14

17

Q. All right. And then you leave, and where are you 11 12 going now? 13

A. Going to drop off Elder Waite and Elder Ross.

Q. Okay. And is that traveling down Adams Road?

A. I believe that's the road. I don't recall. I 15

16 believe it is.

Q. Okay. How well did you know Elder Waite?

18 A. Not very well. I -- he was a little more than an 19

acquaintance.

20 Q. And what does that mean? 21

A. I have had interactions with him. I considered him

22 a friend.

23 O. In the mission field?

24 A. Yes, sir.

Q. 'Had you known him before he came into the district?

A. In the district? 1

2 Q. Yes.

3 A. Well, obviously not if two of them showed up in a

4 car and four of them left in a car.

Q. Okay. I didn't know they were in your same

6 district, but so you have got a pickup, and you have a car in

7 your district?

A. Yes, sir.

9 Q. All right. And at this point in time you're

10 traveling down Adams Road. Tell me what happened then the

next thing you remember as far as -- or do you remember

12 anything before the collision as you're traveling down Adams

13 Road?

5

14 A. I remember going down Adams Road, driving, and then

15 I remember coming to the four-way stop. And we stopped,

116 looked left, didn't see anybody, looked right. I believe

17 there was a car or something over there. I don't recall 18 exactly.

19 Q. I'm not sure when you say over there.

20 A. To the right. 21

Q. Okay. So you are traveling north on Adams Road?

22 I believe that's correct.

23 Q. Is that correct? Maybe this will be easier. Let

Page 18

- 1 Q. Okay. You would agree that depending on where
- 2 Mr. Fossum stopped, a calculation could be done as to how
- 3 far down the road he could see, based on the road design?
- 4 A. You could probably do it off the aerial too, yes, you
- 5 can. You are talking about the view obstruction on the left
- 6 and how far he can see depending on where he stopped?
- 7 Q. Yes.
- 8 A. Sure. The closer he gets to the intersection, the more
- 9 his visibility increases.
- 10 Q. Okay. Do you have an opinion as to whether you believe
- 11 Mr. Fossum should have stopped?
- 12 A. Well, yes, he should have stopped in a position where he
- 13 can check for traffic in both directions.
- 14 Q. Okay. And do you know where that is on that road?
- 15 A. A specific point?
- 16 Q. Yes.
- 17 A. No. I know that he can stop and clear the sight
- 18 obstruction before entering the intersection, but I don't
- 19 know where his exact position would be, no.
- 20 Q. Okay. So at time of trial you are not going to render
- 21 an opinion either as to where, in fact, where he stopped or
- 22 where you believe he should have stopped?
- 23 MR. NORDSTROM: I'll object. I think he addressed that
- 24 in his report that he would.
- 25 Q. (BY MR. REKOFKE) Then I'm asking where it is then. You

Page 20

- 1 MR. NORDSTROM: Well, I can tell you we'll be asking him
- 2 to do that at trial.
- 3 Q. (BY MR. REKOFKE) Well, I guess we'll have to do that
- 4 and we'll reconvene at some point in time.
- 5 Mr. Hunter, do you agree -- how many years were you
- 6 involved as an officer in the State Patrol?
- 7 A. 25.
- 8 Q. 25? Do you agree based on that experience, and I guess
- 9 other experience you have had since you left the WSP, that
- 10 Mr. Brodhead violated various laws?
- 11 A. He did, yes.
- 12 Q. Okay. Had you investigated, when you were working with
- 13 the WSP had you investigated accidents like this?
- 14 A. I've investigated lots of crashes. I don't know if I
- 15 ever had one skidding 260 feet, though, that's a little
- 16 unusual.
- 17 Q. You investigated crashes at four-way stops?
- 18 A. I have had a number of them. A lot of our crashes were
- 19 on higher-speed roadways.
- 20 Q. Can you tell me or list for me the various laws, if you
- 21 had been the investigating officer, what laws Mr. Brodhead
- 22 violated, prior to the accident?
- 23 A. Obviously speed and failure to stop for the stop sign,
- 24 because he didn't stop for it. And then if you could
- 25 determine what his braking efficiency was on the truck, you

Page 19

can address anything you want, but I need to know what it

2 is.

