STICK TO THE PLAN, THE FALL OF MAN.

I'm currently in the process of compiling all of my old articles from various years and various websites. I need to find them and then edit them a bit and they will be posted in due time. EDIT: In going through them, I realize that most of the BUUCCCKKK=(

Its time for a ranting blitzkrieg and will likely be the most awesome article ever. Everyone will be offended, but hopefully I can offend every group equally, so it will balance out. As they say in the UFC, LET'S GET IT ON!

CAR/MOTORCYCLE ENTHUSIASTS

Words cannot express the utter hatred and disdain I feel for all of you. Why you insist on continually harassing me with your unnecessarily loud vehicles is beyond comprehension. NORMAL PEOPLE GET THEIR CARS FIXED WHEN THEY MAKE UNUSUAL NOISES. And why do we need 15 different motorcycle / hotrod building TV shows? You are very lucky I don't own any firearms.

THE SIMPSONS MOVIE 16-JUN-07

I used to be a huge fan of the Simpsons, when it was [still funny](#) until a couple of years ago, but stopped watching the show altogether when I tried to give it a chance but it was honestly too painful. I loved the fact that it had 2 (main) levels of humor. The "funny fat guy stupid" Homer that rednecks and censors can watch and feel it is fine for all audiences, and the "[look at yourself](#)" Homer that intellectuals and [artists](#) can appreciate. Meanwhile, the children of rednecks and censors everywhere would get the message little by little and perhaps recognize themselves and the world around them, and hopefully get exposed to a [subversive](#) message. But the writers who joined recently must have not seen there was a second level, and the show has become a joke within the joke, a parody of itself like the parody of showbiz that [Krusty](#) represents. In short, I loved it when it was [original](#) and clever. But the people making it now thought it would be easier to just make it easier and more mainstream so that it can compete with reality TV and such.

And then there is the [Simpsons Movie](#) coming out next month. [I want to](#) hope it will good. I know it will not be as good as I wish, or as it could, but I really hope they waited all this time to make something of high standard, and it is not just the rights holder who finally gave up and accepted Fox's check... Why am I dubious about Fox? Have a look at [this promo page](#): at the bottom, it says both "Host me on your site" (with appropriate HTML code) and "All rights reserved. Property of FOX. Private use only. Sale, duplication or other transfer of this material is strictly prohibited"... Sounds precisely like what the Simpsons used to make fun of.

ToyotaGirls.com was down by the time I checked it on July 26, 2007, but I retrieved a recent copy from Google Cache:

people to the brand early, with the hope that they will remain loyal and eventually move up to a Lexus. These types of high performance luxury cars are also naturally very desirable to the 18-35 crowd so its a two fold strategy.

The spy shots of the modified Toyota Crown (aka Lexus LS) are not what the car will really look like. That platform is just easier for engineers to work with because the new IS will likely have a V8 option and the LS platform is either rear wheel drive or all wheel drive. The image below is a chop/artist rendition of what it may look like based on current models, and seems to have hints of the tC in the lines. Not sure if the exhaust is realistic or if I even like it.

Submit Your Website To 66 Of The Top Websites!

In order to be successful on the Internet, you must submit your websites to the top search engines and directories. If you are doing nothing else, search engine placement and keyword-related advertising can make up 80 to 90 percent of your traffic.

Submitting to 1000's of "search engines" is not the way to get your website out there. Less than 100 websites receive 99% of the search traffic. The other thousand are harvesters of email addresses and use their submissions to find prospects for spam.

We have chosen the top 66 search engines in order to achieve maximum results. When you submit to these 66 search engines, search results will show up in hundreds of other engines. For instance, Google powers the Yahoo search engine. Search listings in Google will show up in Yahoo as well. Why would you pay \$299 to Yahoo when you can get listed in their directory by submitting

De domeinnaam van het Alfred Vogeltoernooi is gewijzigd.
 Vanaf 1 juli 2004 is de nieuwe en geactualiseerde site te vinden onder de naam
www.deventergrandprix.org

Alina Kabaeva heerst op Alfred Vogel Grandprix

Alina Kabaeva is de winnares van de Alfred Vogel Grandprix 2003 in Deventer. Zondag heerste de Russische ritmisch gymnaste op drie van de vier grandprix-onderdelen. Zij won met de materialen hoepel, bal en knots. Met het materiaal lint eindigde ze als derde.

