### **Level 1 Description**

Build a foundation of fundamental vocabulary and essential language structure. Gain the confidence to master basic conversational skills, including greetings and introductions. Also includes colors, adjectives, and numbers, prepositions, definite and indefinite articles, singular and plural nouns, family relations, the 5 senses, and time of day.

### **Level 2 Description**

Navigate your surroundings as you build on the vocabulary and essential language structure in Level 1. Learn to talk about your environment such as giving and getting directions, using transportation, telling time, dining out, and enjoying basic social interactions and much more. Also includes verb tenses, adverbs, formal imperatives, school subjects, months of the year, and emotion.

### **Level 3 Description**

Connect with the world around you by building on the language fundamentals and conversational skills you developed in Levels 1 and 2. Learn to share your ideas and opinions, express your feelings and talk about everyday life, your interests, your work, current events, and much more. Also includes household items, physical activity, animals, possessive pronouns, present subjunctive, present perfect, weights, and measurements.

**Now you can learn a new language with the award-winning method used by the U.S. State Department to train diplomats. Proven effective by NASA astronauts, Peace Corps volunteers and millions of students worldwide, the Rosetta Stone Language Library teaches new languages faster and easier than ever before. We all learn our childhood language by associating new words and phrases with the world around us. The Rosetta Stone replicates this process by presenting vivid, real-life images to convey the meaning of each new phrase. Instead of translating, memorizing and studying rules of grammar, you actually learn to think in the new language. Vocabulary and grammar are integrated systematically, leading to everyday proficiency. It's the natural way to learn.**

New state-of-the-art speech recognition technology promotes speaking the new language even faster. The new Speech Analysis Tool compares the learners' voices to that of native speakers, helping them to perfect their pronunciation. The new CONTEXTUAL FORMATION feature uses real-life simulations and vivid imagery to provide exactly the context they need to produce new language all on their own.

**It's Interactive.**

Unlike audio tapes and CDs, Rosetta Stone is fully-interactive. Instant feedback allows the learner to begin acquiring a new language right away, on their own, and at their own pace. Interactive milestone lessons engage the learner in real-time conversation, and material is continually tested and reinforced.

**It's Immersion.**

Unlike textbooks, Rosetta Stone's Dynamic Immersion method puts the student inside the new language, the same way they learned their first language. Native speakers and rich visual imagery instantly convey new meaning without tedious translations. Learn to read, write, speak, and listen from the very beginning, without boring drills and mindless memorization.

**It's inclusive.**

Rosetta Stone provides a comprehensive curriculum unlike any other. Up to three levels of instruction are available, teaching learners from square one in listening comprehension, speaking, reading, and writing. Each lesson builds systematically as students progress. Interactive milestone lessons engage the learner in real-time conversation, while the all new administrative tool allows you to plan, track, and report progress. Complete a full curriculum built to be equivalent to one year of high school instruction per level, or select from 12 pre-determined lessons plans available for other specific learning objectives that will take a varying amount of time to complete.

**System requirements:**

**Windows (32-bit editions only) 2000, XP or Vista, Mac OS X**

**10.4 or 10.5**

**512 MB RAM**

**1 GHz or faster processor speed**

**600 MB free hard-drive space (per level)**

**16-bit sound card**

**800 x 600 display resolution (1024 x 768 recommended)**

**Internet or phone connection required for product activation**

**Speech recognition feature requires a headset microphone  
(USB recommended)**

**16X CD-ROM Drive (for installation)**

**Shipping Information:**

- **Shipped to you within 48 hours.**
- **please allow 5-7 days for delivery, tracking included:FREE!**

**Return Policy:**

**We guarantee our products without defects**

**100% Satisfaction with Money Back Guarantee !!!**

**We will give a full refund if the item you receive is different from the description.**

Rosetta Stone® brings you a complete language-learning solution, wherever you are. at home, in-the-car or on-the-go You'll learn quickly and effectively, without translation or memorization You'll discover our method, which keeps you excited to learn more and more.

### **System Requirements**

**Platform:** Windows XP / 2000 / Vista,

**Media:** CD-ROM

### **Product Features**

Rosetta Stone teaches you a new language naturally, by getting you to think, live and breathe the language

Innovative solutions get you speaking new words, right from the start

Rosetta Stone moves forward only when you're ready--you drive the pace, you set the schedule

With Rosetta Stone, you'll discover a foundation of key vocabulary that you'll use to build into a whole new language

Audio Companion lets you take the Rosetta Stone experience anywhere in the car, at the gym, or on-the-go

### **Product Details**

**Product Dimensions:** 8 x 4 x 8 inches

**Shipping Weight:** 1 9 pounds

**Shipping:** This item is also available for shipping to select countries outside the U.S

### **Product Description**

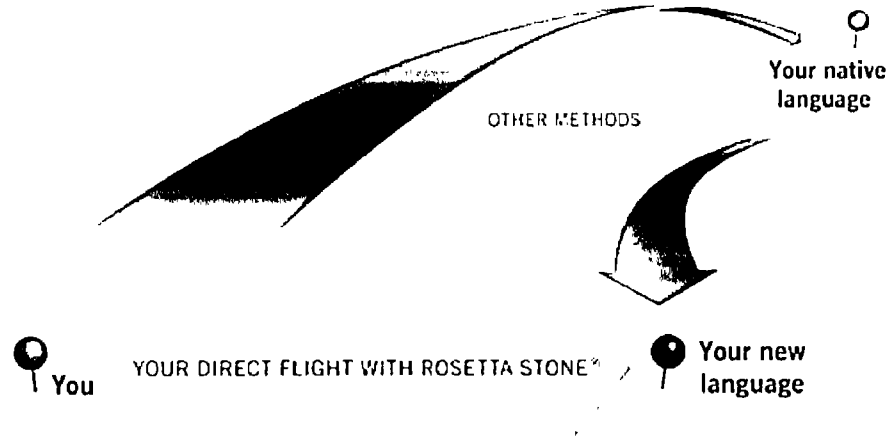

Rosetta Stone Personal Edition contains everything you need to give the voice inside of you a new language. The method used recreates the natural way you learned your first language, revealing skills that you already have. This approach has won numerous awards, and has been adopted by countless organizations, schools and millions of users around the world. Join the language revolution today. Only with Rosetta Stone.

**No translation or memorization required.**

The most effective way to learn a new language is to be surrounded by it. When you were an infant, your parents taught you this way, by intuitively associating words with images. That's the ultimate language lab, but most language-learning programs completely ignore this.

Think about all of the ways you've tried to learn a language: classes at school, tapes and cassettes, even software that uses your native language as a base for your next one. What do they all have in common? Translation and memorization.

Instead of taking a "direct flight" from your brain to your new language, translation and memorization connects you to your old language. You always have to "fly" from your brain, to your native tongue . . . and then translate what you've memorized to communicate

That might work for a few words, but what happens when you get to a sentence or phrase? When you have to change tenses? You're going to make a lot of "connecting flights " That's why those other methods are so frustrating . . . and why they fail

**Enter Dynamic Immersion.**

This method encourages you to think like a baby You'll pair words with vivid, real-life images and make connections between things you know and the new language Soon, you'll be thinking in a new language, stringing words together into phrases that you create

**Innovative technology.**

Rosetta Stone places this Dynamic Immersion method at the core of a suite of software that works with you to develop your skills The simple, intuitive interface helps to keep you engaged in the solution, while advanced speech recognition technology makes certain that you're speaking correctly and accurately Best of all, Rosetta Stone never leaves you behind You'll only move forward when you're ready, when you've become comfortable and confident

**Communicate and connect with the world: Level 1, 2 & 3 Set.**

Rosetta Stone Level 1, 2 & 3 Set will take you on a journey from the basics to a whole new level of sophistication You'll build a foundation of fundamental vocabulary and essential language structure You'll quickly gain the confidence to engage in social interactions Say "hello" and "goodbye," arrange travel, order food, go shopping and more! From there, you'll share your ideas and opinions, express feelings and talk about your life, your interests and more You'll discover a voice In a new language

**Audio Companion**

With Audio Companion, you'll enhance the Rosetta Stone experience wherever you go You'll learn new skills on the computer, and then reinforce what you've learned with Audio Companion Simply play the CDs on a stereo or download them to a MP3 Player. Each Audio Companion activity corresponds to a lesson in the Rosetta Stone software,

so you can turn your travel time into productive language-learning time

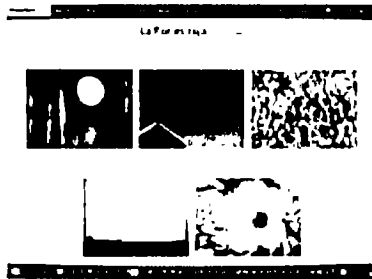

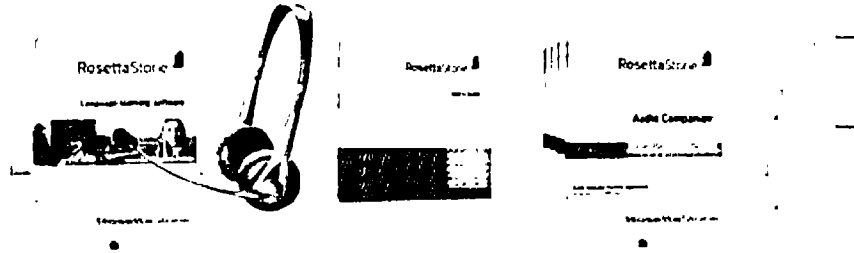

**Inside the box, you'll find:**

Version 3 Personal Edition CD-ROM software for Levels 1, 2 & 3 (Windows)

Headset microphone

User's guide

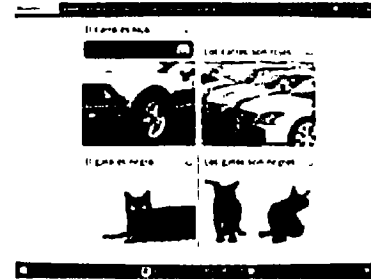

Audio Companion, a multiple-CD set to play or download to your MP3 player

You'll use vivid images and spoken words to immerse yourself in the language.

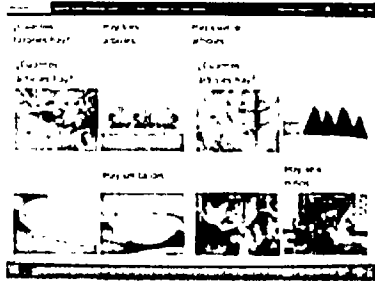

You'll learn by seeing and hearing new language and relating it to real-life situations.

You'll be encouraged to speak, right from the very first lesson.

Speech recognition coaches you to the correct pronunciation.

**You'll take the basics and put them together into phrases and sentences.**

**Words you've learned will form the building blocks of sentences you'll create.**

**We have millions of satisfied customers worldwide, including:**

Cerner

NASA

Pitney Bowes

U.S. State Department

U.S. Army

**Customer Testimonial**

— Linda S

My mother is from Thailand, yet she never taught me Thai. She spoke no English, and I had less than 3 months to prepare for the trip. Upon arrival, I was instantly able to speak to my sister. Rosetta Stone really helped me reconnect with a family that I barely knew.

# Rosetta Stone NEWEST VERSION 3

## **NEWEST VERSION 3!**

**This is the award-winning Rosetta Stone Homeschool Edition Level 1, 2 and 3 software set with Audio Companion & headset. It is brand new, factory-sealed. This is the newest version available (Version 3), and it is compatible with PC and Mac.**

### **Your Rosetta Stone Purchase Includes:**

- Application CD
- Language CD
- Audio Companion
- User's Guide- Discusses the basics of the Rosetta Stone program
- Parent's Guide- Aids the parent in lesson planning, tracking student progress, and effectively using Rosetta Stone Homeschool Version 3 in a homeschool environment
- Headset with microphone
- Supplemental Education Materials CD which includes printable files for:
  - Table of Contents
  - Scripts for each lesson
  - An index to all words in the program
  - Student Workbook including a Quiz for each lesson
  - Unit Tests
  - Answer Key for Workbooks and Tests

### **Level 1 Description**

Build a foundation of fundamental vocabulary and essential language structure. Gain the confidence to master basic conversational skills, including greetings and introductions. Also includes colors, adjectives, and numbers, prepositions, definite and indefinite articles, singular and plural nouns, family relations, the 5 senses, and time of day.

### **Level 2 Description**

Navigate your surroundings as you build on the vocabulary and essential language structure in Level 1. Learn to talk about your environment such as giving and getting directions, using transportation, telling time, dining out, and enjoying basic social interactions and much more. Also includes verb tenses, adverbs, formal imperatives, school subjects, months of the year, and emotion.

### **Level 3 Description**

Connect with the world around you by building on the language fundamentals and conversational skills you developed in Levels 1 and 2. Learn to share your ideas and opinions, express your feelings and talk about everyday life, your interests, your work, current events, and much more. Also includes household items, physical activity, animals, possessive pronouns, present subjunctive, present perfect, weights, and measurements.

Now you can learn a new language with the award-winning method used by the U.S. State Department to train diplomats. Proven effective by NASA astronauts, Peace Corps volunteers and millions of students worldwide, the Rosetta Stone Language Library teaches new languages faster and easier than ever before. We all learn our childhood language by associating new words and phrases with the world around us. The Rosetta Stone replicates this process by presenting vivid, real-life images to convey the meaning of each new phrase. Instead of translating, memorizing and studying rules of grammar, you actually learn to think in the new language. Vocabulary and grammar are integrated systematically, leading to everyday proficiency. It's the natural way to learn.

New state-of-the-art speech recognition technology promotes speaking the new language even faster. The new Speech Analysis Tool compares the learners' voices to that of native speakers, helping them to perfect their pronunciation. The new CONTEXTUAL FORMATION feature uses real-life simulations and vivid imagery to provide exactly the context they need to produce new language all on their own.

**It's Interactive.**

Unlike audio tapes and CDs, Rosetta Stone is fully-interactive. Instant feedback allows the learner to begin acquiring a new language right away, on their own, and at their own pace. Interactive milestone lessons engage the learner in real-time conversation, and material is continually tested and reinforced.

**It's Immersion.**

Unlike textbooks, Rosetta Stone's Dynamic Immersion method puts the student inside the new language, the same way they learned their first language. Native speakers and rich visual imagery instantly convey new meaning without tedious translations. Learn to read, write, speak, and listen from the very beginning, without boring drills and mindless memorization.

**It's inclusive.**

Rosetta Stone provides a comprehensive curriculum unlike any other. Up to three levels of instruction are available, teaching learners from square one in listening comprehension, speaking, reading, and writing. Each lesson builds systematically as students progress. Interactive milestone lessons engage the learner in real-time conversation, while the all new administrative tool allows you to plan, track, and report progress. Complete a full curriculum built to be equivalent to one year of high school instruction per level, or select from 12 pre-determined lessons plans available for other specific learning objectives that will take a varying amount of time to complete.

**System requirements:**

Windows (32-bit editions only) 2000, XP or Vista, Mac OS X

10.4 or 10.5

512 MB RAM

1 GHz or faster processor speed

600 MB free hard-drive space (per level)

16-bit sound card

800 x 600 display resolution (1024 x 768 recommended)

Internet or phone connection required for product activation

Speech recognition feature requires a headset microphone

(USB recommended)

16X CD-ROM Drive (for installation)

**Shipping Information:**

- **Shipped to you within 48 hours.**
- **please allow 5-7 days for delivery, tracking included:FREE!**

**Return Policy:**

We guarantee our products without defects

100% Satisfaction with Money Back Guarantee !!!

