Re: Google Search's Use of Click-Through Rate/Data

Dear David:

Further to your letter of January 5, 2012, I/P Engine, Inc. awaits Google's answer as to whether Google Search uses click-through rates or data to rank/return search results. Promptly providing this information in the form of a sworn interrogatory may help narrow the scope of the case.

Best regards,

Charles J. Monterio Jr.
