RE: 9:06cv158, Anascape, Ltd. Vs. Microsoft Corp., et al

Dear Mr. Germer,

I am beginning preparation for the trial we have scheduled in Lufkin next month in the case of Anascape, Ltd. vs. Microsoft Corp., et al. In order to help the transcription process go more quickly, there are a few items that I would greatly appreciate getting from you. You can either email them to me in .pdf format or mail a hard copy, whichever is easiest for you. I'll need to receive these items as soon as possible, by April 24th at the latest.

- I. A listing of all attorneys who will be appearing at any point in the trial and any preference you have as to the order they will be listed on the appearance page
 - 2. A listing of email addresses you would like the Daily Copy transcript sent to
- 3. Phone number and email address of someone on your trial team who can answer any after-hours questions that may come up.

I would also like to have a hard copy of any slides you will use. I know that those are many times prepared as late as the night before you'll be using them; so, if you could get them to me as soon as you have them, that would be great. Black and white copies will work fine. I've found that having a hard copy of what everyone is looking at during testimony and perhaps reading from speeds our editing up quite a bit since we're not having to search through pages of documents trying to find the exact quote that is being read, and also makes for a better record in the end.

According to the judge's calendar, we have 13 days set aside for your trial. A full day's proceedings before Judge Clark usually averages at least 300 pages. Using that as a guidepost, please send a deposit of \$35,000 by April 24th (300 pages for 13 days at \$9 per page).

An electronic transcript (*E-transcript*) will be emailed to counsel each night as soon as it is finalized. A hard copy compressed transcript and keyword index will be waiting for you when you arrive for court the next morning, and a copy will be filed for the court with the Clerk's Office. A real-time rough draft feed will be available at each counsel table. In order to connect to the live feed in the courtroom, you will need to have a laptop with your own software, i.e., *LiveNote* or *CaseView*.