We will give a full refund if the item you receive is different from the description.

# Rosetta Stone NEWEST VERSION 3

## **NEWEST VERSION 3!**

**This is the award-winning Rosetta Stone Homeschool Edition Level 1, 2 and 3 software set with Audio Companion & headset. It is brand new, factory-sealed. This is the newest version available (Version 3), and it is compatible with PC and Mac.**

## **Your Rosetta Stone Purchase Includes:**

- Application CD
- Language CD
- Audio Companion
- User's Guide- Discusses the basics of the Rosetta Stone program
- Parent's Guide- Aids the parent in lesson planning, tracking student progress, and effectively using Rosetta Stone Homeschool Version 3 in a homeschool environment
- Headset with microphone
- Supplemental Education Materials CD which includes printable files for:
  - Table of Contents
  - Scripts for each lesson
  - An index to all words in the program
  - Student Workbook including a Quiz for each lesson
  - Unit Tests
  - Answer Key for Workbooks and Tests

### **Level 1 Description**

Build a foundation of fundamental vocabulary and essential language structure. Gain the confidence to master basic conversational skills, including greetings and introductions. Also includes colors, adjectives, and numbers, prepositions, definite and indefinite articles, singular and plural nouns, family relations, the 5 senses, and time of day.

### **Level 2 Description**

Navigate your surroundings as you build on the vocabulary and essential language structure in Level 1. Learn to talk about your environment such as giving and getting directions, using transportation, telling time, dining out, and enjoying basic social interactions and much more. Also includes verb tenses, adverbs, formal imperatives, school subjects, months of the year, and emotion.

### **Level 3 Description**

Connect with the world around you by building on the language fundamentals and conversational skills you developed in Levels 1 and 2. Learn to share your ideas and opinions, express your feelings and talk about everyday life, your interests, your work, current events, and much more. Also includes household items, physical activity, animals, possessive pronouns, present subjunctive, present perfect, weights, and measurements.

Now you can learn a new language with the award-winning method used by the U.S. State Department to train diplomats. Proven effective by NASA astronauts, Peace Corps volunteers and millions of students worldwide, the Rosetta Stone Language Library teaches new languages faster and easier than ever before. We all learn our childhood language by associating new words and phrases with the world around us. The Rosetta Stone replicates this process by presenting vivid, real-life images to convey the meaning of each new phrase. Instead of translating, memorizing and studying rules of grammar, you actually learn to think in the new language. Vocabulary and grammar are integrated systematically, leading to everyday proficiency. It's the natural way to learn.

New state-of-the-art speech recognition technology promotes speaking the new language even faster. The new Speech Analysis Tool compares the learners' voices to that of native speakers, helping them to perfect their pronunciation. The new CONTEXTUAL FORMATION feature uses real-life simulations and vivid imagery to provide exactly the context they need to produce new language all on their own.

**It's Interactive.**

Unlike audio tapes and CDs, Rosetta Stone is fully-interactive. Instant feedback allows the learner to begin acquiring a new language right away, on their own, and at their own pace. Interactive milestone lessons engage the learner in real-time conversation, and material is continually tested and reinforced.

**It's Immersion.**

Unlike textbooks, Rosetta Stone's Dynamic Immersion method puts the student inside the new language, the same way they learned their first language. Native speakers and rich visual imagery instantly convey new meaning without tedious translations. Learn to read, write, speak, and listen from the very beginning, without boring drills and mindless memorization.

**It's inclusive.**

Rosetta Stone provides a comprehensive curriculum unlike any other. Up to three levels of instruction are available, teaching learners from square one in listening comprehension, speaking, reading, and writing. Each lesson builds systematically as students progress. Interactive milestone lessons engage the learner in real-time conversation, while the all new administrative tool allows you to plan, track, and report progress. Complete a full curriculum built to be equivalent to one year of high school instruction per level, or select from 12 pre-determined lessons plans available for other specific learning objectives that will take a varying amount of time to complete.

**System requirements:**

Windows (32-bit editions only) 2000, XP or Vista, Mac OS X

10.4 or 10.5

512 MB RAM

1 GHz or faster processor speed

600 MB free hard-drive space (per level)

16-bit sound card

800 x 600 display resolution (1024 x 768 recommended)

Internet or phone connection required for product activation

Speech recognition feature requires a headset microphone  
(USB recommended)

16X CD-ROM Drive (for installation)

**Shipping Information:**

- **Shipped to you within 48 hours.**
- **please allow 5-7 days for delivery, tracking included:FREE!**

**Return Policy:**

We guarantee our products without defects

100% Satisfaction with Money Back Guarantee !!!

We will give a full refund if the item you receive is different from the description.

# Rosetta Stone NEWEST VERSION 3

## **NEWEST VERSION 3!**

**This is the award-winning Rosetta Stone Homeschool Edition Level 1, 2 and 3 software set with Audio Companion& headset. It is brand new, factory-sealed. This is the newest version available (Version 3), and it is compatible with PC and Mac.**

## **Your Rosetta Stone Purchase Includes:**

- Application CD
- Language CD
- Audio Companion
- User's Guide- Discusses the basics of the Rosetta Stone program
- Parent's Guide- Aids the parent in lesson planning, tracking student progress, and effectively using Rosetta Stone Homeschool Version 3 in ahomeschool environment
- Headset with microphone
- Supplemental Education Materials CD which includes printable files for:
  - Table of Contents
  - Scripts for each lesson
  - An index to all words in the program
  - Student Workbook including a Quiz for each lesson
  - Unit Tests
  - Answer Key for Workbooks and Tests

### **Level 1 Description**

Build a foundation of fundamental vocabulary and essential language structure. Gain the confidence to master basic conversational skills, including greetings and introductions. Also includes colors, adjectives, and numbers, prepositions, definite and indefinite articles, singular and plural nouns, family relations, the 5 senses, and time of day.

### **Level 2 Description**

Navigate your surroundings as you build on the vocabulary and essential language structure in Level 1. Learn to talk about your environment such as giving and getting directions, using transportation, telling time, dining out, and enjoying basic social interactions and much more. Also includes verb tenses, adverbs, formal imperatives, school subjects, months of the year, and emotion.

### **Level 3 Description**

Connect with the world around you by building on the language fundamentals and conversational skills you developed in Levels 1 and 2. Learn to share your ideas and opinions, ex-press your feelings and talk about everyday life, your interests, your work, current events, and much more. Also includes household items, physical activity, animals, possessive pronouns, present subjunctive, present perfect, weights, and measurements.

Now you can learn a new language with the award-winning method used by the U.S. State Department to train diplomats. Proven effective by NASA astronauts, Peace Corps volunteers and millions of students worldwide, the Rosetta Stone Language Library teaches new languages faster and easier than ever before. We all learn our childhood language by associating new words and phrases with the world around us. The Rosetta Stone replicates this process by presenting vivid, real-life images to convey the meaning of each new phrase. Instead of translating, memorizing and studying rules of grammar, you actually learn to think in the new language. Vocabulary and grammar are integrated systematically, leading to everyday proficiency. It's the natural way to learn.

New state-of-the-art speech recognition technology promotes speaking the new language even faster. The new Speech Analysis Tool compares the learners' voices to that of native speakers, helping them to perfect their pronunciation. The new CONTEXTUAL FORMATION feature uses real-life simulations and vivid imagery to provide exactly the context they need to produce new language all on their own.

**It's Interactive.**

Unlike audio tapes and CDs, Rosetta Stone is fully-interactive. Instant feedback allows the learner to begin acquiring a new language right away, on their own, and at their own pace. Interactive milestone lessons engage the learner in real-time conversation, and material is continually tested and reinforced.

**It's Immersion.**

Unlike textbooks, Rosetta Stone's Dynamic Immersion method puts the student inside the new language, the same way they learned their first language. Native speakers and rich visual imagery instantly convey new meaning without tedious translations. Learn to read, write, speak, and listen from the very beginning, without boring drills and mindless memorization.

**It's inclusive.**

Rosetta Stone provides a comprehensive curriculum unlike any other. Up to three levels of instruction are available, teaching learners from square one in listening comprehension, speaking, reading, and writing. Each lesson builds systematically as students progress. Interactive milestone lessons engage the learner in real-time conversation, while the all new administrative tool allows you to plan, track, and report progress. Complete a full curriculum built to be equivalent to one year of high school instruction per level, or select from 12 pre-determined lessons plans available for other specific learning objectives that will take a varying amount of time to complete.

**System requirements:**

Windows (32-bit editions only) 2000, XP or Vista, Mac OS X

10.4 or 10.5

512 MB RAM

1 GHz or faster processor speed

## Rosetta Stone Spanish

### Levels 1 & 2

(latin america) (refurbished)

**BUY NOW!**

**\$74.95**

### System Requirements

Windows 2000, XP, Vista

128 MB RAM

250 MB free hard-drive space

16-bit sound card

800 x 600 display resolution

Speech Recognition feature requires a headset microphone

(Note: The Original Box and USB headset microphone is not included with this Rosetta Stone set.)

**Why is Rosetta Stone the world's No. 1 language-learning software?**

**Because it works.**

Escape the endless tedium of translation, memorization, and grammar drills. Get the language you want, the skills you need, and the success you deserve by learning a new language naturally--the same way you learned your first language.

The complete immersion environment puts your native language-learning skills to work, eliminating your dependence on tedious translation and rote memorization.

**BUY NOW!**

### Images Intuition

In Rosetta Stone you learn the meaning of new language from clear, real-life images. In this activity you learn a few basic nouns. You advance using language you've learned and clues from new images. That's your intuition at work. Now that you know these nouns, you can easily grasp the meaning of the new verb...

### Interactivity Instruction

Throughout Rosetta Stone, you constantly interact with the program to confirm your intuition.

...and then check what you've learned.

From beginning to end you build systematically toward your language-learning goals, for the most effective and enjoyable instruction anywhere. Pattern your speech after a native speaker. Our speech comparison feature shows you exactly how you're doing.

You learned your first language without translation.  
You learned your first language easily and naturally by connecting words to

objects and events around you. With Rosetta Stone, learn a new language the same way: using native speakers and thousands of real-life images to help you think in the new language from the very beginning. Studies show that learning exclusively in the new language, without translation as a crutch, is crucial.

Rosetta Stone's exclusive Dynamic Immersion method reinforces your natural language-learning skills with award-winning instructional technology.

The timeless immersion method, along with research-based techniques and new technologies, make Rosetta Stone the clear solution to your language-learning needs.

What will you be able to do?

Understand everyday language.

Through Rosetta Stone's proficiency-based listening and reading activities, you'll soon be able to understand everyday language.

Pronounce words correctly.

After practicing with Rosetta Stone's proprietary speech comparison tool, the correct pronunciation of words will come easily.

Find the words you need when you need them.

Connecting new language directly to real-life images means the words spring to mind when you're in everyday contexts.

Spell and write accurately.

Language-specific keyboards and drag-and-drop tiles perfect your writing skills.

Learn to communicate.

You'll quickly combine words and phrases into complete sentences and dialogues.

Retain what you learn.

Regular reinforcement of new words and phrases in new contexts ensures the language sticks with you in the real world.

Description:

Rosetta Stone teaches English through a step-by-step sequence of carefully structured lessons, called Dynamic Immersion™. New words become associated with familiar objects, actions, and ideas. Words build to phrases and sentences in a systematic progression.

Studies show that learning exclusively in the new language—without translation as a crutch—is crucial if you want to communicate. Grammar drills and rote memorization never develop this skill. Dynamic Immersion helps you think in the new language and quickly develops the language skills and structures you need for everyday communication.

Levels 1 & 2 Include

8,000+ real-life images and phrases in 210 lessons

An average of 450 hours of instruction depending on your learning style

A balanced curriculum including listening comprehension, speaking, reading, and writing

Speech recognition for accent perfection

Systematic structure teaches vocabulary and grammar naturally, without lists and drills

Previews, exercises, and tests for every lesson with automatic tutorials

A Sample of the Topics You'll Find

People and talking

Directions: "How do I get to ..."

firmative and negative verb forms

- Food, eating, and drinking
- Family relationships
- Direct objects
- Telling time
- Numbers to 100
- Objects of prepositions
- Clothing and dress
- Vehicles, furniture, clothing, and instruments
- Shapes, colors and locations
- Greetings and conversations
- Travel, transportation, and transactions
- Verb tenses in the passive voice
- Shopping and dining out
- Asking questions; Forms of address
- Imperatives
- The weather and clothing
- Office activities and terminology
- Subjunctive and subordinate clauses
- Common social conventions
- Calendar conventions
- The five senses, Sickness and health
- Reading
- Develop your reading skills by linking written language to real-life objects, actions, and ideas
- Speaking
- Improve your pronunciation by using dynamic speech recognition to compare your speech with a native speaker.
- Writing
- Practice writing the language you are learning with the program to guide you. Simply write what you hear, then the program carefully checks your work and lets you know if you are correct.
- Listening
- Rosetta Stone uses native speakers and everyday language to develop your listening comprehension skills easily and naturally

**Spanish (Latin America) Level 1, 2 & 3 Set  
with Audio Companion**

**\$239.00**

**Free Shipping!**

- Model: Spanish-Latin-America
- 881 Units in Stock

## WHAT DO I GET?

**Communicate and connect with the world.** Build a foundation of fundamental vocabulary and essential language structure. Develop the Spanish language skills to enjoy social interactions such as travel and shopping and learn to share your ideas and opinions in Spanish.

### Inside the box, you'll find:

- Version 3 Personal Edition CD-ROM software for Levels 1, 2 & 3 (Windows/Mac)
- USB Headset with microphone
- User's guide
- Audio Companion, a multiple-CD set to play or download to your MP3 player

## WHAT WILL I LEARN

**This set will help you:**

- Build your vocabulary and language abilities
- Spell and write accurately
- Speak without a script
- Retain what youâ€™ve learned
- Read and understand your new language
- Share ideas and opinions, express feelings and talk about everyday life

**Sample topics include:**

- The basics, such as age and family relations
- Questions, greetings, introductions
- Times of day, calendar terms, the weather
- Directions, locations, telling time
- Present, past and future tense
- Apologies and polite requests
- How to order at a restaurant and give and receive directions
- Emotions, opinions and ideas
- Political, media, business and religious terms

**SYSTEM REQUIREMENTS**

**Requirements for Rosetta Stone User Workstations**

- Windows (32-bit editions only) 2000, XP or Vista, Mac OS X 10.4 or 10.5
- 512 MB RAM
- 1 GHz or faster processor speed
- 600 MB free hard-drive space (per level)
- 16-bit sound card
- 800 x 600 display resolution (1024 x 768 recommended)
- Internet or phone connection required for product activation
- Speech recognition feature requires a headset microphone (USB recommended)
- 16X CD-ROM Drive (for installation)

**Note for Microsoft® Windows Vista™ users:**

Current Rosetta Stone products have been engineered to install and run on the Windows Vista operating system.

Some 3rd party components used in Rosetta Stone products have not been certified by Microsoft as Vista Compliant™. Accordingly, you may encounter some Vista-related operating issues. Rosetta Stone technical support may or may not be able to resolve these Vista-related issues. Rosetta Stone hereby disclaims any representations, warranties, guaranties and conditions with respect to the compatibility of the Rosetta Stone products with the Windows Vista operating systems.

This product was added to our catalog on Tuesday 22 September, 2009.

