW Corp.'s websites in an infringing manner in its default and expected use.</p> <p><i>See the evidence and information cited for claim 4 supra which is expressly incorporated herein.</i></p>

Claim	Claim Language	Exemplary Evidence from CDW Corp.'s websites
40pre	A method of serving digital information in a computer network environment having a network server coupled to said computer network environment, and where the network environment is a distributed hypermedia network environment, the method comprising:	<p>CDW Corp.'s websites, and/or the servers hosting those websites (and/or the combination thereof), operate in a hypermedia network environment that includes client workstations executing browsers which comprises a method of serving digital information in a computer network environment having a network server coupled to said computer network environment, and where the network environment is distributed hypermedia network environment, the method comprising of the following claim elements. In addition, CDW Corp. provides the infrastructure (e.g. servers, CDW Corp.'s websites, etc.), in addition to instructions to users, and causes them to use CDW Corp.'s websites in an infringing manner in its default and expected use.</p> <p><i>See the evidence and information cited for claim element 1pre supra which is expressly incorporated herein.</i></p>
40a	communicating via the network server with at least one remote client workstation over said computer network environment in order to cause said client workstation	<p>CDW Corp.'s websites and/or the servers hosting those websites (and/or the combination thereof), operate in a hypermedia network environment that includes client workstations executing browsers. CDW Corp.'s servers communicate over said computer network environment with at least one remote client workstation in order to cause said client workstation to execute the following claim elements. In addition, CDW Corp. provides the infrastructure (e.g. servers, CDW Corp.'s websites, etc.), in addition to instructions to users, and causes them to use CDW Corp.'s websites in an infringing manner in its default and expected use.</p> <p><i>See the evidence and information cited for claim element 20a supra which is expressly incorporated herein.</i></p>

Claim	Claim Language	Exemplary Evidence from CDW Corp.'s websites
	to:	
40b	receive, over said computer network environment from the network server, at least one file containing information to enable a browser application to display at least a portion of a distributed hypermedia document within a browser-controlled window;	<p>CDW Corp.'s websites and/or the servers hosting those websites (and/or the combination thereof), operate in a hypermedia network environment that includes client workstations executing browsers. CDW Corp.'s servers transmit a series of communications to client workstations in the distributed hypermedia network. CDW Corp.'s servers format the communications so that the client workstation receives, over said computer network environment from the network server, at least one file containing information to enable a browser application to display at least a portion of a distributed hypermedia document within a browser-controlled window. In addition, CDW Corp. provides the infrastructure (e.g. servers, CDW Corp.'s websites, etc.), in addition to instructions to users, and causes them to use CDW Corp.'s websites in an infringing manner in its default and expected use.</p> <p><i>See the evidence and information cited for claim element 1a supra which is expressly incorporated herein.</i></p>
40c	execute, at said client workstation, a browser application, with the browser application: responding to text formats to initiate	<p>CDW Corp.'s websites and/or the servers hosting those websites (and/or the combination thereof), operate in a hypermedia network environment that includes client workstations executing browsers. CDW Corp.'s servers transmit a series of communications to client workstations in the distributed hypermedia network. CDW Corp.'s servers format the communications so that the client workstation executes at said client workstation, a browser application, with the browser application responding to text formats to initiate processing specified by the text formats. In addition, CDW Corp. provides the infrastructure (e.g. servers, CDW Corp.'s websites, etc.), in addition to instructions to users, and causes</p>

Claim	Claim Language	Exemplary Evidence from CDW Corp.'s websites
	processing specified by the text formats;	<p>them to use CDW Corp.'s websites in an infringing manner in its default and expected use.</p> <p><i>See the evidence and information cited for claim element 1b supra which is expressly incorporated herein.</i></p>
40d	displaying, on said client workstation, at least a portion of the document within the browser-controlled window;	<p>CDW Corp.'s websites and/or the servers hosting those websites (and/or the combination thereof), operate in a hypermedia network environment that includes client workstations executing browsers. CDW Corp.'s servers transmit a series of communications to client workstations in the distributed hypermedia network. CDW Corp.'s servers format the communications so that the client workstation executes at said client workstation, a browser application, with the browser application displaying, on said client workstation, at least a portion of the document within the browser-controlled window. In addition, CDW Corp. provides the infrastructure (e.g. servers, CDW Corp.'s websites, etc.), in addition to instructions to users, and causes them to use CDW Corp.'s websites in an infringing manner in its default and expected use.</p> <p><i>See the evidence and information cited for claim element 1c supra which is expressly incorporated herein.</i></p>
40e	identifying an embed text format which corresponds to a first location in the document, where the embed text format specifies the location of at	<p>CDW Corp.'s websites and/or the servers hosting those websites (and/or the combination thereof), operate in a hypermedia network environment that includes client workstations executing browsers. CDW Corp.'s servers transmit a series of communications to client workstations in the distributed hypermedia network. CDW Corp.'s servers format the communications so that the client workstation executes at said client workstation, a browser application, with the browser application identifying an embed text format which corresponds to a first location in the document, where the embed text format specifies the location of at least a portion of an object. In addition, CDW Corp. provides the infrastructure (e.g. servers, CDW Corp.'s websites, etc.), in addition to instructions to users, and causes</p>

