**Re: Your Unauthorized Access and Use of Public Engines, Inc.'s  
www.crimereports.com Web Site**

Dear NAME:

It has come to Public Engines, Inc.'s ("Public Engines") attention that you have accessed its [www.crimereports.com](http://www.crimereports.com) web site, and taken information off their web site (or scraped information), which you have used for your own purposes in connection with your [www.spotcrime.com](http://www.spotcrime.com) web site. For example, starting on at least March 19, 2008, and continuing through at least June 2, 2008, you have accessed, from the IP address 208.109.126.144, Public Engines' [www.crimereports.com](http://www.crimereports.com) web site, and taken information off that site, without authorization, and posted that information on your [www.spotcrime.com](http://www.spotcrime.com) web site.

By this letter, Public Engines demands that you cease and desist any further efforts to access the [www.crimereports.com](http://www.crimereports.com) web site, and take, scrape, and/or gather the information contained on that web site for use in conjunction with your [www.spotcrime.com](http://www.spotcrime.com) web site. Failure to heed this demand may expose you to substantial liability.

Your unauthorized access to Public Engines' web site directly contravenes the Terms of Use for the [www.crimereports.com](http://www.crimereports.com) web site, which you agreed to abide by when you accessed the web site. The Terms of Use states, among other things, that "you agree not to duplicate, publish, modify, or otherwise distribute the material on the Public Engines Sites unless specifically authorized in writing by Public Engines to do so." See <http://www.crimereports.com/company/tou>.

Further, the Terms of Use specifically provides that your access to and use of the [www.crimereports.com](http://www.crimereports.com) web site is limited to "personal, non-commercial use only; or (ii) if you are accessing the Public Engines Sites on behalf of a business entity, then any and all use of the Public Engines Sites must be for such business entity's internal business purposes in connection with the establishment or continuation of a business relationship with Public Engines." See <http://www.crimereports.com/company/tou>.

The Terms of Use also provides that "[t]he content and software on the Public Engines Sites are the proprietary property of Public Engines and/or its suppliers and Partners and are protected by

June 16, 2008  
Page Two

U.S. and international copyright and other intellectual property laws." See <http://www.crimereports.com/company/tou>.

Unauthorized access to Public Engines' web site violates various federal and state laws. For example, 47 U.S.C. §§ 1030 *et seq.*, the Computer Fraud and Abuse Act (the "CFAA"), outlaws intentionally accessing a computer used in interstate commerce without authorization. Violations of the CFAA give rise to both civil and criminal penalties.

Public Engines takes very seriously your unauthorized access to its web site. Public Engines is continuing to investigate the matter and reserves the right to institute litigation against you to seek injunctive relief to force you to stop accessing its [www.crimereports.com](http://www.crimereports.com) web site if you fail to comply with this letter. Public Engines will also seek to recover its attorneys' fees, costs and any other economic harm caused thereby.

This letter is not intended to be a complete statement of Public Engines' position in this matter, and Public Engines reserves all rights and remedies with respect to it.

If you would like to discuss this matter further, please contact me immediately. Your immediate response to this letter will be crucial in determining whether this matter can be resolved short of litigation.

Sincerely,

COOLEY GODWARD KRONISH LLP

Benjamin F. Chapman

Attorney for Public Engines, Inc.