Alina Kabaeva is naast de Nederlandse inbreng van Anna Pobokova al enkele jaren de publiekslieveling in het Deventer sportcentrum De Scheg. Zij maakte haar favorietenrol waar, want zij won zaterdag ook de officieuze meerkamp die alleen als kwalificatie voor de onderdeelfinale van zondag geldt. Op het onderdeel lint moest zij alleen de Oekraïense Anna Bessonova en de Russische Vera Sessina boven haar dulden.

Anna Pobokova

De Nederlandse kampioene van 2003, Anna Pobokova, toonde in Deventer enorme progressie sinds haar WK-kwalificatie drie maanden geleden in Frankrijk. Haar eindscore in Deventer is bijna tien volle punten hoger dan tijdens het toernooi waarop zij haar deelname aan het WK veilig stelde. Het WK is volgende maand in Boedapest.

De vooruitgang heeft Pobokova mede te danken aan haar vier weken durende zomerstage in Sint Petersburg. Daar trainde zij zes dagen per week zeven uur per dag onder leiding van het Russische echtpaar Irina Yushina en Alexei Ioushin.

Alcohol Abuse: The National Epidemic. - Microsoft Internet Explorer

Alcohol abuse is a national epidemic, affecting 80% of the population. Approximately 10% of the population of the U.S. are alcoholics, and they each affect 5 to 7 people in their lives with the addiction. Alcohol abuse touches every social strata in our society.

Alcohol Abuse

Alcohol Abuse

For purposes of simplicity, we are using the term abuser for addict or chemically dependent person or user no matter what the extent of the use is. On this web site alcohol is considered a drug. My assumption is that the alcohol abuse must stop, no matter what the progression may be.

True alcoholism is a problem that is progressive. This means that it always gets worse, never better. It may somehow look like it is getting better if the person controls it for a period of time but this is usually an illusion - a false attempt at trying to drink "safely." Non-alcoholics do not have to try to do this.

Without interruption, the progression of the problem leads to much pain and loss. Many people stop for a while but return to [alcohol abuse](#). The way to "reality test" the success of the person's recovery is to watch the actions of the person. This does not mean to judge the person but to follow the success objectively. If the person stops and is fairly content with life, chances are he or she has experienced alcohol abuse, but is not an alcoholic. Most alcoholics stop and experience tremendous pain due to the consequences of their past actions when drunk. Many get abstinent, not sober and content, and experience a period when they are euphoric or very happy. This is usually a time when the body feels better as the toxins are leaving and the person is detoxifying.

Recovery is the abstinence of the drug along with pursuit of healing from the guilt, fear, rage and depression caused by the drugs. When your child is in recovery, you will know it.

Borked Again

Judge Robert Bork, one of the fathers of the modern judicial conservative movement whose nomination to the Supreme Court was rejected by the Senate, is seeking \$1,000,000 in compensatory damages, plus punitive damages, after he slipped and fell at the Yale Club of New York City.

Judge Bork has been a leading advocate of restricting plaintiffs' ability to recover through tort law. In a 2002 article published in the Harvard Journal of Law & Public Policy—the official journal of the Federalist Society—Bork argued that frivolous claims and excessive punitive damage awards have caused the Constitution to evolve into a document which would allow Congress to enact tort reforms that would have been unconstitutional at the framing

Choosing to study abroad can be an enriching and life altering experience. The ability to educate yourself while learning a new culture and visiting a new place is appealing to many students. There are vast amounts of resources out there to help you choose the right place and even obtain financial assistance or scholarships. Many college and universities courses require that you begin and end your course to be recognized and some courses are not recognized worldwide so you need to prepare in advance and spend considerable time researching your field of choice to determine whether credits are transferable to and from your home country. Even if you're not looking to complete an entire program, you can study abroad to learn a culture or take elective courses that can broaden your horizon and bring you personal fulfillment.