Claim	Claim Language	Exemplary Evidence from CDW Corp.'s websites
	least a portion of an object;	<p>them to use CDW Corp.'s websites in an infringing manner in its default and expected use.</p> <p><i>See the evidence and information cited for claim element 1d supra which is expressly incorporated herein.</i></p>
40f	identifying and locating an executable application associated with the object; and	<p>CDW Corp.'s websites and/or the servers hosting those websites (and/or the combination thereof), operate in a hypermedia network environment that includes client workstations executing browsers. CDW Corp.'s servers transmit a series of communications to client workstations in the distributed hypermedia network. CDW Corp.'s servers format the communications so that the client workstation executes at said client workstation, a browser application, with the browser application identifying and locating an executable application associated with the object. In addition, CDW Corp. provides the infrastructure (e.g. servers, CDW Corp.'s websites, etc.), in addition to instructions to users, and causes them to use CDW Corp.'s websites in an infringing manner in its default and expected use.</p> <p><i>See the evidence and information cited for claim element 1e supra which is expressly incorporated herein.</i></p>
40g	automatically invoking the executable application, in response to the identifying of the embed text format, in order to enable an end-user to	<p>CDW Corp.'s websites and/or the servers hosting those websites (and/or the combination thereof), operate in a hypermedia network environment that includes client workstations executing browsers. CDW Corp.'s servers transmit a series of communications to client workstations in the distributed hypermedia network. CDW Corp.'s servers format the communications so that the client workstation executes at said client workstation, a browser application, with the browser application automatically invoking the executable application in response to the identifying of the embed text format, in order to enable an end-user to directly interact with the object while the object is being displayed within a display area created at the first location within the portion of the hypermedia document being displayed in the browser-controlled window. In addition, CDW Corp. provides the infrastructure (e.g. servers, CDW</p>

Claim	Claim Language	Exemplary Evidence from CDW Corp.'s websites
	<p>directly interact with the object while the object is being displayed within a display area created at the first location within the portion of the hypermedia document being displayed in the browser-controlled window,</p>	<p>Corp.'s websites, etc.), in addition to instructions to users, and causes them to use CDW Corp.'s websites in an infringing manner in its default and expected use.</p> <p><i>See the evidence and information cited for claim element 1f supra which is expressly incorporated herein.</i></p>
<p>40h</p>	<p>wherein the executable application is part of a distributed application, and wherein at least a portion of the distributed application is for execution on the network server.</p>	<p>CDW Corp.'s websites and/or the servers hosting those websites (and/or the combination thereof), operate in a hypermedia network environment that includes client workstations executing browsers. The executable application is part of a distributed application, and wherein at least a portion of the distributed application is for execution on the network server. In addition, CDW Corp. provides the infrastructure (e.g. servers, CDW Corp.'s websites, etc.), in addition to instructions to users, and causes them to use CDW Corp.'s websites in an infringing manner in its default and expected use.</p> <p><i>See the evidence and information cited for claim element 36g supra which is expressly incorporated herein.</i></p>

Claim	Claim Language	Exemplary Evidence from CDW Corp.'s websites
41	The method of claim 40 where: the information to enable comprises text formats.	<p>CDW Corp.'s websites and/or the servers hosting those websites (and/or the combination thereof), further comprises the method of claim 40 where: the information to enable comprises text formats. In addition, CDW Corp. provides the infrastructure (e.g. servers, CDW Corp.'s websites, etc.), in addition to instructions to users, and causes them to use CDW Corp.'s websites in an infringing manner in its default and expected use.</p> <p><i>See the evidence and information cited for claim 2 supra which is expressly incorporated herein.</i></p>
42	The method of claim 41 where: the text formats are HTML tags.	<p>CDW Corp.'s websites and/or the servers hosting those websites (and/or the combination thereof), further comprises the method of claim 41 where: the text formats are HTML tags. In addition, CDW Corp. provides the infrastructure (e.g. servers, CDW Corp.'s websites, etc.), in addition to instructions to users, and causes them to use CDW Corp.'s websites in an infringing manner in its default and expected use.</p> <p><i>See the evidence and information cited for claim 3 supra which is expressly incorporated herein.</i></p>
43	The method of claim 40 where: the information contained in the file received comprises at least one embed text format.	<p>CDW Corp.'s websites and/or the servers hosting those websites (and/or the combination thereof), further comprises the method of claim 40 where: the information contained in the file received comprises at least one embed text format. In addition, CDW Corp. provides the infrastructure (e.g. servers, CDW Corp.'s websites, etc.), in addition to instructions to users, and causes them to use CDW Corp.'s websites in an infringing manner in its default and expected use.</p> <p><i>See the evidence and information cited for claim 4 supra which is expressly incorporated herein.</i></p>
44pre	A method for serving digital information in a	<p>CDW Corp.'s websites and/or the servers hosting those websites (and/or the combination thereof), operate in a hypermedia network environment that includes client workstations executing browsers which comprises a method for serving digital information in a computer network environment, said</p>