1

- 3 A. Well, what I'm stating is that had he pulled forward to
- 4 look to the left, sufficient to clear traffic, he could have
- 5 seen this approaching vehicle in a braking mode at high
- 6 speed trying to reduce its speed. That's, and there is a
- 7 point at which he can see beyond the view obstructions.
- 8 Q. Where is that spot? Can you mark it on Exhibit 1.
- 9 A. I cannot mark it on Exhibit 1, because that road, that
- 10 drawing is not to scale. It would have to be done on a
- 11 scale diagram or an aerial photograph, and I have not done
- 12 that yet.
- 13 Q. Do you -- your report has an aerial photograph?
- 14 A. It does, yes.
- 15 Q. I assume that is a shrunken picture?
- 16 A. That is just a screen capture, yes.
- 17 Q. Do you have that aerial photograph with you today?
- 18 A. Well, I have a copy of it, yes.
- 19 Q. Okay. And I don't mean to direct your work effort in
- 20 this case, but do you plan on testifying at time of trial
- 21 where you are going to pinpoint a spot on a map, on a photo,
- 22 on a diagram of where you believe Mr. Fossum should have
- 23 stopped?
- 24 A. I wasn't asked to do that, no.
- 25 Q. Okay.

Page 21

- could cite him for defective brakes as well. He has to be
- 2 at least, I think it is 52.8 percent efficient if I remember
- 3 right, under RCW 46.61.351, I think it is, he has a certain
- 4 efficiency he has to meet, .48 is certainly below that
- 5 efficiency.
- 6 Q. Anything else?
- 7 A. No, no, those are pretty much it.
- 8 O. Okay. Are there recognized rules of the road for
- 9 four-way intersections?
- 10 A. Yes, there are.
- 11 Q. Okay. Can you briefly describe them for me?
- 12 A. You're supposed to stop and yield to, as stated in the
- 13 statute, to traffic that could pose a potential hazard.
- 14 Q. Is there a certain amount of time when you're the
- 15 favored driver at four-way intersections? In other words,
- 16 you have arrived first and there's nobody on your right to
- 17 yield to, is there a certain period of time that you have to
- 18 wait at the intersection before proceeding?
- 19 A. Not that I'm aware of.
- 20 Q. Is there any rules as far as how long you have to look
- 21 in a certain direction?
- 22 A. Not that I'm aware of, no.
- 23 Q. When you're stopped as a favored driver at a four-way
- stop, it seems to me common sense would be that there is
- 25 sort of three choices where to look?

- violating the law?
- A. Correct. If he has no opportunity to detect or identify
- the potential hazard, then how can he react to it? 3
- Q. As the driver stopped at an intersection, do you agree
- Mr. Fossum does not have to assume Mr. Brodhead is going to
- go twice the speed limit and have bad brakes?
- A. Oh, I would agree with that, yes.
- Q. I think I saw this in your report, maybe I didn't, but
- do you agree that if Mr. Brodhead had been going 35 miles an 9
- hour he could have actually run the stop sign and there
- 11 would have been no collision?
- 12 A. Well, it depends on where you are going to start the
- 13 clock. I mean, he entered the intersection sliding through
- he stop sign to the point of impact in those speed ranges,
- so if you want to start at the time that he enters the
- intersection, they are going to crash. So it just depends 16
- on where you want to start your zero point. 17
- Q. Let's just assume that instead of going 70 miles an hour 18
- Mr. Brodhead obeys the law and doesn't hit 70, he could have 19
- gone 35 miles an hour from, I guess, when he crossed
- 21 Evergreen and gone through the stop sign, there would have
- 22 been no accident?