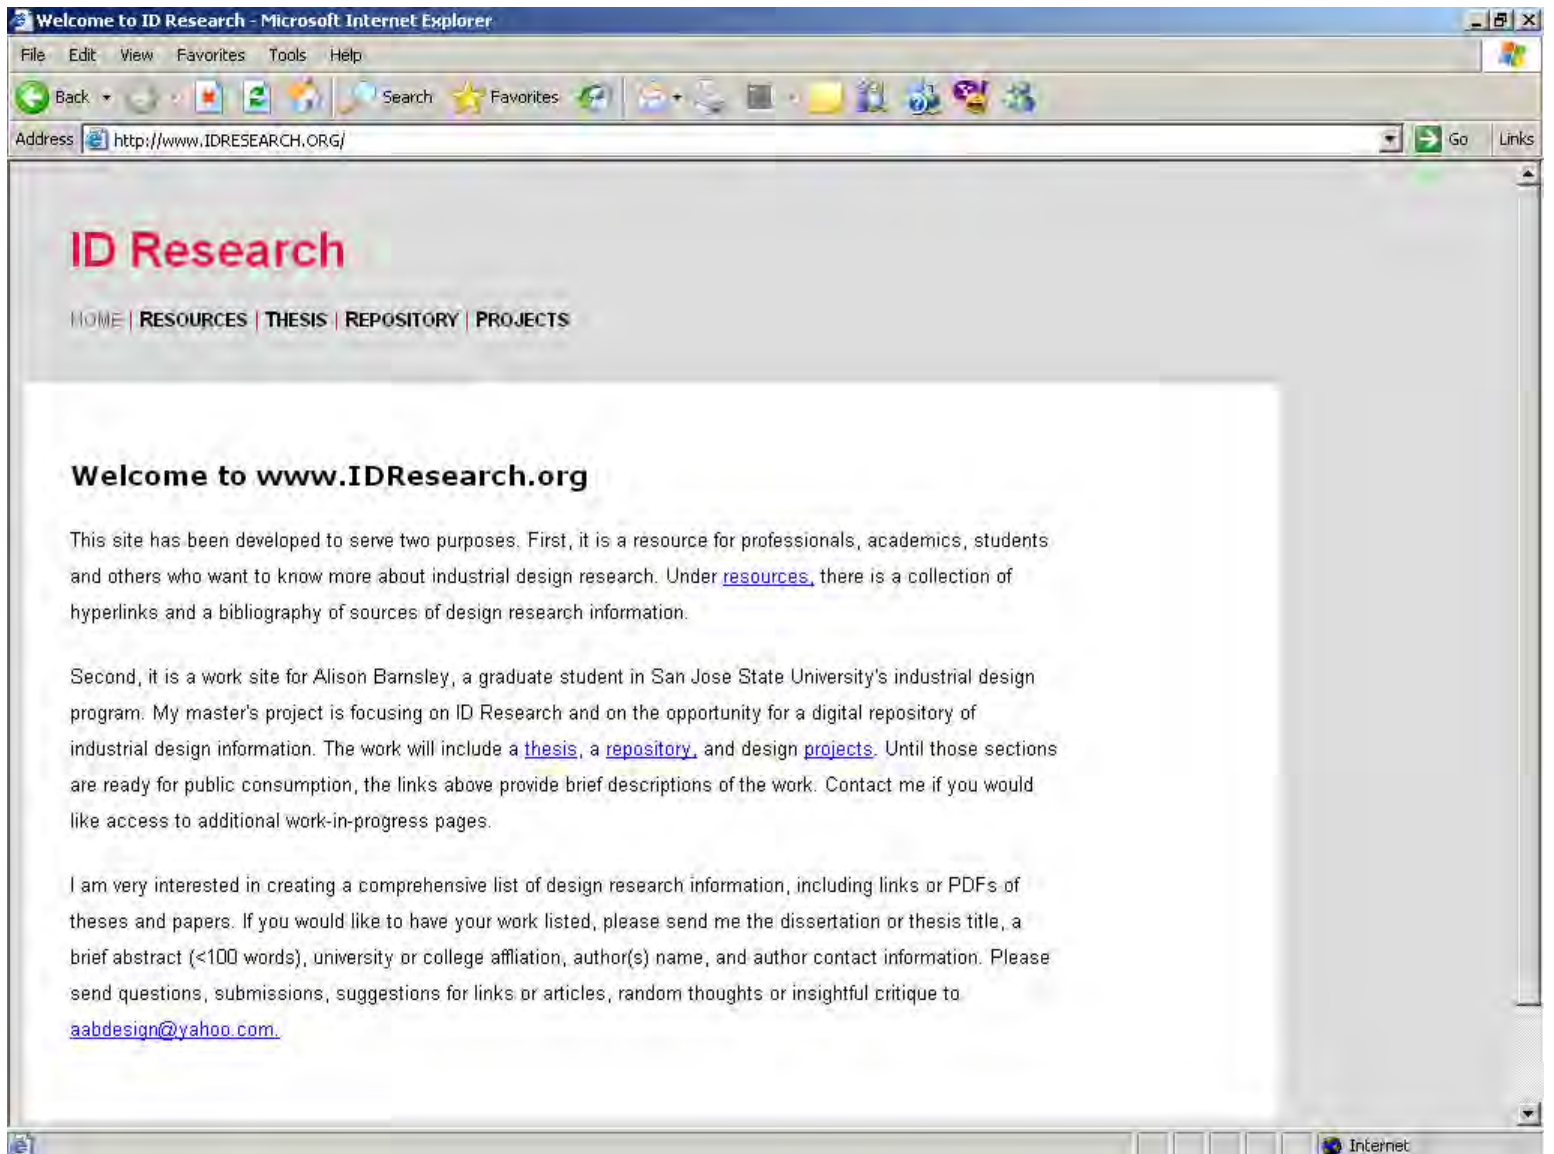

If you're looking to study in Oceania, both [Australia](#) and [New Zealand](#) have much to offer students in terms of serious academics but with a more laid back lifestyle. Students interested in the vast opportunities and diverse experiences offered in North America look at [Canada](#) and the [USA](#) for career and academic opportunities.

[Germany](#), [England](#) and [France](#) offer a taste of Europe with immense cultural experiences and [supreme scholarly opportunities](#). If you are looking

This site is dedicated to providing information and scores for our local shooting clubs in Louisiana. We are also dedicated to educating the public of the benefits of practical shooting and general firearms safety. In addition to our local club match information you can also find information for some of the upcoming major matches as well. We also have some links to improve your shooting skills with shooting tips by some of the best shooters in the world.

We would also like to extend our appreciation to the Sheriff's who graciously allow us to use their ranges to hold our club matches. Without their support some of our clubs would not have a range to hold our matches.

INTERNATIONAL RULES

Challenging the existing world records needs to be done according to the international rules developed by the Paper Aircraft Association (PAA). Assuring world wide comparability of the results requires following these international rules.

INTRODUCTION - The Paper Aircraft Association was officially founded on the 29th March 1989 by Andy Chipling after a long interest in all kinds of aviation and encouraged by the large response to a competition that was held in 1988 in the Department of Civil Engineering, Hydraulics Laboratory at Imperial College London. Grateful and posthumous thanks go to the late John Audsley (1929-1996), without whose great spirit and character the PAA would not have been conceived.