Rosetta Stone® Spanish-Latin American Level 1&2&3

OFFICIAL ROSETTA STONE® STORE - BACK TO SCHOOL SALE!

Rosetta Stone® completely immerses you in Latin American Spanish, eliminating the need to translate or memorize. Our solution gets you thinking in the language. Soon you'll be taking words you've learned and using them to create sentences, phrases and thoughts. All because you're living the language with Rosetta Stone Spanish.

**Learn Naturally**

Learn Spanish the same way you learned your first language. Dynamic Immersion empowers you to see, hear and comprehend without translating or memorizing. You already have this ability. Rosetta Stone simply unlocks it.

**Engage Interactively**

Get feedback to move forward. You learn best by doing, and you'll apply what you've learned to get to the next step. Rosetta Stone adapts to your individual needs and skills, because you drive the program with your progress.

**Speak Confidently**

Start speaking immediately. From the very first lesson, you'll speak. You'll begin with essential basics, which form the building blocks of the language. Soon you'll create new

sentences on your own, using words you've learned

**Have Fun**

Best of all, Rosetta Stone is addictive. With every entertaining activity, you'll feel success. You'll want to use Rosetta Stone to have that next moment, that next breakthrough. So you'll keep using it, and you'll learn more!

That's language-learning success. That's Rosetta Stone.

**Which level is right for me?**

**Level 1**

View All Build a foundation of fundamental vocabulary and essential language structure. Gain the confidence to master basic conversational skills, including greetings and introductions, also includes colors, adjectives, and numbers, prepositions, definite and indefinite articles, singular and plural nouns, family relations, the 5 senses, and time of day.

**Level 2**

View All Navigate your surroundings as you build on the vocabulary and essential language structure in Level 1. Learn to talk about your environment such as giving and getting directions, using transportation, telling time, dining out, and enjoying basic social interactions and much more. Also includes verb tenses, adverbs, formal imperatives, school subjects, months of the year, and emotion.

**Level 3**

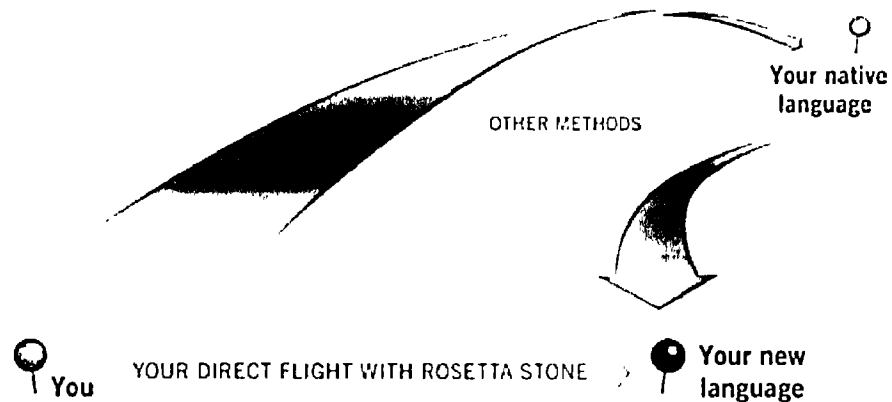

View All Connect with the world around you by building on the language fundamentals and conversational skills you developed in Levels 1 and 2. Learn to share your ideas and opinions, express your feelings and talk about everyday life, your interests, your work, current events, and much more. Also includes household items, physical activity, animals, possessive pronouns, present subjunctive, present perfect, weights, and measurements.

**Level 1 & 2**

View All This set includes Level 1 and 2 software. Interactive activities, sounds and images take you from the basics to more accomplished conversational skills. The value set is the perfect solution to help you speak, read, write and understand the language.

**Level 1, 2 & 3**

View All Begin by building a foundation of essential language skills in a new language. This comprehensive language-learning solution includes everything you need to learn a new language at home or on the go. Gain confidence and learn to share your ideas, opinions and feelings.

#### System requirements

- Windows (32-bit editions only) 2000, XP or Vista, Mac OS X 10.4 or 10.5
- 512 MB RAM
- 1 GHz or faster processor speed
- 600 MB free hard-drive space (per level)
- 16-bit sound card
- 800 x 600 display resolution (1024 x 768 recommended)
- Internet or phone connection required for product activation
- Speech recognition feature requires a headset microphone (USB recommended)
- 16X CD-ROM Drive (for installation)

#### About Spanish (Latin American)

Spanish is spoken by more than 400 million people. It is the official language of Mexico, most South and Central American countries and the Dominican Republic, Cuba and Puerto Rico, where it is pronounced differently than in Spain.

#### Spanish Learning Tips

Spanish pronunciation and spelling are regular and predictable

There are two categories of Spanish nouns: masculine and feminine.

Don't be surprised if you see sentences without subjects. Rosetta Stone teaches you to identify who is speaking or who is being spoken about through the form of the verb.

Spanish has two verbs that mean 'to be.' One is used for characteristics that are more permanent, and one for characteristics that are more temporary.

You'll notice that many Spanish words use accent marks, which indicate where to put stress.

Sometimes an accent distinguishes one word from another that is identical except for the mark. For example: *esta* and *está*.

The letter *ñ* is distinct from *n* in its pronunciation. The letter *ll* is also pronounced differently than two single *l*'s.

#### **Satisfaction Guaranteed**

Rosetta Stone CD-ROM products are backed by an unconditional six-month money-back guarantee. If you're not satisfied, we'll return your money – no questions asked. Return instructions come with the product.

#### **Inside the box, you'll find:**

1. Version 3 Personal Edition
2. CD-ROM software for Level 1, 2 & 3 (Windows/Mac)
3. Headset microphone
4. User's guide
5. Twelve Audio Companion, a multiple-CD set to play or download to your MP3 player

#### **We have millions of satisfied customers worldwide, including:**

Cerner

Pitney Bowes

U.S. State Department

U.S. Army

#### **Customer Testimonial**

— Linda S.

My mother is from Thailand, yet she never taught me Thai. She spoke no English, and I had less than 3 months to prepare for the trip. Upon arrival, I was instantly able to speak to my sister. Rosetta Stone really helped me reconnect with a family that I barely knew.

Rosetta Stone® brings you a complete language-learning solution, wherever you are - at home, in-the-car or on-the-go. You'll learn quickly and effectively, without translation or memorization. You'll discover our method, which keeps you excited to learn more and more.

# Rosetta Stone®

Language Learning Success

#### System Requirements

**Platform:** Windows XP / 2000 / Vista,

## Product Description

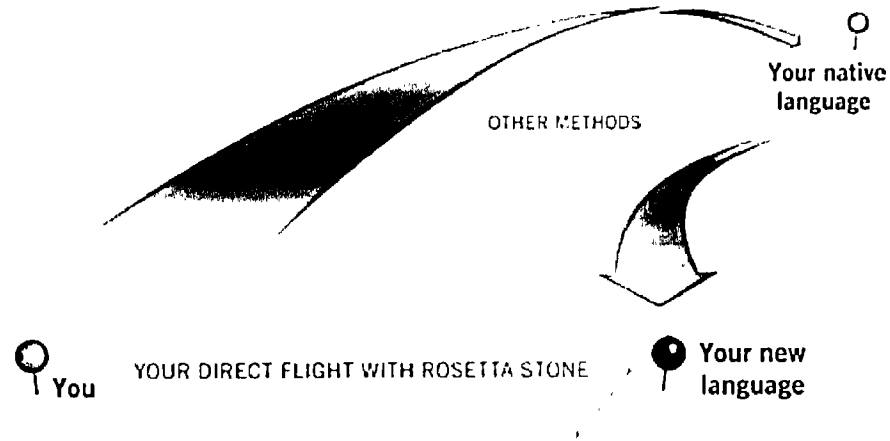

Rosetta Stone Personal Edition contains everything you need to give the voice inside of you a new language. The method used recreates the natural way you learned your first language, revealing skills that you already have. This approach has won numerous awards, and has been adopted by countless organizations, schools and millions of users around the world. Join the language revolution today. Only with Rosetta Stone.

### **No translation or memorization required.**

The most effective way to learn a new language is to be surrounded by it. When you were an infant, your parents taught you this way, by intuitively associating words with images. That's the ultimate language lab, but most language-learning programs completely ignore this.

Think about all of the ways you've tried to learn a language: classes at school, tapes and cassettes, even software that uses your native language as a base for your next one. What do they all have in common? Translation and memorization.

Instead of taking a "direct flight" from your brain to your new language, translation and memorization connects you to your old language. You always have to "fly" from your brain, to your native tongue . . . and then translate what you've memorized to communicate

That might work for a few words, but what happens when you get to a sentence or phrase? When you have to change tenses? You're going to make a lot of "connecting flights " That's why those other methods are so frustrating . . . and why they fail

**Enter Dynamic Immersion.**

This method encourages you to think like a baby You'll pair words with vivid, real-life images and make connections between things you know and the new language Soon, you'll be thinking in a new language, stringing words together into phrases that you create

**Innovative technology.**

Rosetta Stone places this Dynamic Immersion method at the core of a suite of software that works with you to develop your skills The simple, intuitive interface helps to keep you engaged in the solution, while advanced speech recognition technology makes certain that you're speaking correctly and accurately. Best of all, Rosetta Stone never leaves you behind You'll only move forward when you're ready, when you've become comfortable and confident.

**Communicate and connect with the world: Level 1, 2 & 3 Set.**

Rosetta Stone Level 1, 2 & 3 Set will take you on a journey from the basics to a whole new level of sophistication You'll build a foundation of fundamental vocabulary and essential language structure You'll quickly gain the confidence to engage in social interactions Say "hello" and "goodbye," arrange travel, order food, go shopping and more! From there, you'll share your ideas and opinions, express feelings and talk about your life, your interests and more You'll discover a voice In a new language

**Audio Companion**

With Audio Companion, you'll enhance the Rosetta Stone experience wherever you go You'll learn new skills on the computer, and then reinforce what you've learned with Audio Companion Simply play the CDs on a stereo or download them to a MP3 Player. Each Audio Companion activity corresponds to a lesson in the Rosetta Stone software,

so you can turn your travel time into productive language-learning time

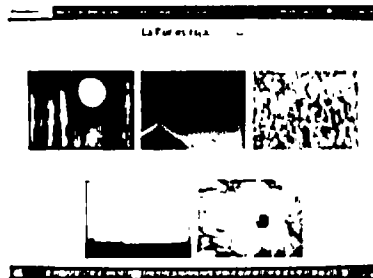

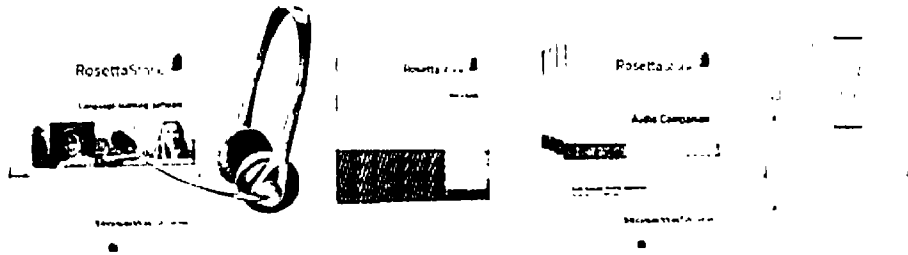

**Inside the box, you'll find:**

Version 3 Personal Edition CD-ROM software for Levels 1, 2 & 3 (Windows)

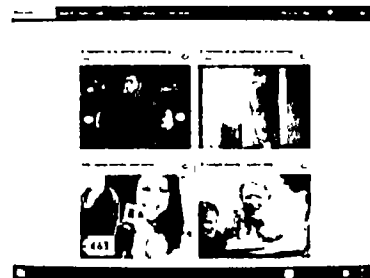

Headset microphone

User's guide

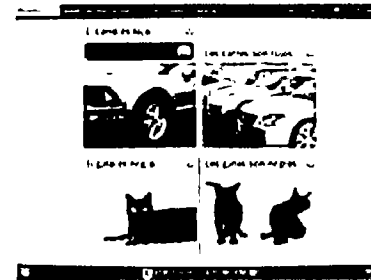

Audio Companion, a multiple-CD set to play or download to your MP3 player

You'll use vivid images and spoken words to immerse yourself in the language.

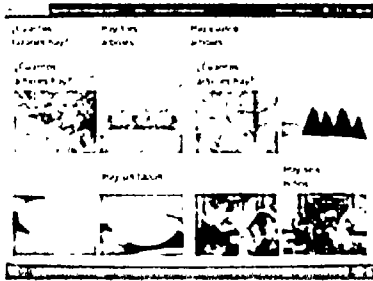

You'll learn by seeing and hearing new language and relating it to real-life situations.

You'll be encouraged to speak, right from the very first lesson.

Speech recognition coaches you to the correct pronunciation.

**You'll take the basics and  
put them together into  
phrases and sentences.**

**Words you've learned will  
form the building blocks of  
sentences you'll create.**

**We have millions of satisfied customers worldwide, including:**

Cerner

NASA

Pitney Bowes

U.S. State Department

U.S. Army

**Customer Testimonial**

— Linda S

My mother is from Thailand, yet she never taught me Thai. She spoke no English, and I had less than 3 months to prepare for the trip. Upon arrival, I was instantly able to speak to my sister. Rosetta Stone really helped me reconnect with a family that I barely knew.

Rosetta Stone® brings you a complete language-learning solution, wherever you are: at home, in-the-car or on-the-go. You'll learn quickly and effectively, without translation or memorization. You'll discover our method, which keeps you excited to learn more and more

### **System Requirements**

**Platform:** Windows XP / 2000 / Vista,

**Media:** CD-ROM

### **Product Features**

Rosetta Stone teaches you a new language naturally, by getting you to think, live and breathe the language

Innovative solutions get you speaking new words, right from the start

Rosetta Stone moves forward only when you're ready—you drive the pace, you set the schedule

With Rosetta Stone, you'll discover a foundation of key vocabulary that you'll use to build into a whole new language

Audio Companion lets you take the Rosetta Stone experience anywhere. in the car, at the gym, or on-the-go

### **Product Details**

**Product Dimensions:** 8 x 4 x 8 inches

**Shipping Weight:** 1 9 pounds

**Shipping:** This item is also available for shipping to select countries outside the U S

### **Product Description**

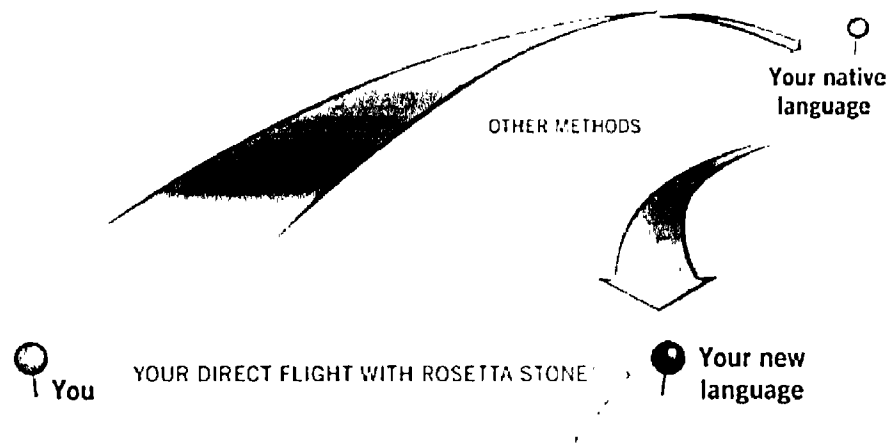

Rosetta Stone Personal Edition contains everything you need to give the voice inside of you a new language. The method used recreates the natural way you learned your first language, revealing skills that you already have. This approach has won numerous awards, and has been adopted by countless organizations, schools and millions of users around the world. Join the language revolution today. Only with Rosetta Stone.

