Spokane, WA 99201

Re: Thomas Waite

Dear Mr. Rekofke:

I had the opportunity to review medical records, educational records and depositions in the case of Thomas Waite. I also had the opportunity to review an expert report prepared by Anthony Choppa, M.Ed. The purpose of this review was to assess the extent to which Mr. Waite was injured secondary to a motor vehicle crash that occurred in August of 2003. In addition and based upon his injuries opinions are presented regarding Mr. Waite's needs for future care and treatment as well as his future labor market access and earning capacity.

The following records were reviewed in conducting this analysis.

1. American Medical Response
2. Deaconess Medical Center
3. Northwest Med STAR

4. Rancho Los Amigos National Rehabilitation Center
5. Kaiser Permanente Medical Center
6. Saint Jude Medical Center
7. Care Ambulance Service
8. Susan Skinner, M.D.
9. Spokane Valley ENT
10. William Boelter, M.D.
11. Anthony Choppa, M.Ed.
12. Fullerton Union High School
13. Fullerton College
14. Depositions of:
 - a. Thomas Waite, 10/17/06
 - b. Orley Waite, 10/17/06
 - c. Carol Waite, 10/17/06

Thomas Waite is a 23 year old young man who was injured secondary to a motor vehicle crash on 8/21/03. At the time of the motor vehicle crash Mr. Waite was a Mormon missionary assigned to Spokane, Washington. Mr. Waite was treated acutely at Deaconess Medical Center in Spokane, Washington through 9/10/03. His discharge diagnoses were closed head injury, possible ligamentous injury at C5-6, occipital fracture and aspiration pneumonia. On 9/10/03 Mr. Waite was transferred to the Rancho Los Amigos National Rehabilitation Center.

Mr. Waite was engaged in a course of rehabilitation at Rancho Los Amigos through 10/2/03. At the time he was discharged home to the care of his parents in Fullerton, California. Following his discharge he followed up at

the Rancho Los Amigos Outpatient Clinic. An audiology evaluation in October of 2003 revealed a hearing loss in the left ear.

In November of 2003 Mr. Waite established Neurology follow-up with Susan Skinner, M.D. She noted that he showed marked improvement in neurologic function following his rehabilitation. She cleared him to drive a motor vehicle and noted that he would probably be ready to resume his missionary work in January of 2004.

Mr. Waite followed up with Dr. Skinner in December of 2003 and she cleared him to resume his missionary work. Mr. Waite returned to Spokane, Washington and continued his missionary work. He completed his missionary assignment in the spring of 2004.

Mr. Waite was re-examined by Dr. Skinner in February of 2006 at the request of his attorney. She noted that he presented with a loss of hearing in the left ear and decreased sense of taste and smell. She noted that he denied any personality changes and had not presented with seizure activity. He denied significant cognitive changes. On examination she noted that he presented as alert and cooperative. She noted he was very personable and did not show any cognitive deficits. Her impressions were that Mr. Waite has very minimal neurologic sequelae that include slight hearing loss in the left ear and decreased sense of taste and smell. She noted that otherwise he has been remarkably fortunate neurologically and is very functional by his description. She noted that no further follow-up was necessary and he should return to the clinic as needed.

In June of 2006 Mr. Waite presented with the onset of seizure activity. He was treated at the Saint Jude Medical Center ER. Secondary to his seizure activity he was prescribed anticonvulsant medications. As a result of the onset of seizure activity Mr. Waite followed-up with Dr. Skinner in June of 2006. Her impression was that he presented with new onset seizure activity and continued his anti-seizure medications. In late July of 2006 Mr. Waite followed up with Dr. Skinner. She continued his medications and cleared him to resume driving. She recommended follow-up in three months.

At the present time Mr. Waite is living with his parents in Fullerton, California. He is attending Fullerton Junior College and is employed part time in his uncle's engineering business.

In November of 2006 an expert report was presented by Anthony Choppa, M.Ed. Mr. Choppa presented opinions regarding Mr. Waite's needs for future care and treatment as well as opinions regarding his future labor market access and earning capacity.

Mr. Choppa presented his opinions regarding Mr. Waite's future care needs in a document titled "Preliminary Care Plan for Thomas Waite". Mr. Choppa's plan was reviewed by Dr. Skinner who medically endorsed his recommendations for neurology follow-up, anti-convulsant medications and ongoing laboratory studies to monitor his medication levels and liver function.