If you are into Paper Aircraft, Paper Aeroplanes, Paper Airplanes, airplanes, Paper Darts, Paper Planes, whatever we all like to call them, the "Paper Aircraft Association" is the site to click on for World Record rules and top Paper aircraft links.

Portugal 2007

Geschreven door Administrator

Jawel, de jaarlijkse exodus der hillegomse ziipschuiten is weer begonnen. En voor ons deel (nick, tom a.k.a. corky, dennis, jeroen en mijn persoonkje) is het zelfs alweer voorbij. Snik snik snik..... En dat zegt vooral m'n lever, want die kunnen ze nooit meer gebruiken mochten ze me nodig hebben als donor.

Vrijdag 29 juni stonden we alle vijf om kwart voor 5 in de ochtend klaar op schiphol. Nog ff (tenminste dachten we, alleen jeroen incl. vriendin dus nie :P) gedag zeggen en dan gauw het vliegtuig in. Achteraf duurde het wat ffies en waren we precies op tijd voor boarding. Na een vlucht van zo'n 3,5 uur landen we op Faro, Portugal. Snel naar buiten richting bus alweer onze reisleidster Annechien (annegien, ik weet het niet :P) op ons stond te wachten. Bleek dus best een sloper te wezen met leuke ballen ;). In de bus stond gelukkig een thermometer waar op we dus een keurige temperatuur van 27 graden celsius zagen staan. Dit om 9 uur 's ochtends (portugese tijd). Dus dat belooft veel goeds.

CELEBRATING

We're crazy about the voice, and it's **contagious!** For 25 years, The VoiceCare Network has **infected** hundreds of professionals, choir directors, voice teachers, performers and enthusiasts from all over the world with the knowledge and techniques to reshape what they know and do with voices.

This summer, The VoiceCare Network invites you transform your knowledge by immersing yourself in a creative, hands-on, graduate-level course (four semester credits or 53 contact hours) where you can learn to:

- Develop your singing through powerful, evidence-based vocal techniques.
- Sing for a lifetime and teach others to do the same using bold new methods.
- Produce rich, effortless sound by connecting your whole body and voice.
- Keep your voice healthy all year long using evidence-based approaches.
