Title: In our Mothers House

Author: Patricia Polacco

Publisher or Producer:

Request:
Address:
Phone:

Are you making this request on behalf of a group or organization?
 No Yes (Name of group or organization)

The following questions are to be answered after the complainant has read (viewed or listened to the school library material. If sufficient space is not provided, answer on additional sheets. Please sign your name to each additional attachment.

- I have read (viewed) the material. (circle one)
 - a. In its entirety
 - b. Only part of it

2. To what in the material do you object? (Please be specific, cite pages, chapter, sequence, etc.)
 I don't agree that wholesome complete parenting can be done by lesbians without a father role. It's not a natural process to have a complete family without a male/female. This book makes it sound OK and brainwashes very young children when these issues should be decided by the parents. It's too controversial of a subject for children under 18 who's brains are still being developed.

3. What do you believe is the theme or purpose of this material?
 It's all OK to be homosexual. Presenting the notion that parenting is just as effective for children with two lesbian women vs a husband & wife.

3. What do you feel might be the result of a student using this material?

Childrens brains are still developing till they're 25. This stuff has no place in the public school system funded by my tax dollars. This material might arouse curiosity in children towards homo sexual tendencies.

5. For what age group would you recommend this material?

25+ where research shows the brain is fully developed and adults are able to make their own decisions.

6. Is there anything good in this material? Please comment.

Love - free love - doesn't matter with who? - Not sure what positive value this book has, ~~but~~ unless you consider the goal of trying to encourage diversity.

7. Would you care to recommend other school library materials of the same subject and format?

All homosexual books should be removed from libraries. Let parents be parents and let parents decide what alternate lifestyles they wish to teach their children.