**No translation or memorization required.**

The most effective way to learn a new language is to be surrounded by it. When you were an infant, your parents taught you this way, by intuitively associating words with images. That's the ultimate language lab, but most language-learning programs completely ignore this.

Think about all of the ways you've tried to learn a language: classes at school, tapes and cassettes, even software that uses your native language as a base for your next one. What do they all have in common? Translation and memorization.

Instead of taking a "direct flight" from your brain to your new language, translation and memorization connects you to your old language. You always have to "fly" from your brain, to your native tongue and then translate what you've memorized to communicate.

That might work for a few words, but what happens when you get to a sentence or phrase? When you have to change tenses? You're going to make a lot of "connecting flights." That's why those other methods are so frustrating and why they fail.

**Enter Dynamic Immersion.**

This method encourages you to think like a baby. You'll pair words with vivid, real-life images and make connections between things you know and the new language. Soon, you'll be thinking in a new language, stringing words together into phrases that you create.

**Innovative technology.**

Rosetta Stone places this Dynamic Immersion method at the core of a suite of software that works with you to develop your skills. The simple, intuitive interface helps to keep you engaged in the solution, while advanced speech recognition technology makes certain that you're speaking correctly and accurately. Best of all, Rosetta Stone never leaves you behind. You'll only move forward when you're ready, when you've become comfortable and confident.

**Communicate and connect with the world: Level 1, 2 & 3 Set.**

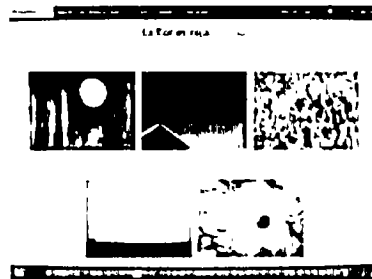

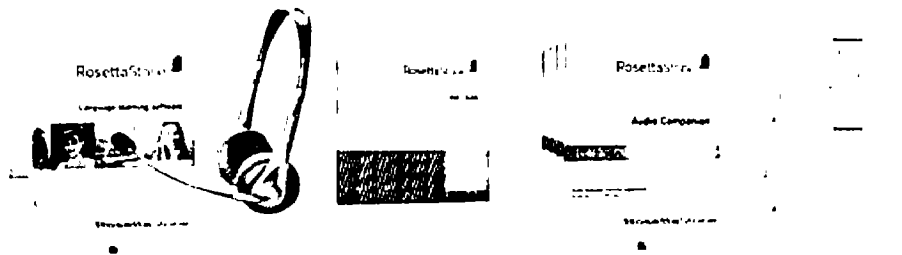

Rosetta Stone Level 1, 2 & 3 Set will take you on a journey from the basics to a whole new level of sophistication. You'll build a foundation of fundamental vocabulary and essential language structure. You'll quickly gain the confidence to engage in social interactions. Say "hello" and "goodbye," arrange travel, order food, go shopping and more! From there, you'll share your ideas and opinions, express feelings and talk about your life, your interests and more. You'll discover a voice. In a new language.

**Audio Companion**

With Audio Companion, you'll enhance the Rosetta Stone experience wherever you go. You'll learn new skills on the computer, and then reinforce what you've learned with Audio Companion. Simply play the CDs on a stereo or download them to a MP3 Player. Each Audio Companion activity corresponds to a lesson in the Rosetta Stone software, so you can turn your travel time into productive language-learning time.

**Inside the box, you'll find:**

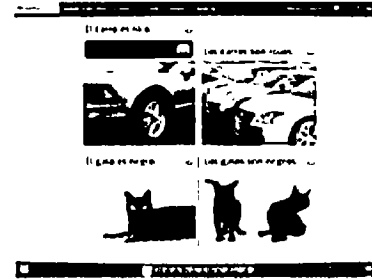

- Version 3 Personal Edition CD-ROM software for Levels 1, 2 & 3 (Windows)
- Headset microphone
- User's guide
- Audio Companion, a multiple-CD set to play or download to your MP3 player

You'll use vivid images and spoken words to immerse yourself in the language.

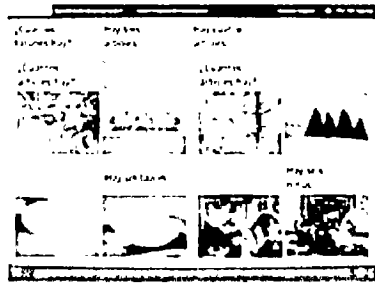

You'll learn by seeing and hearing new language and relating it to real-life situations.

You'll be encouraged to speak, right from the very first lesson.

Speech recognition coaches you to the correct pronunciation.

You'll take the basics and put them together into phrases and sentences.

Words you've learned will form the building blocks of sentences you'll create.

We have millions of satisfied customers worldwide, including:

### **Product Details**

**Product Dimensions:** 8 x 4 x 8 inches

**Shipping Weight:** 1 9 pounds

**Shipping:** This item is also available for shipping to select countries outside the U S

### **Product Description**

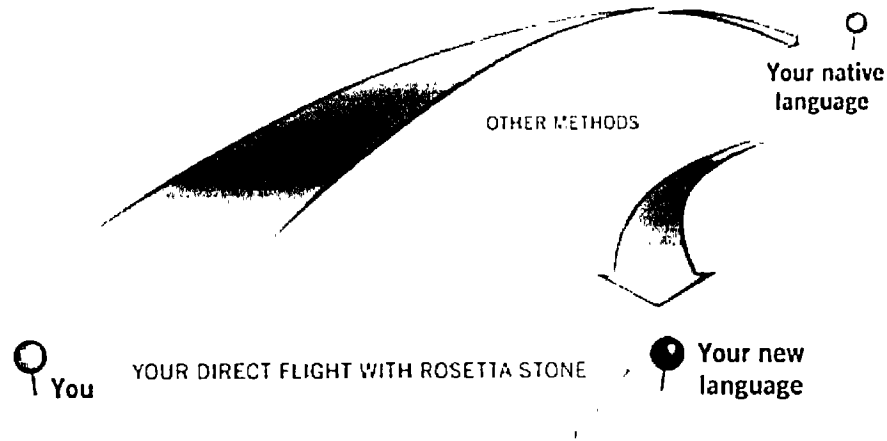

Rosetta Stone Personal Edition contains everything you need to give the voice inside of you a new language. The method used recreates the natural way you learned your first language, revealing skills that you already have. This approach has won numerous awards, and has been adopted by countless organizations, schools and millions of users around the world. Join the language revolution today. Only with Rosetta Stone.

**No translation or memorization required.**

The most effective way to learn a new language is to be surrounded by it. When you were an infant, your parents taught you this way, by intuitively associating words with images. That's the ultimate language lab, but most language-learning programs completely ignore this.

Think about all of the ways you've tried to learn a language: classes at school, tapes and cassettes, even software that uses your native language as a base for your next one. What do they all have in common? Translation and memorization.

Instead of taking a "direct flight" from your brain to your new language, translation and memorization connects you to your old language. You always have to "fly" from your brain, to your native tongue . . . and then translate what you've memorized to communicate

That might work for a few words, but what happens when you get to a sentence or phrase? When you have to change tenses? You're going to make a lot of "connecting flights " That's why those other methods are so frustrating . . . and why they fail

**Enter Dynamic Immersion.**

This method encourages you to think like a baby. You'll pair words with vivid, real-life images and make connections between things you know and the new language . . . Soon, you'll be thinking in a new language, stringing words together into phrases that you create

**Innovative technology.**

Rosetta Stone places this Dynamic Immersion method at the core of a suite of software that works with you to develop your skills . . . The simple, intuitive interface helps to keep you engaged in the solution, while advanced speech recognition technology makes certain that you're speaking correctly and accurately. Best of all, Rosetta Stone never leaves you behind . . . You'll only move forward when you're ready, when you've become comfortable and confident.

**Communicate and connect with the world: Level 1, 2 & 3 Set.**

Rosetta Stone Level 1, 2 & 3 Set will take you on a journey from the basics to a whole new level of sophistication. You'll build a foundation of fundamental vocabulary and essential language structure . . . You'll quickly gain the confidence to engage in social interactions . . . Say "hello" and "goodbye," arrange travel, order food, go shopping and more! From there, you'll share your ideas and opinions, express feelings and talk about your life, your interests and more . . . You'll discover a voice . . . In a new language

**Audio Companion**

With Audio Companion, you'll enhance the Rosetta Stone experience wherever you go . . . You'll learn new skills on the computer, and then reinforce what you've learned with Audio Companion. Simply play the CDs on a stereo or download them to a MP3 Player. Each Audio Companion activity corresponds to a lesson in the Rosetta Stone software,

so you can turn your travel time into productive language-learning time

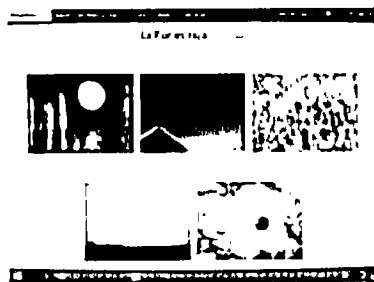

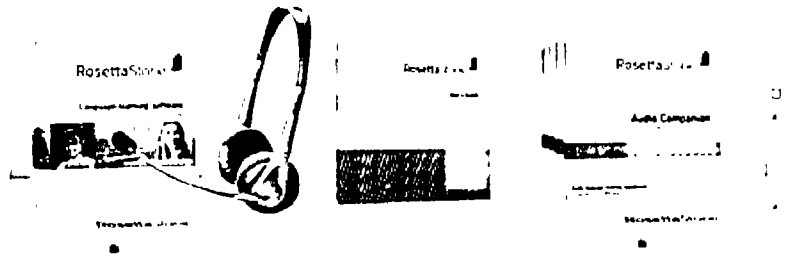

**Inside the box, you'll find:**

Version 3 Personal Edition CD-ROM software for Levels 1, 2 & 3 (Windows)

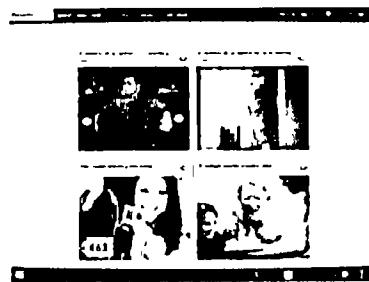

Headset microphone

User's guide

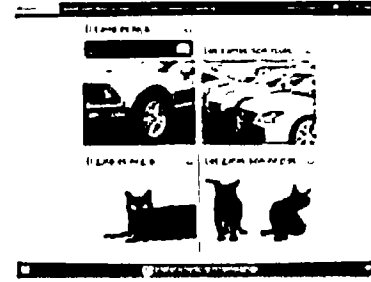

Audio Companion, a multiple-CD set to play or download to your MP3 player

You'll use vivid images and spoken words to immerse yourself in the language.

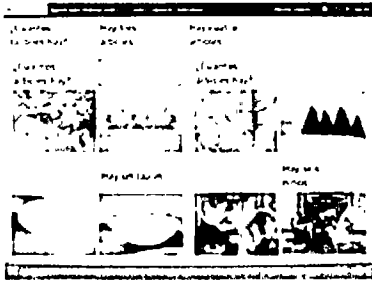

You'll learn by seeing and hearing new language and relating it to real-life situations.

You'll be encouraged to speak, right from the very first lesson.

Speech recognition coaches you to the correct pronunciation.

**You'll take the basics and put them together into phrases and sentences.**

**Words you've learned will form the building blocks of sentences you'll create.**

**We have millions of satisfied customers worldwide, including:**

## Product Description

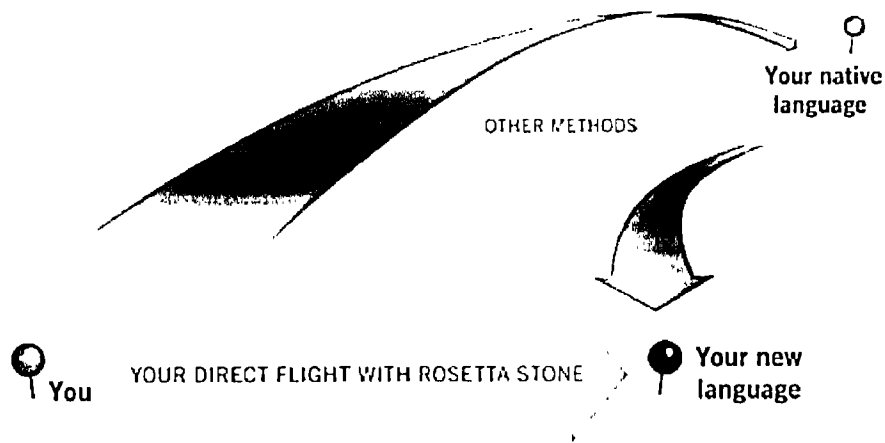

Rosetta Stone Personal Edition contains everything you need to give the voice inside of you a new language. The method used recreates the natural way you learned your first language, revealing skills that you already have. This approach has won numerous awards, and has been adopted by countless organizations, schools and millions of users around the world. Join the language revolution today. Only with Rosetta Stone.

**No translation or memorization required.**

The most effective way to learn a new language is to be surrounded by it. When you were an infant, your parents taught you this way, by intuitively associating words with images. That's the ultimate language lab, but most language-learning programs completely ignore this.

Think about all of the ways you've tried to learn a language: classes at school, tapes and cassettes, even software that uses your native language as a base for your next one. What do they all have in common? Translation and memorization.

Instead of taking a "direct flight" from your brain to your new language, translation and memorization connects you to your old language. You always have to "fly" from your brain, to your native tongue . . . and then translate what you've memorized to communicate.

That might work for a few words, but what happens when you get to a sentence or phrase? When you have to change tenses? You're going to make a lot of "connecting flights." That's why those other methods are so frustrating . . . and why they fail.

**Enter Dynamic Immersion.**

This method encourages you to think like a baby. You'll pair words with vivid, real-life images and make connections between things you know and the new language. Soon, you'll be thinking in a new language, stringing words together into phrases that you create.

**Innovative technology.**

Rosetta Stone places this Dynamic Immersion method at the core of a suite of software that works with you to develop your skills. The simple, intuitive interface helps to keep you engaged in the solution, while advanced speech recognition technology makes certain that you're speaking correctly and accurately. Best of all, Rosetta Stone never leaves you behind. You'll only move forward when you're ready, when you've become comfortable and confident.

**Communicate and connect with the world: Level 1, 2 & 3 Set.**

Rosetta Stone Level 1, 2 & 3 Set will take you on a journey from the basics to a whole new level of sophistication. You'll build a foundation of fundamental vocabulary and essential language structure. You'll quickly gain the confidence to engage in social interactions. Say "hello" and "goodbye," arrange travel, order food, go shopping and more! From there, you'll share your ideas and opinions, express feelings and talk about your life, your interests and more. You'll discover a voice. In a new language.

**Audio Companion**

With Audio Companion, you'll enhance the Rosetta Stone experience wherever you go. You'll learn new skills on the computer, and then reinforce what you've learned with Audio Companion. Simply play the CDs on a stereo or download them to a MP3 Player. Each Audio Companion activity corresponds to a lesson in the Rosetta Stone software,

so you can turn your travel time into productive language-learning time.