In addition to those recommendations considered medically necessary by Dr. Skinner Mr. Choppa presented a number of additional recommendations that have not been recommended or prescribed over the last three years. He recommended neuropsychological re-evaluation every three to five years. However neuropsychological re-evaluation has not been recommended or prescribed by his treating physicians. Further, Dr. Skinner noted in February of 2006 that Mr. Waite does not show cognitive deficits and she did not endorse those recommendations when she reviewed the care plan.

Mr. Choppa further recommends ongoing psychotherapy and cognitive remediation. Mr. Waite testified in his deposition that he did begin seeing a counselor in the spring of 2006. His mother testified in her deposition that he had two visits with this counselor through the date of her deposition in October of 2006. However when Dr. Skinner reviewed the care plan she did not endorse the recommended psychotherapy. Mr. Waite has not been referred for cognitive therapy and again, Dr. Skinner has opined that he presents without cognitive deficits. She also did not endorse this recommendation.

Mr. Choppa presents recommendations for ongoing case management to coordinate what he describes as medical and rehabilitation providers. Mr. Waite's present treatment is limited to follow-up with Dr. Skinner and medications to manage his seizure activity. He certainly can manage his medical follow-up independently and will not require case management services. Further, Dr. Skinner did not endorse this recommendation.

Mr. Choppa recommends two to three years of tutoring. However this service is being provided to Mr. Waite through the college tutoring center, further Mr. Waite testified in his deposition that he had no time for additional tutoring services. Mr. Choppa finally recommends a vocational assessment and vocational counseling one to two times over Mr. Waite's life. This service also has not been recommended or prescribed over the last three years and if Mr. Waite felt he required vocational rehabilitation assistance this service is available through the California Vocational Rehabilitation Agency.

Attached as Appendix "A" is a future care plan consistent with those recommendations made by Mr. Waite's treating physicians over the last three years and consistent with Dr. Skinner's opinions.

Mr. Choppa presents his opinions regarding Mr. Waite's future labor market access and earning capacity in a letter to Richard Eymann on 11/13/06. Mr. Choppa opines that after completing college Mr. Waite will be capable of employment as an engineering technician or computer assisted design and drafter with an expected annual salary of \$35,360 per year.

However he states that Mr. Waite's vocational goal was to become a civil engineer and he uses the average annual earnings of a civil engineer as a "reasonable benchmark" for Mr. Waite's pre-injury earning capacity. Based upon this opinion Mr. Choppa concludes that Mr. Waite will experience a loss of earnings over his work life.

However it should be noted that according to the Department of Labor the occupation of civil engineer (005-061-014) requires superior numerical skills and mathematical reasoning. Individuals who are successful in this occupation require a high level of mathematical competency including competence in logarithms, linear equations, quadratic equations, binomial theorems, analytical geometry, calculus and statistics.

In the depositions of Mr. Waite and Mr. Waite's father it was noted that Mr. Waite struggled with math throughout his academic years. In the ninth grade Mr. Waite earned grades of "C" in basic high school math. In the tenth grade he failed integrated algebra. During his twelfth grade year he earned a "B" in algebra I. In preparation for a course of study in civil engineering Mr. Waite would have required additional mathematical

prerequisites including geometry, algebra II, statistics, pre-calculus and very possibly calculus. Considering Mr. Waite's mathematical competency he certainly could not have been expected to succeed in a civil engineering degree program and this occupation could not be considered a reasonable benchmark of his pre-injury earning capacity. If in fact Mr. Waite's vocational goal was to work in the engineering industry he would have been limited to work as an engineering technician or computer assisted drafter. Given Mr. Choppa's opinion that he currently has the capacity to maintain employment in such an occupation he will not experience a loss of earnings over his work life.

The opinions presented in this report will be reconsidered as additional data becomes available.

If I can be of further assistance, please do not hesitate to contact me.

Sincerely,

William H. Burke, Ph.D.

WHB/lw

APPENDIX "A"
REHABILITATION & LIFE CARE PLAN

63

I. MEDICAL CARE: Routine		
RECOMMENDATIONS	FREQUENCY/DURATION	COST ESTIMATE
1. Neurology exam	1x/yr	144-202/yr
2. Lab studies (Dilantin level, CBC, liver function)	1x/yr	303/yr

II. MEDICATION		
RECOMMENDATIONS	FREQUENCY/DURATION	COST ESTIMATE
1. Dilantin	300mg QHS	411.23/yr

Total Annual Costs: \$858.23-\$916.23

Education:

Ph.D., Rehabilitation Services, Department of Counseling Psychology, The Florida State University, Tallahassee. (June, 1985)

M.A., Rehabilitation Counseling, Department of Social and Behavioral Sciences, University of South Florida, Tampa. (June, 1973)

B.S., Psychology, cum laude, Northwest Missouri State University, Maryville. (June, 1971)

Certification/Licensure:

Certified Rehabilitation Counselor (CRC) #23138
The Commission on Rehabilitation Counselor Certification.