1 SO --

- 23 MR. NORDSTROM: I'll object to the form.
- 24 A. Obviously if you start at different time frames, people
- 25 aren't going to end up at the same spot at the same time
 - Page 7

 - Q. (BY MR. REKOFKE) You do agree if Mr. Brodhead had been
- going 35 miles an hour and still run the stop sign, there
- would have been no accident? 4
- 5 MR. NORDSTROM: Same objection.
- A. No, the way you're phrasing the question, I can't agree 6
- with it, because there's the evidence that by the time he
- started to go through the intersection, he probably was
- 9 doing somewhere around 35 miles an hour, and he still got
- 10 involved in the crash. But if you're saying if you start
- back at a different time, they don't end up at the same spot 11
- at the same time, I'd agree with that.
- 13 Q. (BY MR. REKOFKE) That's all I'm asking.
- 14 A. Okay.
- 15 Q. I believe this was in your report, but let me ask, do
- 16 you agree that if Mr. Brodhead's brakes had been working
- 17 properly he could have done all the speeding that actually
- 18 he did, in other words, gone twice the speed limit and had
- 19 his brakes been working, he still could have stopped short
- 20 of the crash?
- 21 A. You give him good brakes and the collision does not
- 22 occur because he will in fact stop before he enters the
- 23 intersection.
- 24 Q. So if the brakes were --
- A. Working properly.

Page 8

Page 9

- Q. -- were working properly, Mr. Brodhead could have gone
- 70 miles an hour, everything could have occurred that did in
- fact occur and if he would have had brakes that worked, that
- he would have stopped short of the collision?
- A. I think I figured about 60 feet short or something like
- 6 that.
- 7 Q. Okay. Will you be rendering an opinion at time of trial
- as to what made Mr. Brodhead slam on his brakes?
- A. Well, if, the opinion I would render based on the
- information I have right now is that he either saw or was
- told of the stop sign and he stopped before the stop sign.
- 12 Q. So the cue or the clue was either an oral one from, I
- 13 think one of the girls in the car screaming or that he
- 14 actually saw the stop sign?
- A. Correct. Based on the data I've seen so far is what it 15
- 16 seems to be.
- Q. Okay. Will you be rendering an opinion at time of trial 17
- as to how far Mr. Brodhead was from the intersection when he
- 19 first saw Mr. Fossum's truck?
- 20 A. I can't give you the specifics because I don't know. We
- know that he saw it stopped there at some time, but I don't
- 22 know the exact point in time. So at this point, no, I can't
- 23 tell you.
- Q. You mention in your report that you believe 410 feet is 24
- 25 the soonest that Mr. Brodhead could see the stop sign?

 - A. No, I didn't think I said that. I said, what I analyzed was his speed at the beginning of the tire mark, and then I 2

 - backed him up assuming a one and a second perception/
 - reaction time. Obviously if you change that you will change 4
 - distance. And I added the reaction distance to the skidding
 - distance, and that's where you get the 410 feet. 6
 - 7 So that would be approximate point of notice, if you
 - assume a one and a half second detection/ 8
 - 9 identification/reaction period.
 - 10 Q. Whatever that number is, you've done it by working
 - backwards? 11
 - A. Correct, off the end of the skid marks.
 - 13 O. Have you gone out and done a site visit?
 - A. I did go out there, yes.
 - 15 Q. Did you do measurements?
 - 16 A. I did not.
 - 17 Q. Okay. When did you go out and visit the site?
 - A. This morning, before the deposition.
 - Q. Okay. I want to ask some of the numbers that are in 19
 - 20 your report, make sure I understand them.
 - 21 What in your opinion was the minimum speed that
 - 22 Mr. Brodhead achieved just prior to applying the brakes?
 - 23 A. At time that he --

- A. Correct. If he has no opportunity to detect or identify the potential hazard, then how can he react to it?
- 4 Q. As the driver stopped at an intersection, do you agree

- 9 do you agree that if Mr. Brodhead had been going 35 miles an

- 16 intersection, they are going to crash. So it just depends
- 17 on where you want to start your zero point.
- 18 Q. Let's just assume that instead of going 70 miles an hour
- 19 Mr. Brodhead obeys the law and doesn't hit 70, he could have
- 20 gone 35 miles an hour from, I guess, when he crossed
- 21 Evergreen and gone through the stop sign, there would have
- 22 been no accident?
- 23 MR. NORDSTROM: I'll object to the form.
- 24 A. Obviously if you start at different time frames, people
- 25 aren't going to end up at the same spot at the same time