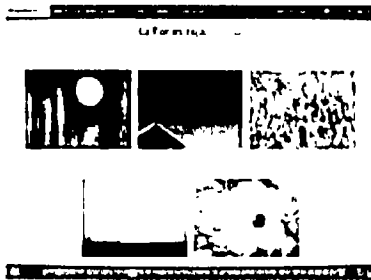

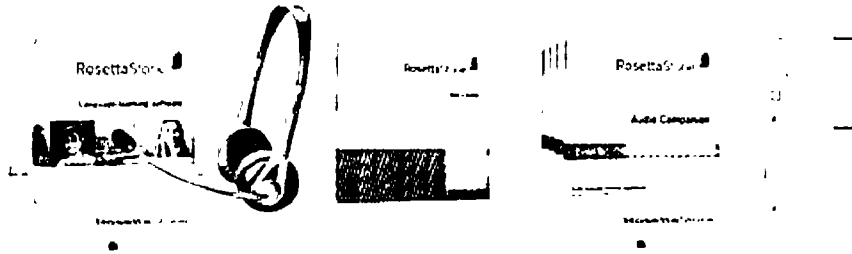

**Inside the box, you'll find:**

Version 3 Personal Edition CD-ROM software for Levels 1, 2 & 3 (Windows)

Headset microphone

User's guide

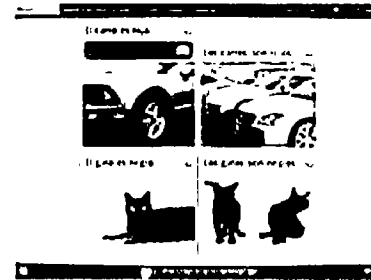

Audio Companion, a multiple-CD set to play or download to your MP3 player

You'll use vivid images and spoken words to immerse yourself in the language.

You'll learn by seeing and hearing new language and relating it to real-life situations.

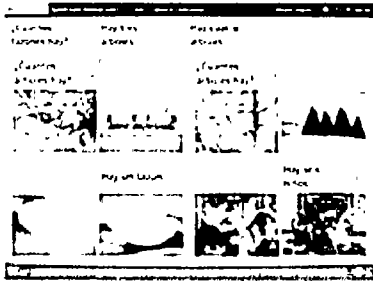

You'll be encouraged to speak, right from the very first lesson.

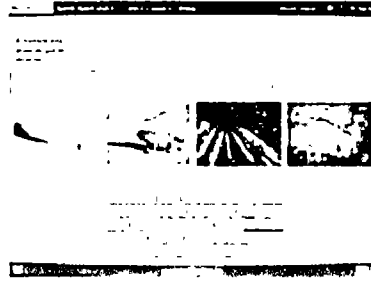

Speech recognition coaches you to the correct pronunciation.

You'll take the basics and  
put them together into  
phrases and sentences.

Rosetta Stone® brings you a complete language-learning solution, wherever you are: at home, in-the-car or on-the-go. You'll learn quickly and effectively, without translation or memorization. You'll discover our method, which keeps you excited to learn more and more.

# RosettaStone®

Language Learning  Success

## System Requirements

**Platform:** Windows XP / 2000 / Vista,

**Media:** CD-ROM

## Product Features

Rosetta Stone teaches you a new language naturally, by getting you to think, live and breathe the language  
Innovative solutions get you speaking new words, right from the start

Rosetta Stone moves forward only when you're ready--you drive the pace, you set the schedule

With Rosetta Stone, you'll discover a foundation of key vocabulary that you'll use to build into a whole new language

Audio Companion lets you take the Rosetta Stone experience anywhere in the car, at the gym, or on-the-go

## Product Details

**Product Dimensions:** 8 x 4 x 8 inches

**Shipping Weight:** 1.9 pounds

**Shipping:** This item is also available for shipping to select countries outside the U.S.

## Product Description

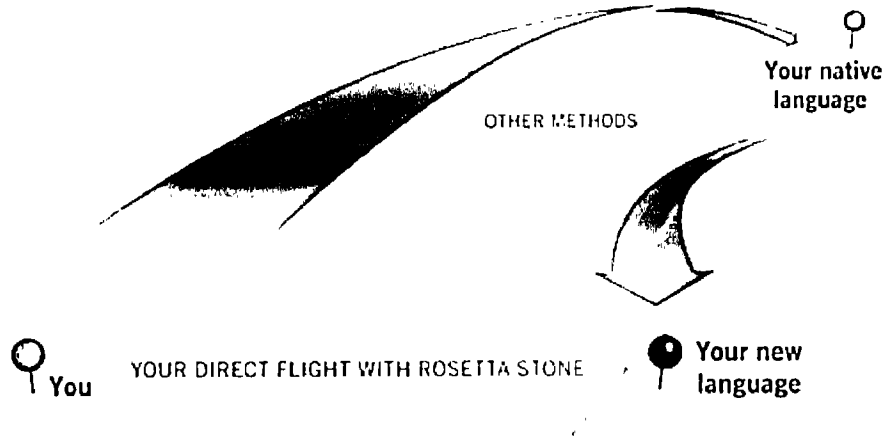

Rosetta Stone Personal Edition contains everything you need to give the voice inside of you a new language. The method used recreates the natural way you learned your first language, revealing skills that you already have. This approach has won numerous awards, and has been adopted by countless organizations, schools and millions of users around the world. Join the language revolution today. Only with Rosetta Stone.

**No translation or memorization required.**

The most effective way to learn a new language is to be surrounded by it. When you were an infant, your parents taught you this way, by intuitively associating words with images. That's the ultimate language lab, but most language-learning programs completely ignore this.

Think about all of the ways you've tried to learn a language: classes at school, tapes and cassettes, even software that uses your native language as a base for your next one. What do they all have in common? Translation and memorization.

Instead of taking a "direct flight" from your brain to your new language, translation and memorization connects you to your old language. You always have to "fly" from your brain, to your native tongue . . . and then translate what you've memorized to communicate

That might work for a few words, but what happens when you get to a sentence or phrase? When you have to change tenses? You're going to make a lot of "connecting flights " That's why those other methods are so frustrating . . . and why they fail

**Enter Dynamic Immersion.**

This method encourages you to think like a baby. You'll pair words with vivid, real-life images and make connections between things you know and the new language. Soon, you'll be thinking in a new language, stringing words together into phrases that you create.

**Innovative technology.**

Rosetta Stone places this Dynamic Immersion method at the core of a suite of software that works with you to develop your skills. The simple, intuitive interface helps to keep you engaged in the solution, while advanced speech recognition technology makes certain that you're speaking correctly and accurately. Best of all, Rosetta Stone never leaves you behind. You'll only move forward when you're ready, when you've become comfortable and confident.

**Communicate and connect with the world: Level 1, 2 & 3 Set.**

Rosetta Stone Level 1, 2 & 3 Set will take you on a journey from the basics to a whole new level of sophistication. You'll build a foundation of fundamental vocabulary and essential language structure. You'll quickly gain the confidence to engage in social interactions. Say "hello" and "goodbye," arrange travel, order food, go shopping and more! From there, you'll share your ideas and opinions, express feelings and talk about your life, your interests and more. You'll discover a voice. In a new language.

**Audio Companion**

With Audio Companion, you'll enhance the Rosetta Stone experience wherever you go. You'll learn new skills on the computer, and then reinforce what you've learned with Audio Companion. Simply play the CDs on a stereo or download them to a MP3 Player. Each Audio Companion activity corresponds to a lesson in the Rosetta Stone software,

so you can turn your travel time into productive language-learning time.

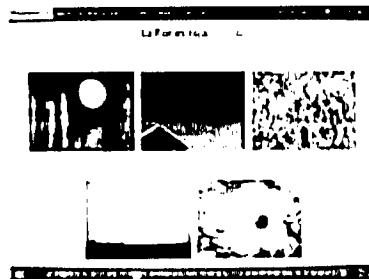

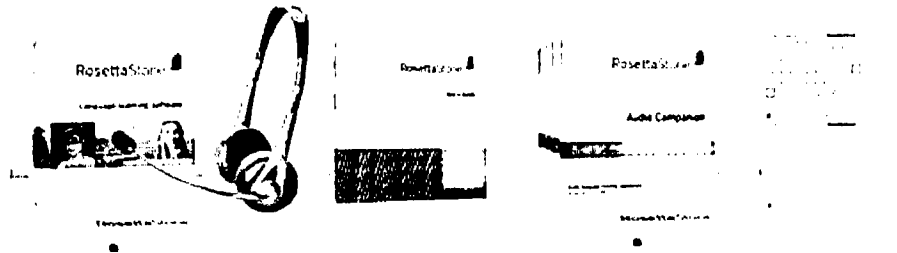

### Inside the box, you'll find:

Version 3 Personal Edition CD-ROM software for Levels 1, 2 & 3 (Windows)

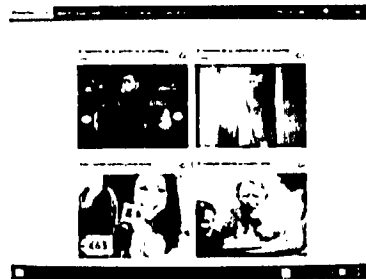

Headset microphone

User's guide

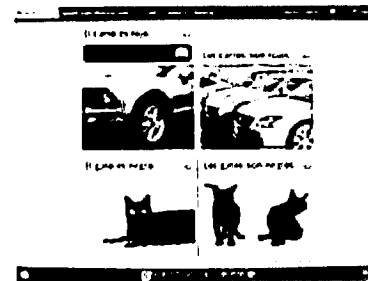

Audio Companion, a multiple-CD set to play or download to your MP3 player

You'll use vivid images and spoken words to immerse yourself in the language.

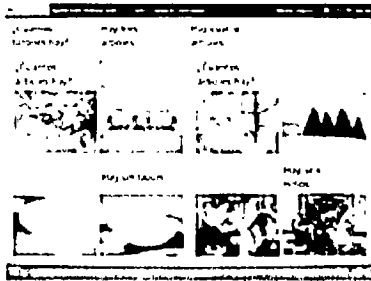

You'll learn by seeing and hearing new language and relating it to real-life situations.

You'll be encouraged to speak, right from the very first lesson.

Speech recognition coaches you to the correct pronunciation.

You'll take the basics and put them together into phrases and sentences.

Words you've learned will form the building blocks of sentences you'll create.

We have millions of satisfied customers worldwide, including:

## Product Details

**Product Dimensions:** 8 x 4 x 8 inches

**Shipping Weight:** 1 9 pounds

**Shipping:** This item is also available for shipping to select countries outside the U S

## Product Description

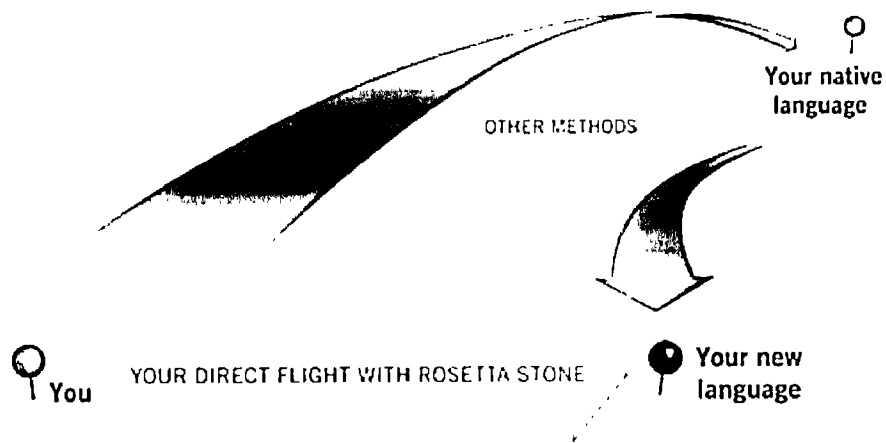

Rosetta Stone Personal Edition contains everything you need to give the voice inside of you a new language. The method used recreates the natural way you learned your first language, revealing skills that you already have. This approach has won numerous awards, and has been adopted by countless organizations, schools and millions of users around the world. Join the language revolution today. Only with Rosetta Stone.

**No translation or memorization required.**

The most effective way to learn a new language is to be surrounded by it. When you were an infant, your parents taught you this way, by intuitively associating words with images. That's the ultimate language lab, but most language-learning programs completely ignore this.

Think about all of the ways you've tried to learn a language: classes at school, tapes and cassettes, even software that uses your native language as a base for your next one. What do they all have in common? Translation and memorization.

Instead of taking a "direct flight" from your brain to your new language, translation and memorization connects you to your old language. You always have to "fly" from your brain, to your native tongue and then translate what you've memorized to communicate.

That might work for a few words, but what happens when you get to a sentence or phrase? When you have to change tenses? You're going to make a lot of "connecting flights." That's why those other methods are so frustrating and why they fail.

**Enter Dynamic Immersion.**

This method encourages you to think like a baby. You'll pair words with vivid, real-life images and make connections between things you know and the new language. Soon, you'll be thinking in a new language, stringing words together into phrases that you create.

**Innovative technology.**

Rosetta Stone places this Dynamic Immersion method at the core of a suite of software that works with you to develop your skills. The simple, intuitive interface helps to keep you engaged in the solution, while advanced speech recognition technology makes certain that you're speaking correctly and accurately. Best of all, Rosetta Stone never leaves you behind. You'll only move forward when you're ready, when you've become comfortable and confident.

**Communicate and connect with the world: Level 1, 2 & 3 Set.**

Rosetta Stone Level 1, 2 & 3 Set will take you on a journey from the basics to a whole new level of sophistication. You'll build a foundation of fundamental vocabulary and essential language structure. You'll quickly gain the confidence to engage in social interactions. Say "hello" and "goodbye," arrange travel, order food, go shopping and more! From there, you'll share your ideas and opinions, express feelings and talk about your life, your interests and more. You'll discover a voice. In a new language.

**Audio Companion**

With Audio Companion, you'll enhance the Rosetta Stone experience wherever you go. You'll learn new skills on the computer, and then reinforce what you've learned with Audio Companion. Simply play the CDs on a stereo or download them to a MP3 Player. Each Audio Companion activity corresponds to a lesson in the Rosetta Stone software,

so you can turn your travel time into productive language-learning time

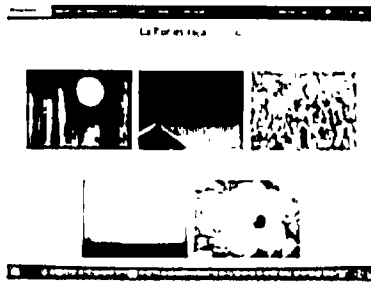

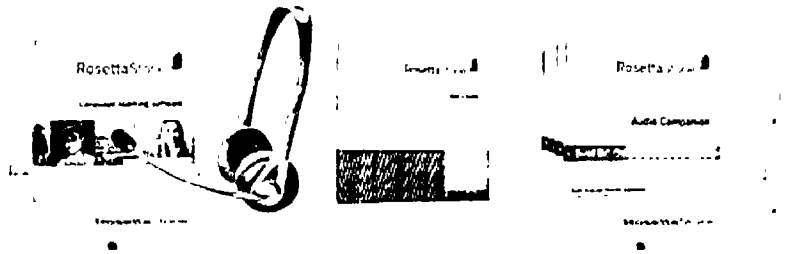

**Inside the box, you'll find:**

Version 3 Personal Edition CD-ROM software for Levels 1, 2 & 3 (Windows)

Headset microphone

User's guide

Audio Companion, a multiple-CD set to play or download to your MP3 player

You'll use vivid images and spoken words to immerse yourself in the language.

