COUNT I

(INFRINGEMENT OF U.S. PATENT NO. 7,146,172)

6. ADAPTIX is the owner by assignment of United States patent number 7,146,172, entitled "MULTI-CARRIER COMMUNICATIONS WITH ADAPTIVE CLUSTER CONFIGURATION AND SWITCHING" ("the '172 patent") with ownership of all substantial rights in the '172 patent, including the right to exclude others and to sue and recover damages for the past and future infringement thereof. A true and correct copy of the '172 patent is attached as Exhibit A.

7. On information and belief, T-Mobile is directly and/or indirectly infringing at least one claim of the '172 patent in this judicial district, elsewhere in Texas and/or the United States by, among other things, making, using, offering for sale, selling and/or importing multi-carrier communications devices and systems with adaptive cluster configuration and switching, including without limitation wireless infrastructure equipment including base stations which, at a minimum, directly infringe the '172 patent. T-Mobile is thereby liable for direct infringement of the '172 patent pursuant to 35 U.S.C. § 271. T-Mobile's infringement has caused damage to ADAPTIX, which infringement by defendants and damage to ADAPTIX will continue unless and until T-Mobile is enjoined.

8. Defendant directly contributes to and induces infringement through supplying infringing wireless infrastructure equipment including base stations for use by customers. Defendants' customers who use such systems and components thereof in accordance with defendant's instructions directly and/or indirectly infringe one or more claims of the '172 patent in violation of 35 U.S.C. § 271.

9. The infringement by defendant has caused irreparable injury to ADAPTIX for which remedies at law are inadequate. Considering the balance of the hardships between the parties, a remedy in equity, such as a permanent injunction is warranted and such a remedy would be in the public interest.
