Factual Details of your complaint against Judge:

When the judge finally showed up we were told to all rise for him to come in and sit down. He then began to tell us everything he did as a judge just in the last twenty four hours. Then he told us he had been the judge for seven hundred and twenty days or about. He told us exactly how many criminal cases he has had to date and how many civil cases to date. Then he went into how that morning he had already been at Willis High School speaking to their justice classes and that was why he was late. Then the judge told us how they have sixty pastors on call free of charge to speak to family members of death victims, and to bring PEACE TO THE STORM. He stated that out of the sixty that four were on call at all times and he had one there because he likes to recognize them for what they do, at witch time he introduced the preacher, and we all applauded. Then he handed it over to the preacher and we were told to bow our heads for prayer. Never

once did the judge or the preacher say "you may step out if you do not want to participate" not once. I believe in prayer but I also believe in the constitution and I believe it should be upheld especially in our courts. During the prayer I opened my eyes and looked right at the judge he did NOT have his head bowed or his eyes closed, he was scanning the court room, looking at each individual person. I was appalled and worried because me and the judge made eye contact during the prayer, I just shook my head and replied amen, as the preacher said now everyone say amen. Then the judge went back to discussing his court stuff and said that they had sent out over a hundred summons for jurors and only seventeen responded. I felt like that was so unusual that on the next day I called two other JP offices and asked if they all so have this low of a response, the first office said no that they usually have thirty to forty show up out of a hundred sent summons. The second office laughed and said no we do not have that problem you must have been in Judge Wayne Macks court that's why. Ok back to the court room my case is under way

[REDACTED] I know that your office has received similar complaints about this judge dating back almost two years, and from what I see on his e-mail and his web site he has known intentions of putting a stop to his inappropriate behavior. He believes he is above the law, above the constitution. Please put a stop to this for our community; this man needs to be removed from the bench. Our community needs to know no matter what your religion is or is not, you are going to get a fair trial. If Wayne Mack can not be impartial about religion in his capacity as justice of the peace, what else is he not willing to be impartial about. Thank You,