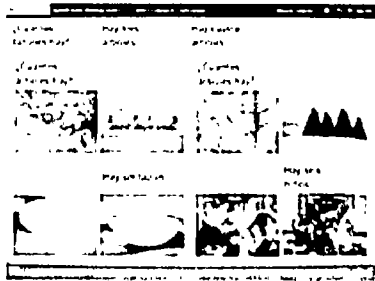

You'll learn by seeing and hearing new language and relating it to real-life situations.

You'll be encouraged to speak, right from the very first lesson.

Speech recognition coaches you to the correct pronunciation.

You'll take the basics and put them together into phrases and sentences.

Words you've learned will form the building blocks of sentences you'll create.

We have millions of satisfied customers worldwide, including:

Rosetta Stone® brings you a complete language-learning solution, wherever you are. at home, in-the-car or on-the-go. You'll learn quickly and effectively, without translation or memorization. You'll discover our method, which keeps you excited to learn more and more

# Rosetta Stone<sup>®</sup>

Language Learning  Success

## System Requirements

**Platform:** Windows XP / 2000 / Vista,

**Media:** CD-ROM

## Product Features

Rosetta Stone teaches you a new language naturally, by getting you to think, live and breathe the language

Innovative solutions get you speaking new words, right from the start

Rosetta Stone moves forward only when you're ready--you drive the pace, you set the schedule

With Rosetta Stone, you'll discover a foundation of key vocabulary that you'll use to build into a whole new language

Audio Companion lets you take the Rosetta Stone experience anywhere in the car, at the gym, or on-the-go

## Product Details

**Product Dimensions:** 8 x 4 x 8 inches

**Shipping Weight:** 1 9 pounds

**Shipping:** This item is also available for shipping to select countries outside the U S

## Product Description

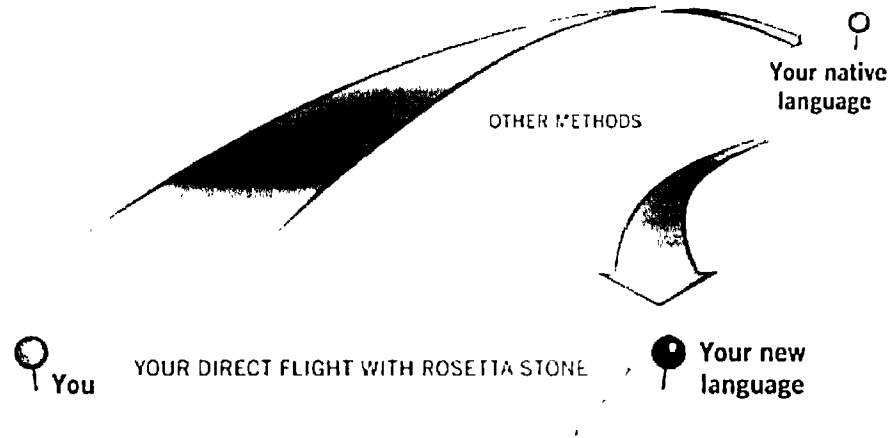

Rosetta Stone Personal Edition contains everything you need to give the voice inside of you a new language. The method used recreates the natural way you learned your first language, revealing skills that you already have. This approach has won numerous awards, and has been adopted by countless organizations, schools and millions of users around the world. Join the language revolution today. Only with Rosetta Stone.

**No translation or memorization required.**

The most effective way to learn a new language is to be surrounded by it. When you were an infant, your parents taught you this way, by intuitively associating words with images. That's the ultimate language lab, but most language-learning programs completely ignore this.

Think about all of the ways you've tried to learn a language: classes at school, tapes and cassettes, even software that uses your native language as a base for your next one. What do they all have in common? Translation and memorization.

Instead of taking a "direct flight" from your brain to your new language, translation and memorization connects you to your old language. You always have to "fly" from your brain, to your native tongue . . . and then translate what you've memorized to communicate

That might work for a few words, but what happens when you get to a sentence or phrase? When you have to change tenses? You're going to make a lot of "connecting flights " That's why those other methods are so frustrating . . . and why they fail

**Enter Dynamic Immersion.**

This method encourages you to think like a baby. You'll pair words with vivid, real-life images and make connections between things you know and the new language. Soon, you'll be thinking in a new language, stringing words together into phrases that you create.

**Innovative technology.**

Rosetta Stone places this Dynamic Immersion method at the core of a suite of software that works with you to develop your skills. The simple, intuitive interface helps to keep you engaged in the solution, while advanced speech recognition technology makes certain that you're speaking correctly and accurately. Best of all, Rosetta Stone never leaves you behind. You'll only move forward when you're ready, when you've become comfortable and confident.

**Communicate and connect with the world: Level 1, 2 & 3 Set.**

Rosetta Stone Level 1, 2 & 3 Set will take you on a journey from the basics to a whole new level of sophistication. You'll build a foundation of fundamental vocabulary and essential language structure. You'll quickly gain the confidence to engage in social interactions. Say "hello" and "goodbye," arrange travel, order food, go shopping and more! From there, you'll share your ideas and opinions, express feelings and talk about your life, your interests and more. You'll discover a voice. In a new language.

**Audio Companion**

With Audio Companion, you'll enhance the Rosetta Stone experience wherever you go. You'll learn new skills on the computer, and then reinforce what you've learned with Audio Companion. Simply play the CDs on a stereo or download them to a MP3 Player. Each Audio Companion activity corresponds to a lesson in the Rosetta Stone software,

so you can turn your travel time into productive language-learning time

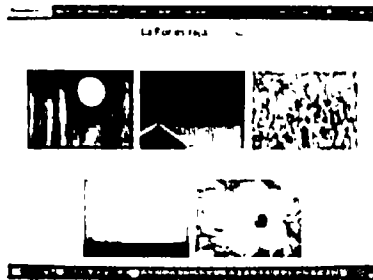

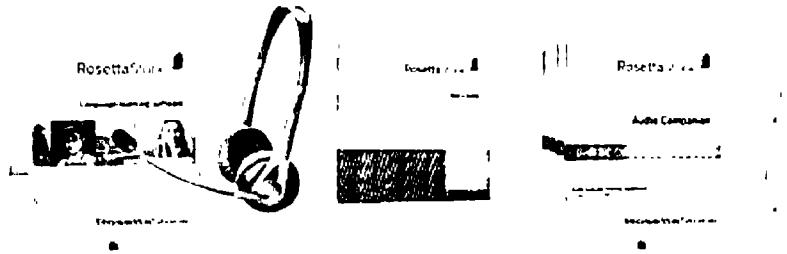

**Inside the box, you'll find:**

Version 3 Personal Edition CD-ROM software for Levels 1, 2 & 3 (Windows)

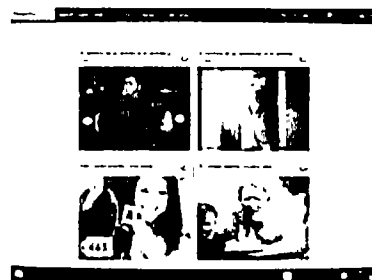

Headset microphone

User's guide

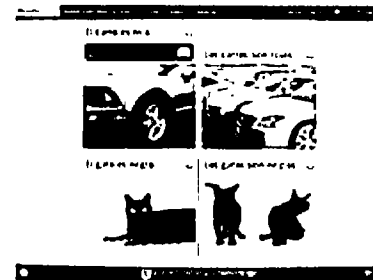

Audio Companion, a multiple-CD set to play or download to your MP3 player

You'll use vivid images and spoken words to immerse yourself in the language.

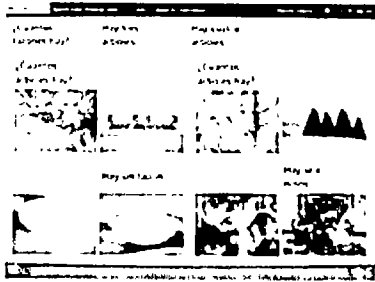

You'll learn by seeing and hearing new language and relating it to real-life situations.

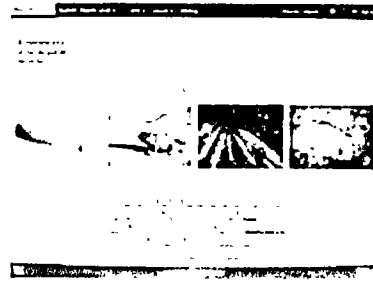

You'll be encouraged to speak, right from the very first lesson.

Speech recognition coaches you to the correct pronunciation.

You'll take the basics and  
put them together into  
phrases and sentences.

Words you've learned will  
form the building blocks of  
sentences you'll create.

We have millions of satisfied customers worldwide, including:

Rosetta Stone® brings you a complete language-learning solution, wherever you are. at home, in-the-car or on-the-go You'll learn quickly and effectively, without translation or memorization You'll discover our method, which keeps you excited to learn more and more

### **System Requirements**

**Platform:** Windows XP / 2000 / Vista,

**Media:** CD-ROM

### **Product Features**

Rosetta Stone teaches you a new language naturally, by getting you to think, live and breathe the language

Innovative solutions get you speaking new words, right from the start

Rosetta Stone moves forward only when you're ready--you drive the pace, you set the schedule

With Rosetta Stone, you'll discover a foundation of key vocabulary that you'll use to build into a whole new language

Audio Companion lets you take the Rosetta Stone experience anywhere in the car, at the gym, or on-the-go

### **Product Details**

**Product Dimensions:** 8 x 4 x 8 inches

**Shipping Weight:** 1 9 pounds

**Shipping:** This item is also available for shipping to select countries outside the U S

### **Product Description**

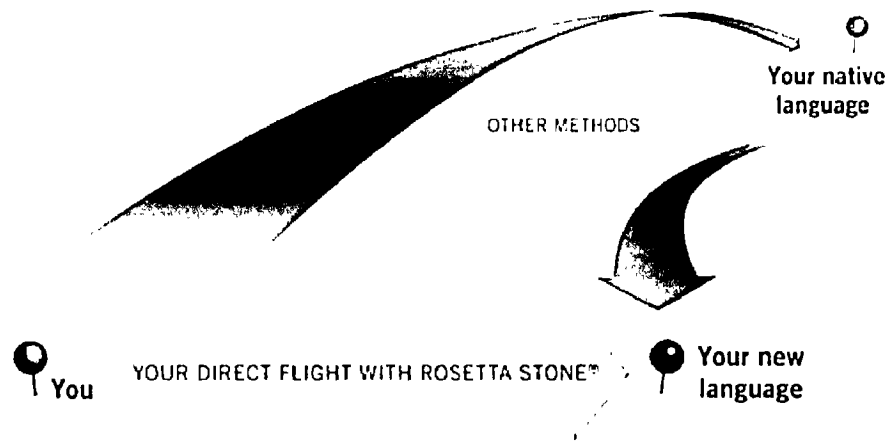

Rosetta Stone Personal Edition contains everything you need to give the voice inside of you a new language. The method used recreates the natural way you learned your first language, revealing skills that you already have. This approach has won numerous awards, and has been adopted by countless organizations, schools and millions of users around the world. Join the language revolution today. Only with Rosetta Stone.

**No translation or memorization required.**

The most effective way to learn a new language is to be surrounded by it. When you were an infant, your parents taught you this way, by intuitively associating words with images. That's the ultimate language lab, but most language-learning programs completely ignore this.

Think about all of the ways you've tried to learn a language: classes at school, tapes and cassettes, even software that uses your native language as a base for your next one. What do they all have in common? Translation and memorization.

Instead of taking a "direct flight" from your brain to your new language, translation and memorization connects you to your old language. You always have to "fly" from your brain, to your native tongue and then translate what you've memorized to communicate.

That might work for a few words, but what happens when you get to a sentence or phrase? When you have to change tenses? You're going to make a lot of "connecting flights." That's why those other methods are so frustrating and why they fail.

**Enter Dynamic Immersion.**

This method encourages you to think like a baby. You'll pair words with vivid, real-life images and make connections between things you know and the new language. Soon, you'll be thinking in a new language, stringing words together into phrases that you create.

**Innovative technology.**

Rosetta Stone places this Dynamic Immersion method at the core of a suite of software that works with you to develop your skills. The simple, intuitive interface helps to keep you engaged in the solution, while advanced speech recognition technology makes certain that you're speaking correctly and accurately. Best of all, Rosetta Stone never leaves you behind. You'll only move forward when you're ready, when you've become comfortable and confident.

**Communicate and connect with the world: Level 1, 2 & 3 Set.**

Rosetta Stone Level 1, 2 & 3 Set will take you on a journey from the basics to a whole new level of sophistication. You'll build a foundation of fundamental vocabulary and essential language structure. You'll quickly gain the confidence to engage in social interactions. Say "hello" and "goodbye," arrange travel, order food, go shopping and more! From there, you'll share your ideas and opinions, express feelings and talk about your life, your interests and more. You'll discover a voice. In a new language.

### Audio Companion

With Audio Companion, you'll enhance the Rosetta Stone experience wherever you go. You'll learn new skills on the computer, and then reinforce what you've learned with Audio Companion. Simply play the CDs on a stereo or download them to a MP3 Player. Each Audio Companion activity corresponds to a lesson in the Rosetta Stone software, so you can turn your travel time into productive language-learning time.

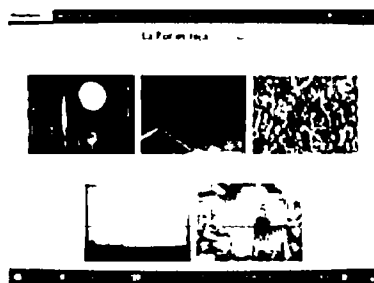

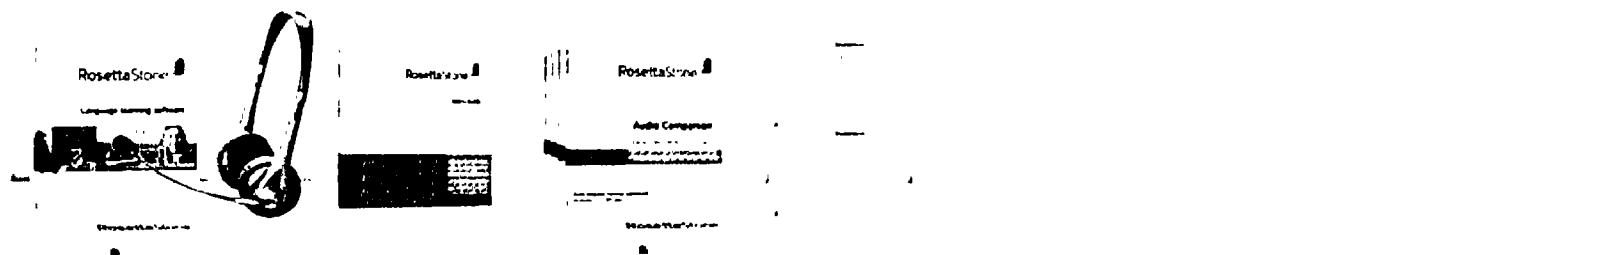

### Inside the box, you'll find:

Version 3 Personal Edition CD-ROM software for Levels 1, 2 & 3 (Windows)

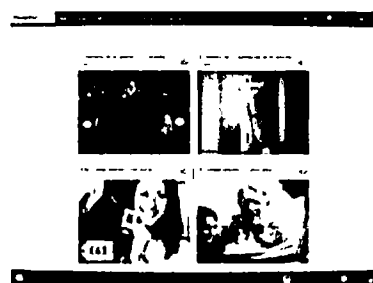

Headset microphone

User's guide

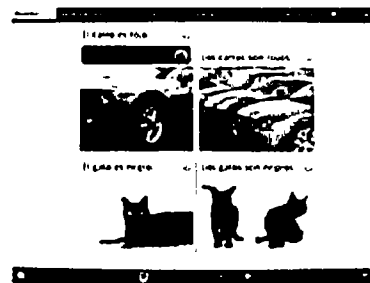

Audio Companion, a multiple-CD set to play or download to your MP3 player

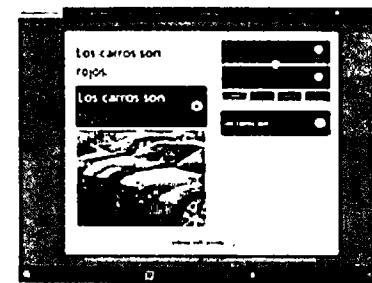

You'll use vivid images and spoken words to immerse yourself in the language.

