David,

Following Mr. Furrow's deposition, we request that Google immediately produce (by Tuesday, September 24th):

- The textual descriptions in change lists associated with change list numbers for all produced source code files (accessible by at least the Critique and Perforce systems); and
- The Launch Cal entry for disabling off and promotion off.

During his deposition, Mr. Furrow confirmed that these documents exist and are clearly relevant to the changes in the AdWords system. They should have been produced by Google long ago.