- Q. -- were working properly, Mr. Brodhead could have gone
- 2 70 miles an hour, everything could have occurred that did in
- 3 fact occur and if he would have had brakes that worked, that
- 4 he would have stopped short of the collision?
- 5 A. I think I figured about 60 feet short or something like
- 6 that.
- 7 O. Okay. Will you be rendering an opinion at time of trial
- 8 as to what made Mr. Brodhead slam on his brakes?
- 9 A. Well, if, the opinion I would render based on the
- 10 information I have right now is that he either saw or was
- 11 told of the stop sign and he stopped before the stop sign.
- 12 Q. So the cue or the clue was either an oral one from, I
- 13 think one of the girls in the car screaming or that he
- 14 actually saw the stop sign?
- 15 A. Correct. Based on the data I've seen so far is what it
- 16 seems to be.
- 17 Q. Okay. Will you be rendering an opinion at time of trial
- 18 as to how far Mr. Brodhead was from the intersection when he
- 19 first saw Mr. Fossum's truck?
- 20 A. I can't give you the specifics because I don't know. We
- 21 know that he saw it stopped there at some time, but I don't
- 22 know the exact point in time. So at this point, no, I can't
- 23 tell you.
- 24 Q. You mention in your report that you believe 410 feet is
- 25 the soonest that Mr. Brodhead could see the stop sign?

Page 7

- 1 so --
- 2 Q. (BY MR. REKOFKE) You do agree if Mr. Brodhead had been
- 3 going 35 miles an hour and still run the stop sign, there
- 4 would have been no accident?
- 5 MR. NORDSTROM: Same objection.
- 6 A. No, the way you're phrasing the question, I can't agree
- 7 with it, because there's the evidence that by the time he
- 8 started to go through the intersection, he probably was
- 9 doing somewhere around 35 miles an hour, and he still got
- 10 involved in the crash. But if you're saying if you start
- 11 back at a different time, they don't end up at the same spot
- 12 at the same time, I'd agree with that.
- 13 Q. (BY MR. REKOFKE) That's all I'm asking.
- 14 A. Okay.
- 15 Q. I believe this was in your report, but let me ask, do
- 16 you agree that if Mr. Brodhead's brakes had been working
- 17 properly he could have done all the speeding that actually
- 18 he did, in other words, gone twice the speed limit and had
- 19 his brakes been working, he still could have stopped short
- 20 of the crash?
- 21 A. You give him good brakes and the collision does not
- 22 occur because he will in fact stop before he enters the
- 23 intersection.
- 24 Q. So if the brakes were --
- 25 A. Working properly.

- A. No, I didn't think I said that. I said, what I analyzed
- 2 was his speed at the beginning of the tire mark, and then I
- 3 backed him up assuming a one and a second perception/
- 4 reaction time. Obviously if you change that you will change
- 5 distance. And I added the reaction distance to the skidding
- 6 distance, and that's where you get the 410 feet.
- 7 So that would be approximate point of notice, if you
- 8 assume a one and a half second detection/
- 9 identification/reaction period.
- 10 Q. Whatever that number is, you've done it by working
- 11 backwards?
- 12 A. Correct, off the end of the skid marks.
- 13 Q. Have you gone out and done a site visit?
- 14 A. I did go out there, yes.
- 15 Q. Did you do measurements?
- 16 A. I did not
- 17 Q. Okay. When did you go out and visit the site?
- 18 A. This morning, before the deposition.
- 19 Q. Okay. I want to ask some of the numbers that are in
- 20 your report, make sure I understand them.
- 21 What in your opinion was the minimum speed that
- 22 Mr. Brodhead achieved just prior to applying the brakes?
- 23 A. At time that he --
- 24 MR. NORDSTROM: Just, are you referring to a specific
- 25 figure? You said within the report.

Re:

Waite v. The Church of Latter Day Saints, et al.

Motion to Allow Amended Answer by Steven Brodhead

Dear Sirs:

Please find enclosed a proposed Stipulated Motion allowing Steven Brodhead to amend his Answer. This would allow him to fully admit negligence in this case. Mr. Brodhead is also admitting that his negligence caused injuries though the nature and extent of those injuries are not specified. I would hope that all of you would be agreeable to this.

Please communicate your willingness to consent to this matter by phone, email or letter.

I appreciate your cooperation.

Very truly yours,

ANDREW C. SMYTHE