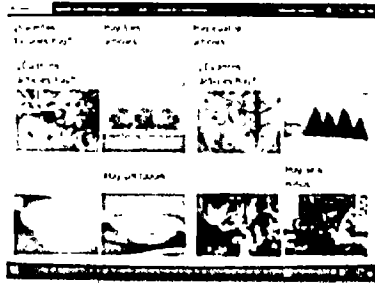

You'll learn by seeing and hearing new language and relating it to real-life situations.

You'll be encouraged to speak, right from the very first lesson.

Speech recognition coaches you to the correct pronunciation.

**You'll take the basics and  
put them together into  
phrases and sentences.**

**Words you've learned will  
form the building blocks of  
sentences you'll create.**

We have millions of satisfied customers worldwide, including:

Cerner

NASA

Pitney Bowes

U.S. State Department

U.S. Army

**Customer Testimonial**

— Linda S

My mother is from Thailand, yet she never taught me Thai. She spoke no English, and I had less than 3 months to prepare for the trip. Upon arrival, I was instantly able to speak to my sister. Rosetta Stone really helped me reconnect with a family that I barely knew.

Rosetta Stone® brings you a complete language-learning solution, wherever you are: at home, in-the-car or on-the-go. You'll learn quickly and effectively, without translation or memorization. You'll discover our method, which keeps you excited to learn more and more

### **System Requirements**

**Platform:** Windows XP / 2000 / Vista,

**Media:** CD-ROM

### **Product Features**

Rosetta Stone teaches you a new language naturally, by getting you to think, live and breathe the language

Innovative solutions get you speaking new words, right from the start

Rosetta Stone moves forward only when you're ready--you drive the pace, you set the schedule

With Rosetta Stone, you'll discover a foundation of key vocabulary that you'll use to build into a whole new language

Audio Companion lets you take the Rosetta Stone experience anywhere, in the car, at the gym, or on-the-go

### **Product Details**

**Product Dimensions:** 8 x 4 x 8 inches

**Shipping Weight:** 1.9 pounds

**Shipping:** This item is also available for shipping to select countries outside the U.S

### **Product Description**

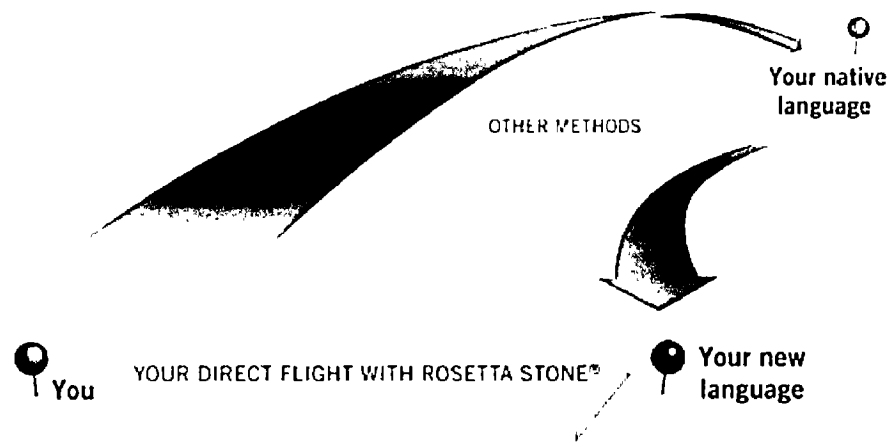

Rosetta Stone Personal Edition contains everything you need to give the voice inside of you a new language. The method used recreates the natural way you learned your first language, revealing skills that you already have. This approach has won numerous awards, and has been adopted by countless organizations, schools and millions of users around the world. Join the language revolution today. Only with Rosetta Stone.

**No translation or memorization required.**

The most effective way to learn a new language is to be surrounded by it. When you were an infant, your parents taught you this way, by intuitively associating words with images. That's the ultimate language lab, but most language-learning programs completely ignore this.

Think about all of the ways you've tried to learn a language: classes at school, tapes and cassettes, even software that uses your native language as a base for your next one. What do they all have in common? Translation and memorization.

Instead of taking a "direct flight" from your brain to your new language, translation and memorization connects you to your old language. You always have to "fly" from your brain, to your native tongue and then translate what you've memorized to communicate.

That might work for a few words, but what happens when you get to a sentence or phrase? When you have to change tenses? You're going to make a lot of "connecting flights." That's why those other methods are so frustrating and why they fail.

**Enter Dynamic Immersion.**

This method encourages you to think like a baby. You'll pair words with vivid, real-life images and make connections between things you know and the new language. Soon, you'll be thinking in a new language, stringing words together into phrases that you create.

**Innovative technology.**

Rosetta Stone places this Dynamic Immersion method at the core of a suite of software that works with you to develop your skills. The simple, intuitive interface helps to keep you engaged in the solution, while advanced speech recognition technology makes certain that you're speaking correctly and accurately. Best of all, Rosetta Stone never leaves you behind. You'll only move forward when you're ready, when you've become comfortable and confident.

**Communicate and connect with the world: Level 1, 2 & 3 Set.**

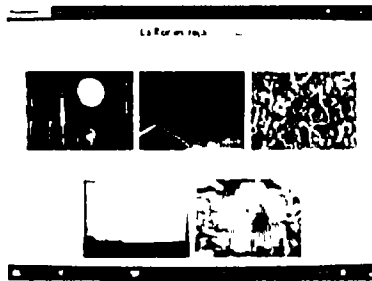

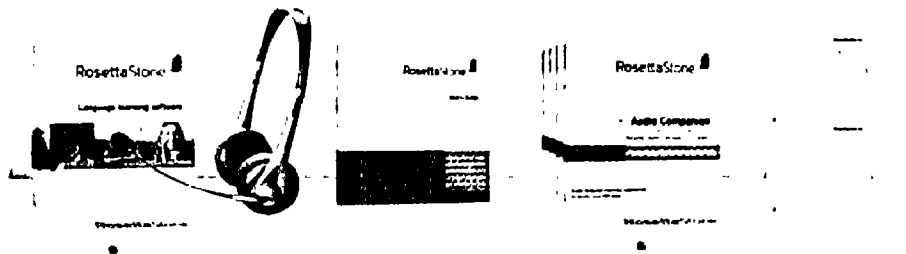

Rosetta Stone Level 1, 2 & 3 Set will take you on a journey from the basics to a whole new level of sophistication. You'll build a foundation of fundamental vocabulary and essential language structure. You'll quickly gain the confidence to engage in social interactions. Say "hello" and "goodbye," arrange travel, order food, go shopping and more! From there, you'll share your ideas and opinions, express feelings and talk about your life, your interests and more. You'll discover a voice. In a new language.

**Audio Companion**

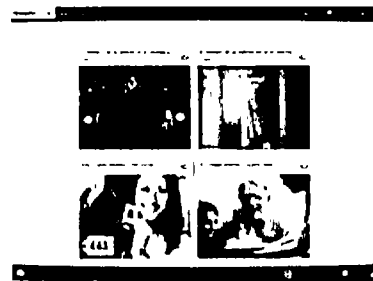

With Audio Companion, you'll enhance the Rosetta Stone experience wherever you go. You'll learn new skills on the computer, and then reinforce what you've learned with Audio Companion. Simply play the CDs on a stereo or download them to a MP3 Player. Each Audio Companion activity corresponds to a lesson in the Rosetta Stone software, so you can turn your travel time into productive language-learning time.

**Inside the box, you'll find:**

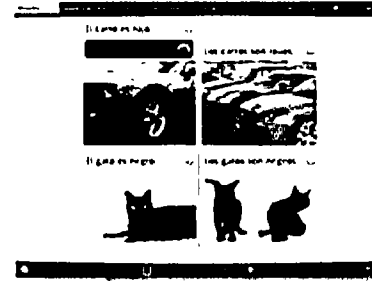

- Version 3 Personal Edition CD-ROM software for Levels 1, 2 & 3 (Windows)
- Headset microphone
- User's guide
- Audio Companion, a multiple-CD set to play or download to your MP3 player

You'll use vivid images and spoken words to immerse yourself in the language.

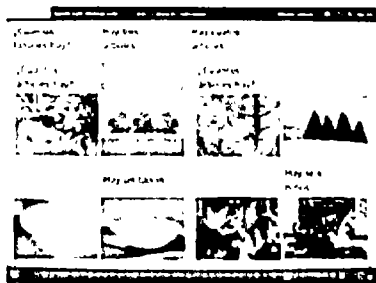

You'll learn by seeing and hearing new language and relating it to real-life situations.

You'll be encouraged to speak, right from the very first lesson.

Speech recognition coaches you to the correct pronunciation.

**You'll take the basics and  
put them together into  
phrases and sentences.**

**Words you've learned will  
form the building blocks of  
sentences you'll create.**

We have millions of satisfied customers worldwide, including:

- Cerner
- NASA
- Pitney Bowes
- U S State Department
- U S Army

**Customer Testimonial**

— Linda S

My mother is from Thailand, yet she never taught me Thai. She spoke no English, and I had less than 3 months to prepare for the trip. Upon arrival, I was instantly able to speak to my sister. Rosetta Stone really helped me reconnect with a family that I barely knew.

**Customer Testimonial**

— Linda S

My mother is from Thailand, yet she never taught me Thai. She spoke no English, and I had less than 3 months to prepare for the trip. Upon arrival, I was instantly able to speak to my sister. Rosetta Stone really helped me reconnect with a family that I barely knew.

## Rosetta Stone Spanish

### Levels 1 & 2

(latin america) (refurbished)

**BUY NOW!**

**\$74.95**

### System Requirements

Windows 2000, XP, Vista

128 MB RAM

250 MB free hard-drive space

16-bit sound card

800 x 600 display resolution

Speech Recognition feature requires a headset microphone

(Note: The Original Box and USB headset microphone is not included with this Rosetta Stone set.)

**Why is Rosetta Stone the world's No. 1 language-learning software?**

**Because it works.**

Escape the endless tedium of translation, memorization, and grammar drills. Get the language you want, the skills you need, and the success you deserve by learning a new language naturally--the same way you learned your first language.

The complete immersion environment puts your native language-learning skills to work, eliminating your dependence on tedious translation and rote memorization.

**BUY NOW!**

#### Images Intuition

In Rosetta Stone you learn the meaning of new language from clear, real-life images. In this activity you learn a few basic nouns. You advance using language you've learned and clues from new images. That's your intuition at work. Now that you know these nouns, you can easily grasp the meaning of the new verb...

#### Interactivity Instruction

Throughout Rosetta Stone, you constantly interact with the program to confirm your intuition.

...and then check what you've learned.

From beginning to end you build systematically toward your language-learning goals, for the most effective and enjoyable instruction anywhere. Pattern your speech after a native speaker. Our speech comparison feature shows you exactly how you're doing.

You learned your first language without translation.  
You learned your first language easily and naturally by connecting words to

objects and events around you. With Rosetta Stone, learn a new language the same way: using native speakers and thousands of real-life images to help you think in the new language from the very beginning. Studies show that learning exclusively in the new language, without translation as a crutch, is crucial.

Rosetta Stone's exclusive Dynamic Immersion method reinforces your natural language-learning skills with award-winning instructional technology.

The timeless immersion method, along with research-based techniques and new technologies, make Rosetta Stone the clear solution to your language-learning needs.

What will you be able to do?

Understand everyday language.

Through Rosetta Stone's proficiency-based listening and reading activities, you'll soon be able to understand everyday language.

Pronounce words correctly.

After practicing with Rosetta Stone's proprietary speech comparison tool, the correct pronunciation of words will come easily.

Find the words you need when you need them.

Connecting new language directly to real-life images means the words spring to mind when you're in everyday contexts.

Spell and write accurately.

Language-specific keyboards and drag-and-drop tiles perfect your writing skills.

Learn to communicate.

You'll quickly combine words and phrases into complete sentences and dialogues.

Retain what you learn.

Regular reinforcement of new words and phrases in new contexts ensures the language sticks with you in the real world.

Product Description

Overstock from a Oregon charter school so we get to pass the savings on to you. Comes as OEM without original box. Product was never registered.

Rosetta Stone® brings you a complete language-learning solution, wherever you are at home, in-the-car or on-the-go. You'll learn quickly and effectively, without translation or memorization. You'll discover our method, which keeps you excited to learn more and more.

**Shipping:** This item is also available for shipping to select countries outside the U S

## **Product Description**

Rosetta Stone Personal Edition contains everything you need to give the voice inside of you a new language. The method used recreates the natural way you learned your first language, revealing skills that you already have. This approach has won numerous awards, and has been adopted by countless organizations, schools and millions of users around the world. Join the language revolution today. Only with Rosetta Stone.

### **No translation or memorization required.**

The most effective way to learn a new language is to be surrounded by it. When you were an infant, your parents taught you this way, by intuitively associating words with images. That's the ultimate language lab, but most language-learning programs completely ignore this.

Think about all of the ways you've tried to learn a language: classes at school, tapes and cassettes, even software that uses your native language as a base for your next one. What do they all have in common? Translation and memorization.

Instead of taking a "direct flight" from your brain to your new language, translation and memorization connects you to your old language. You always have to "fly" from your brain, to your native tongue ... and then translate what you've memorized to communicate.

That might work for a few words, but what happens when you get to a sentence or phrase? When you have to change tenses? You're going to make a lot of "connecting flights." That's why those other methods are so frustrating ... and why they fail.

### **Enter Dynamic Immersion.**

This method encourages you to think like a baby. You'll pair words with vivid, real-life images and make connections between things you know and the new language. Soon, you'll be thinking in a new language, stringing words together into phrases that you create.

### **Innovative technology.**

Rosetta Stone places this Dynamic Immersion method at the core of a suite of software that works with you to develop your skills. The simple, intuitive interface helps to keep you engaged in the solution, while advanced speech recognition technology makes certain that you're speaking correctly and accurately. Best of all, Rosetta Stone never leaves you behind. You'll only move forward when you're ready, when you've become comfortable and confident.