Certified Case Manager (CCM) #M-00381
The Commission for Case Management Certification

Board Certified Rehabilitation Consultant; Diplomate #C4-544
The American Board of Professional Disability Consultants

Board Certified Disability Analyst #2253;
The American Board of Disability Analysts

Licensed Rehabilitation Counselor #91, Commonwealth of Massachusetts.

Licensed Rehabilitation Provider #WC 1001582
State of Florida, Division of Workers Compensation

Certified Vocational Rehabilitation Provider #236
State of New Hampshire, Department of Labor

Present Position:

President, William H. Burke & Associates, Portsmouth, NH & West Palm Beach, FL. William H. Burke & Associates is an international rehabilitation and disability management practice that specializes in the analysis, treatment planning and case management of individuals with brain and spinal cord injury, amputations, burns, chronic pain, orthopedic injuries and other severe disabilities. Specialized rehabilitation services are provided to the medical, legal and insurance communities in five primary areas: Comprehensive case analysis, rehabilitation planning, life care planning, vocational evaluation and assessment of post injury employability, and case management and utilization review.

Affiliated Activities:

Editor, *Rehabilitation Resources Press*. Portsmouth, NH

Senior Editor, *Rehabilitation and Treatment of Traumatic Brain Injury*. H.D.I. Publishing Company, Houston, TX.

Editorial Review Board, *Journal of Rehabilitation*.

Editorial Review Board, *Journal of Applied Rehabilitation Counseling*.

Editorial Board, *The Disability Analyst*.

Member, Professional Advisory Council, The American Board of Disability Analysts.

Lecturer, National Directory of Lecturers, Rehabilitation Research and Training Center on Severe Traumatic Brain Injury. Medical College of Virginia, Richmond, VA.

Member, Governor's Committee to Study Head Injury in New Hampshire. Appointed by Governor John H. Sununu, June, 1987.

Member, Professional Advisory Committee, Vista Centre, a residence for the Traumatically Head Injured, Ontario, Canada. Appointed January, 1987.

Member, National Head Injury Foundation Standing Committee's 1) Education and Training, 2) Membership, 3) Task Force on Life Long Care, 1985 - 1990.

Member, New York State Head Injury Association Vocational Task Force. Final report submitted to N.Y. Department of Education, November, 1986.

Past Professional Activity:

Optimal Environments, Inc., Tampa, FL Clinical Director (7/94 - 11/95)

Florida Institute for Neurologic Rehabilitation Director of Rehabilitation (7/92-7/94)

New Medico Head Injury Rehabilitation System
Executive Director, Highwatch Rehabilitation Center (8/86-7/92)
Director, New Medico Rehabilitation Center of Florida (1/86-9/86)
Director, Timber Ridge Ranch (1/85-1/86)

Father Flanagan's Boys' Home, Boys Town, Nebraska
Director, Father Flanagan's Boys Town of Florida (5/83-1/85)
Assistant Director, Group Home Development (5/81-5/83)
Certified Family Teacher (6/79-5/81)

New York State Division for Youth, Albany, New York
Director of Training & Organizational Development (1/76-6/79)

General Systems Associates, Ann Arbor, Michigan
Organization and Management Consultant (4/75-1/76)

State of Florida Division of Youth Services, Jacksonville, Florida
Halfway House Superintendent (1/74-4/75)

Pasco County Schools, Dade City, Florida
School Social Worker (6/72-1/74) Classroom Teacher, 6th grade (8/71-6/72)

Professional Academic Employment History:

Assistant Professor and Director, Human Services Program, School of Social and Behavioral Sciences, College of St. Mary, Omaha, Nebraska (1980-1981). Courses taught include: Introduction to Human Services, Behavior Therapy, Human Service Management, Assessment Techniques in Human Services, Value Clarification, Introduction to Research.

Adjunct Assistant Professor/Instructor, University of Nebraska, Lincoln; College of St. Mary, Omaha; Empire State College, New Paltz, New York, Marywood College, Scranton, Pennsylvania, Chicago State University, Chicago, Florida A & M University, Tallahassee. Courses taught included: Introduction to Human Services, Behavior Therapy, Behavior Analysis with Children and Adolescents, Management of Social Service Agencies, Developing Community Based Service Programs, Research Design and Methodology, Single Subject Research Design, Management of Organizational Behavior, Individual Counseling, Methods of Group Counseling, Counseling Minority and Disadvantaged Adolescents, Introduction to Public Administration, Systems Change.