Claim	Claim Language	Exemplary Evidence from CDW Corp.'s websites
	computer network environment, said method comprising:	<p>method comprising of the following claim elements. In addition, CDW Corp. provides the infrastructure (e.g. servers, CDW Corp.'s websites, etc.), in addition to instructions to users, and causes them to use CDW Corp.'s websites in an infringing manner in its default and expected use.</p> <p><i>See the evidence and information cited for claim element 1pre supra which is expressly incorporated herein.</i></p>
44a	communicating via a network server with at least a remote client workstation over the computer network environment in order to	<p>CDW Corp.'s websites and/or the servers hosting those websites (and/or the combination thereof), operate in a hypermedia network environment where at least one remote client workstation communicates over the computer network environment with a network server. In addition, CDW Corp. provides the infrastructure (e.g. servers, CDW Corp.'s websites, etc.), in addition to instructions to users, and causes them to use CDW Corp.'s websites in an infringing manner in its default and expected use.</p> <p><i>See the evidence and information cited for claim element 20a supra which is expressly incorporated herein.</i></p>
44b	receive commands from the client workstation, with the network server coupled to said computer network environment, wherein said computer network	<p>CDW Corp.'s websites and/or the servers hosting those websites (and/or the combination thereof), operate in a hypermedia network environment that includes client workstations executing browsers. CDW Corp.'s servers receive commands from the client workstation, with the network server coupled to said computer network environment, wherein said computer network environment has at least said client workstation and said network server coupled to the computer network environment, wherein the computer network environment is a distributed hypermedia environment. In addition, CDW Corp. provides the infrastructure (e.g. servers, CDW Corp.'s websites, etc.), in addition to instructions to users, and causes them to use CDW Corp.'s websites in an infringing manner in its default and expected use.</p>

Claim	Claim Language	Exemplary Evidence from CDW Corp.'s websites
	<p>environment has at least said client workstation and said network server coupled to the computer network environment, wherein the computer network environment is a distributed hypermedia environment,</p>	<p><i>See the evidence and information cited for claim element 14a supra which is expressly incorporated herein.</i></p>
<p>44c</p>	<p>wherein the client workstation receives, over the computer network environment from the server, at least one file containing information to enable a browser application to display, on the</p>	<p>CDW Corp.'s websites and/or the servers hosting those websites (and/or the combination thereof), operate in a hypermedia network environment that includes client workstations executing browsers. CDW Corp.'s servers transmit a series of communications to client workstations in the distributed hypermedia network. CDW Corp.'s servers format the communications so that the client workstation receives, over the computer network environment from the server at least one file containing information to enable a browser application to display, on the client workstation, at least a portion of a distributed hypermedia document within a browser-controlled window. In addition, CDW Corp. provides the infrastructure (e.g. servers, CDW Corp.'s websites, etc.), in addition to instructions to users, and causes them to use CDW Corp.'s websites in an infringing manner in its default and expected use.</p> <p><i>See the evidence and information cited for claim element 1a supra which is expressly incorporated</i></p>

Claim	Claim Language	Exemplary Evidence from CDW Corp.'s websites
	client workstation, at least a portion of a distributed hypermedia document within a browser-controlled window,	<i>herein.</i>
44d	wherein the client workstation executes the browser application, with the browser application responding to text formats to initiate processing specified by the text formats,	<p>CDW Corp.'s websites and/or the servers hosting those websites (and/or the combination thereof), operate in a hypermedia network environment that includes client workstations executing browsers. CDW Corp.'s servers transmit a series of communications to client workstations in the distributed hypermedia network. CDW Corp.'s servers format the communications so that the client workstation executes a browser to respond to text formats to initiate processing specified by the text formats. In addition, CDW Corp. provides the infrastructure (e.g. servers, CDW Corp.'s websites, etc.), in addition to instructions to users, and causes them to use CDW Corp.'s websites in an infringing manner in its default and expected use.</p> <p><i>See the evidence and information cited for claim element 1b supra which is expressly incorporated herein.</i></p>
44e	wherein at least said portion of the document is displayed within the browser-controlled window,	<p>CDW Corp.'s websites and/or the servers hosting those websites (and/or the combination thereof), operate in a hypermedia network environment that includes client workstations executing browsers. CDW Corp.'s servers transmit a series of communications to client workstations in the distributed hypermedia network. CDW Corp.'s servers format the communications so that the client workstation executes a browser to display at least said portion of the document within the browser-controlled window. In addition, CDW Corp. provides the infrastructure (e.g. servers, CDW Corp.'s websites, etc.),</p>