### **Communicate and connect with the world: Level 1, 2 & 3 Set.**

Rosetta Stone Level 1, 2 & 3 Set will take you on a journey from the basics to a whole new level of sophistication. You'll build a foundation of fundamental vocabulary and essential language structure. You'll quickly gain the confidence to engage in social interactions. Say "hello" and "goodbye," arrange travel, order food, go shopping and more! From there, you'll share your ideas and opinions, express feelings and talk about your life, your interests and more. You'll discover a voice. In a new language.

### **Audio Companion**

With Audio Companion, you'll enhance the Rosetta Stone experience wherever you go. You'll learn new skills on the computer, and then reinforce what you've learned with

Audio Companion Simply play the CDs on a stereo or download them to a MP3 Player Each Audio Companion activity corresponds to a lesson in the Rosetta Stone software, so you can turn your travel time into productive language-learning time.

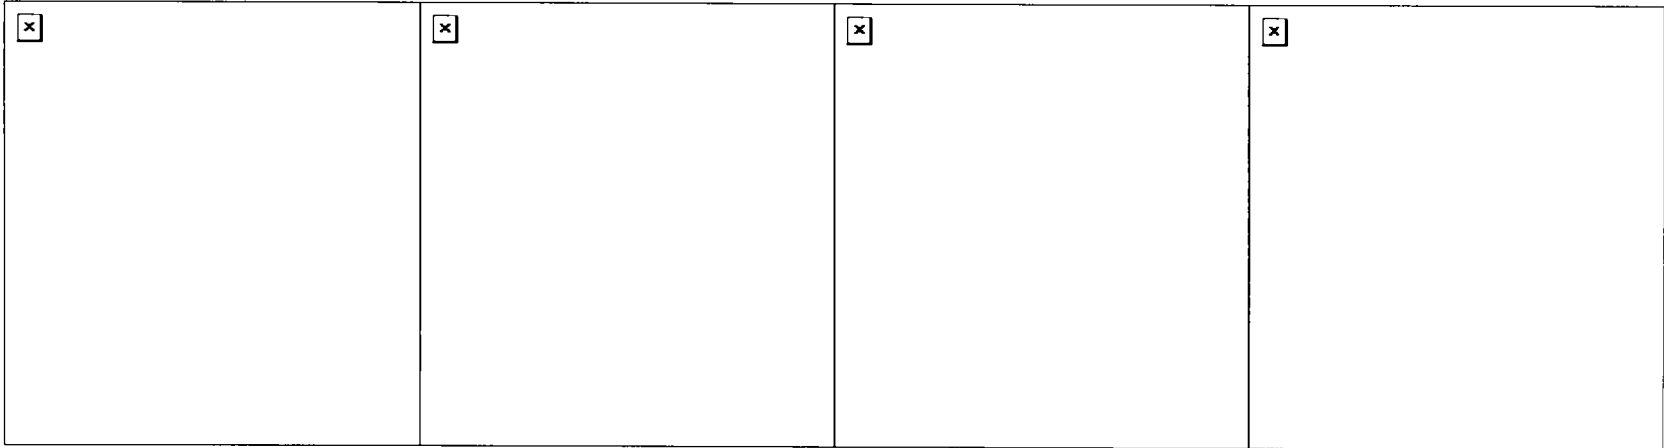

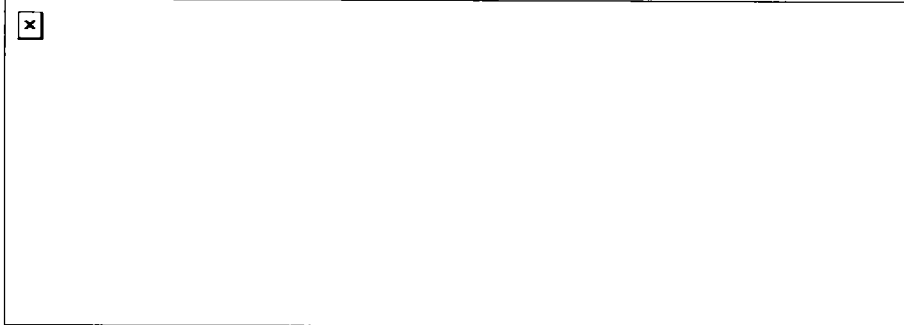

**Inside the box, you'll find:**

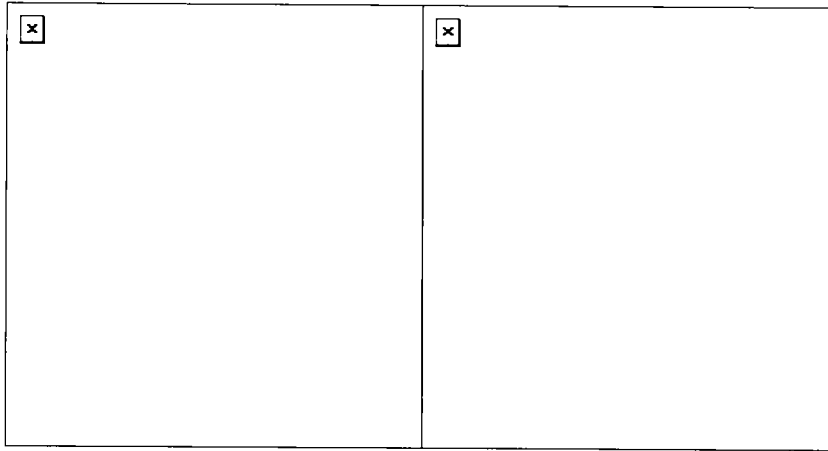

Version 3 Personal Edition CD-ROM software for Levels 1, 2 & 3 (Windows)

Headset microphone

User's guide

Audio Companion, a multiple-CD set to play or download to your MP3 player

**We have millions of satisfied customers worldwide, including:**

Rosetta Stone® brings you a complete language-learning solution, wherever you are - at home, in-the-car or on-the-go. You'll learn quickly and effectively, without translation or memorization. You'll discover our method, which keeps you excited to learn more and more.

# Rosetta Stone<sup>®</sup>

Language Learning  Success

## System Requirements

**Platform:** Windows XP / 2000 / Vista,

**Media:** CD-ROM

## Product Features

Rosetta Stone teaches you a new language naturally, by getting you to think, live and breathe the language

Innovative solutions get you speaking new words, right from the start

Rosetta Stone moves forward only when you're ready--you drive the pace, you set the schedule

With Rosetta Stone, you'll discover a foundation of key vocabulary that you'll use to build into a whole new language

Audio Companion lets you take the Rosetta Stone experience anywhere in the car, at the gym, or on-the-go

## Product Details

**Product Dimensions:** 8 x 4 x 8 inches

**Shipping Weight:** 1.9 pounds

**Shipping:** This item is also available for shipping to select countries outside the U.S.

## Product Description

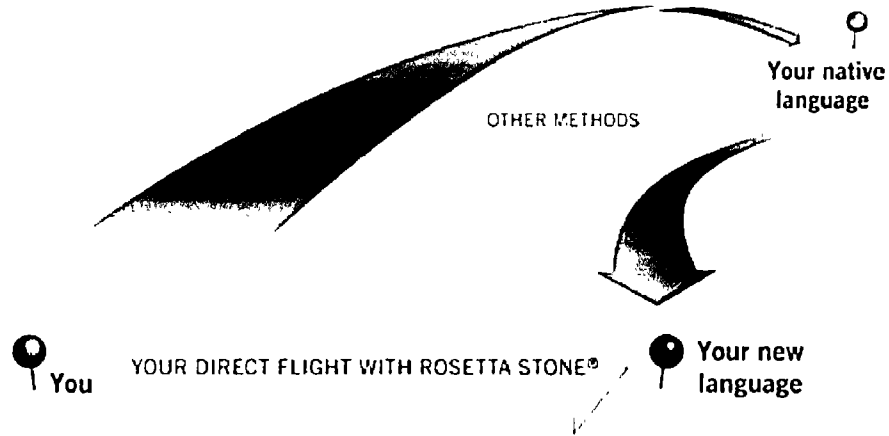

Rosetta Stone Personal Edition contains everything you need to give the voice inside of you a new language. The method used recreates the natural way you learned your first language, revealing skills that you already have. This approach has won numerous awards, and has been adopted by countless organizations, schools and millions of users around the world. Join the language revolution today. Only with Rosetta Stone.

**No translation or memorization required.**

The most effective way to learn a new language is to be surrounded by it. When you were an infant, your parents taught you this way, by intuitively associating words with images. That's the ultimate language lab, but most language-learning programs completely ignore this.

Think about all of the ways you've tried to learn a language: classes at school, tapes and cassettes, even software that uses your native language as a base for your next one. What do they all have in common? Translation and memorization.

Instead of taking a "direct flight" from your brain to your new language, translation and memorization connects you to your old language. You always have to "fly" from your brain, to your native tongue and then translate what you've memorized to communicate.

That might work for a few words, but what happens when you get to a sentence or phrase? When you have to change tenses? You're going to make a lot of "connecting flights." That's why those other methods are so frustrating and why they fail.

**Enter Dynamic Immersion.**

This method encourages you to think like a baby. You'll pair words with vivid, real-life images and make connections between things you know and the new language. Soon, you'll be thinking in a new language, stringing words together into phrases that you create.

**Innovative technology.**

Rosetta Stone places this Dynamic Immersion method at the core of a suite of software that works with you to develop your skills. The simple, intuitive interface helps to keep you engaged in the solution, while advanced speech recognition technology makes certain that you're speaking correctly and accurately. Best of all, Rosetta Stone never leaves you behind. You'll only move forward when you're ready, when you've become comfortable and confident.

**Communicate and connect with the world: Level 1, 2 & 3 Set.**

Rosetta Stone Level 1, 2 & 3 Set will take you on a journey from the basics to a whole new level of sophistication. You'll build a foundation of fundamental vocabulary and essential language structure. You'll quickly gain the confidence to engage in social interactions. Say "hello" and "goodbye," arrange travel, order food, go shopping and more! From there, you'll share your ideas and opinions, express feelings and talk about your life, your interests and more. You'll discover a voice. In a new language.

**Audio Companion**

With Audio Companion, you'll enhance the Rosetta Stone experience wherever you go. You'll learn new skills on the computer, and then reinforce what you've learned with Audio Companion. Simply play the CDs on a stereo or download them to a MP3 Player. Each Audio Companion activity corresponds to a lesson in the Rosetta Stone software,

so you can turn your travel time into productive language-learning time

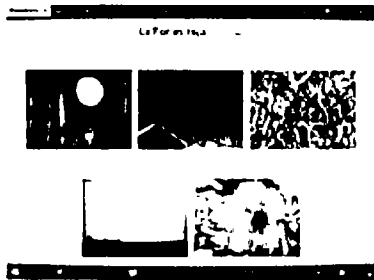

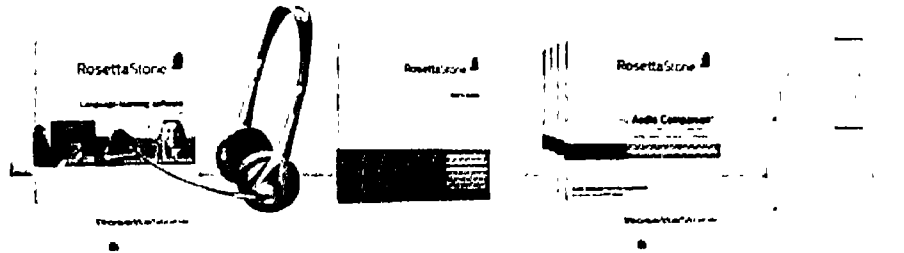

**Inside the box, you'll find:**

Version 3 Personal Edition CD-ROM software for Levels 1, 2 & 3 (Windows)

Headset microphone

User's guide

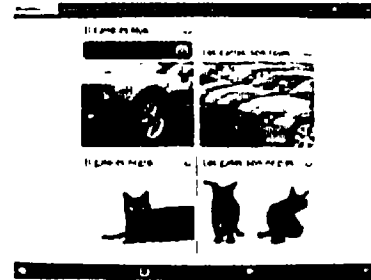

Audio Companion, a multiple-CD set to play or download to your MP3 player

**You'll use vivid images and spoken words to immerse yourself in the language.**

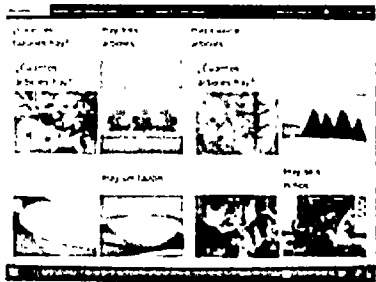

**You'll learn by seeing and hearing new language and relating it to real-life situations.**

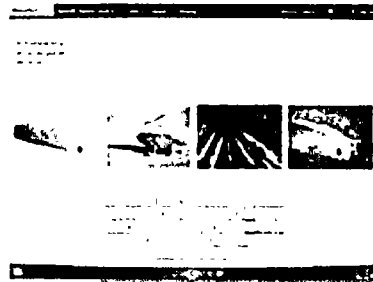

**You'll be encouraged to speak, right from the very first lesson.**

**Speech recognition coaches you to the correct pronunciation.**

You'll take the basics and put them together into phrases and sentences.

Words you've learned will form the building blocks of sentences you'll create.

We have millions of satisfied customers worldwide, including:

- Cerner
  - NASA
  - Pitney Bowes
  - U.S. State Department
  - U S Army
- Customer Testimonial**

— Linda S

My mother is from Thailand, yet she never taught me Thai. She spoke no English, and I had less than 3 months to prepare for the trip. Upon arrival, I was instantly able to speak to my sister. Rosetta Stone really helped me reconnect with a family that I barely knew.

- Internet or phone connection required for product activation

Speech recognition feature requires a headset microphone (USB recommended)  
16X CD-ROM Drive (for installation)

### **About Spanish (Latin American)**

Spanish is spoken by more than 400 million people. It is the official language of Mexico, most South and Central American countries and the Dominican Republic, Cuba and Puerto Rico, where it is pronounced differently than in Spain.

### **Spanish Learning Tips**

Spanish pronunciation and spelling are regular and predictable.

There are two categories of Spanish nouns: masculine and feminine.

Don't be surprised if you see sentences without subjects. Rosetta Stone teaches you to identify who is speaking or who is being spoken about through the form of the verb.

Spanish has two verbs that mean 'to be.' One is used for characteristics that are more permanent, and one for characteristics that are more temporary.

You'll notice that many Spanish words use accent marks, which indicate where to put stress.

Sometimes an accent distinguishes one word from another that is identical except for the mark. For example, *esta* and *esta*.

The letter ñ is distinct from n in its pronunciation. The letter ll is also pronounced differently than two single l's.

### **Satisfaction Guaranteed**

Rosetta Stone CD-ROM products are backed by an unconditional six-month money-back guarantee. If you're not satisfied, we'll return your money – no questions asked. Return instructions come with the product.

### **Inside the box, you'll find:**

1. Version 3 Personal Edition
2. CD-ROM software for Level 1, 2 & 3 (Windows/Mac)
3. Headset microphone
4. User's guide
5. Twelve Audio Companion, a multiple-CD set to play or download to your MP3 player

### **We have millions of satisfied customers worldwide, including:**

Cerner

Pitney Bowes

U.S. State Department

U.S. Army

**Customer Testimonial**

— Linda S

My mother is from Thailand, yet she never taught me Thai She spoke no English, and I had less than 3 months to prepare of the trip Upon arrival, I was instantly able to speak to my sister Rosetta Stone really helped me reconnect with a family that I barely knew
