Nokia enters into patent license agreement with Apple

Apple payments to Nokia settle all litigation and have positive financial impact

Nokia Corporation
Stock exchange release
June 14, 2011 at 08:05 (CET +1)

Espoo, Finland - Nokia announced that it has signed a patent license agreement with Apple. The agreement will result in settlement of all patent litigation between the companies, including the withdrawal by Nokia and Apple of their respective complaints to the US International Trade Commission.

The financial structure of the agreement consists of a one-time payment payable by Apple and on-going royalties to be paid by Apple to Nokia for the term of the agreement. The specific terms of the contract are confidential.

"We are very pleased to have Apple join the growing number of Nokia licensees," said Stephen Elop, president and chief executive officer of Nokia. "This settlement demonstrates Nokia's industry leading patent portfolio and enables us to focus on further licensing opportunities in the mobile communications market."

During the last two decades, Nokia has invested approximately EUR 43 billion in research and development and built one of the wireless industry's strongest and broadest IPR portfolios, with over 10,000 patent families. Nokia is a world leader in the development of handheld device and mobile communications technologies, which is also demonstrated by Nokia's strong patent position.

This agreement is expected to have a positive financial impact on Nokia's recently revised outlook for the second quarter 2011 of around break-even non-IFRS operating margin for Devices & Services.

About Nokia

Nokia is committed to connecting people to what matters to them by combining advanced mobile technology with personalized services. More than 1.3 billion people connect to one another with a Nokia, from our most affordable voice-optimized mobile phones to advanced Internet-connected smartphones sold in virtually every market in the world. Through Ovi (www.ovi.com), people also enjoy access to maps and navigation on mobile, a rapidly expanding applications store, a growing catalog of digital music, free email and more. Nokia's NAVTEQ is a leader in comprehensive digital mapping and navigation services, and Nokia Siemens Networks is one of the leading providers of telecommunications infrastructure hardware, software and professional services globally.

FORWARD-LOOKING STATEMENTS

It should be noted that certain statements herein which are not historical facts are forward-looking statements, including, without limitation, those regarding: A) the expected plans and benefits of our strategic partnership with Microsoft to combine complementary assets and expertise to form a global mobile ecosystem and to adopt Windows Phone as our primary smartphone platform; B) the timing and expected benefits of our new strategy, including expected operational and financial benefits and targets as well as changes in leadership and operational structure; C) the timing of the deliveries of our products and

services; D) our ability to innovate, develop, execute and commercialize new technologies, products and services; E) expectations regarding market developments and structural changes; F) expectations and targets regarding our industry volumes, market share, prices, net sales and margins of products and services; G) expectations and targets regarding our operational priorities and results of operations; H) expectations and targets regarding collaboration and partnering arrangements; I) the outcome of pending and threatened litigation; J) expectations regarding the successful completion of acquisitions or restructurings on a timely basis and our ability to achieve the financial and operational targets set in connection with any such acquisition or restructuring; and K) statements preceded by "believe," "expect," "anticipate," "foresee," "target," "estimate," "designed," "plans," "will" or similar expressions. These statements are based on management's best assumptions and beliefs in light of the information currently available to it. Because they involve risks and uncertainties, actual results may differ materially from the results that we currently expect. Factors that could cause these differences include, but are not limited to: 1) our ability to succeed in creating a competitive smartphone platform for high-quality differentiated winning smartphones or in creating new sources of revenue through our partnership with Microsoft; 2) the expected timing of the planned transition to Windows Phone as our primary smartphone platform and the introduction of mobile products based on that platform; 3) our ability to maintain the viability of our current Symbian smartphone platform during the transition to Windows Phone as our primary smartphone platform; 4) our ability to realize a return on our investment in MeeGo and next generation devices, platforms and user experiences; 5) our ability to build a competitive and profitable global ecosystem of sufficient scale, attractiveness and value to all participants and to bring winning smartphones to the market in a timely manner; 6) our ability to produce mobile phones in a timely and cost efficient manner with differentiated hardware, localized services and applications; 7) our ability to increase our speed of innovation, product development and execution to bring new competitive smartphones and mobile phones to the market in a timely manner; 8) our ability to retain, motivate, develop and recruit appropriately skilled employees; 9) our ability to implement our strategies, particularly our new mobile product strategy; 10) the intensity of competition in the various markets where we do business and our ability to maintain or improve our market position or respond successfully to changes in the competitive environment; 11) our

Networks' success in the telecommunications infrastructure services market and Nokia Siemens Networks' ability to effectively and profitably adapt its business and operations in a timely manner to the increasingly diverse service needs of its customers; 35) developments under large, multi-year contracts or in relation to major customers in the networks infrastructure and related services business; 36) the management of our customer financing exposure, particularly in the networks infrastructure and related services business; 37) whether ongoing or any additional governmental investigations into alleged violations of law by some former employees of Siemens AG may involve and affect the carrier-related assets and employees transferred by Siemens AG to Nokia Siemens Networks; 38) any impairment of Nokia Siemens Networks customer relationships resulting from ongoing or any additional governmental investigations involving the Siemens carrier-related operations transferred to Nokia Siemens Networks; as well as the risk factors specified on pages 12-39 of Nokia's annual report Form 20-F for the year ended December 31, 2010 under Item 3D. "Risk Factors." Other unknown or unpredictable factors or underlying assumptions subsequently proving to be incorrect could cause actual results to differ materially from those in the forward-looking statements. Nokia does not undertake any obligation to publicly update or revise forward-looking statements, whether as a result of new information, future events or otherwise, except to the extent legally required.
