Lauren,

I have reviewed your client's motion. The language of the motion is somewhat ambiguous, but a reasonable reading of it tends to indicate that the FTC's Regional Director for the Northwest Region, Charles Harwood, is NOT empowered to bind the Federal Trade Commission to a settlement on its behalf. If this is an accurate reading of the motion, the defendant, Impulse Media Group, does not consent to the motion as unopposed.

Regards,

Rob,

My last email was cut off. It is an accurate reading that Charles Harwood is not empowered to bind the FTC. To be clear, IMG will not consent to this motion as unopposed?

Thank you,  
Lauren Hash
