¹ In a letter dated June 28, 2007, counsel for SCO informed counsel for Novell that it has waived the attorney-client privilege with respect to many documents listed as entries on Novell's privilege logs, including documents that Novell produced in redacted form and documents that Novell has withheld entirely. With respect to most of these documents, the parties appear to be in disagreement as to whether there has been any waiver and, if so, the extent of its scope and the potential relevance of the referenced documents, but the parties are continuing to meet and confer on the issue. SCO reserves the right to supplement the information provided in its Pretrial Disclosures with any additional documents that Novell has improperly redacted or withheld based on its privilege objection, as well as with the names and contact information of any other witnesses identified through any such documents.
