The confidentiality of all Bosley patients is strictly protected. The patients featured on this Web site are volunteers who have given Bosley their permission to appear. Testimonial statements and photographs of Bosley patients do not constitute a warranty or prediction of the outcome of your individual hair restoration. Not all patients can achieve the results depicted herein. Ask your Bosley doctor about your individual case. Professional services provided by the licensed medical doctors of Bosley Medical Group.

In some states in the USA (e.g., in Illinois, New York and Texas) testimonial advertising is not allowed in medicine, regardless of the truth or accuracy of the testimony. In those states this testimonial section is void. If you live in a jurisdiction which does not allow testimonial advertising in medicine, please skip this section.

The confidentiality of all Paxlev patients is strictly protected

The patients featured on this Web site are volunteers who have given Bosley their permission to appear. Testimonial statements and photographs of Bosley patients do not constitute a warranty or prediction of the outcome of your individual hair restoration. Not all patients can achieve the results depicted herein. Ask your Bosley doctor about your individual case. Professional services provided by the licensed medical doctors of Bosley Medical Group.

In some states in the USA (e.g., in Illinois, New York and Texas) testimonial advertising is not allowed in medicine, regardless of the truth or accuracy of the testimony. In those states this testimonial section is void. If you live in a jurisdiction which does not allow testimonial advertising in medicine, please skip this section.

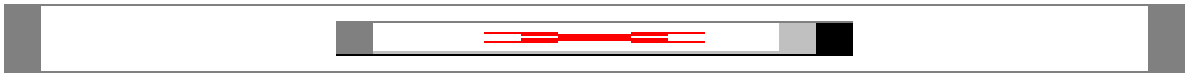
?? NetZero HiSpeed does not increase the transmission speed of files or attachments, including music or video.



1. What is NetZero HiSpeed?

NetZero HiSpeed is an exciting new product from NetZero that accelerates your Web surfing experience using your existing phone jack and modem. NetZero HiSpeed INCLUDES the NetZero Platinum service and requires NO additional equipment and NO waiting! It is the high-speed surfing solution with the convenience of dial-up.

2. What gets Accelerated?

Web pages - HTML markup and JavaScript

Graphics including JPEG and GIF images

Text

E-mail on the Web

Streaming media, audio and video files

Secure pages, such as those used for online banking and credit card forms

Files and attachments such as music or digital photos

3. How does it work?

Before the text and graphics that make up Web pages get sent to your phone line, NetZero HiSpeed compresses them using a proprietary technology. Less data is sent so your surfing experience is that much faster! In addition, NetZero HiSpeed stores elements of frequently visited Web sites so they load faster on future visits.

?? NetZero HiSpeed accelerates certain web page text and graphics when compared to standard dial-up Internet service. Actual results may vary. Some web pages such as secure or encrypted web pages will not be accelerated. NetZero HiSpeed is not a broadband service and actual data transmission rates are not faster than standard dial-up Internet service. Transmission of files including, without limitation, streaming audio or video, digital photographs, MP3 or other music files, executable files and other downloads, is not faster using NetZero HiSpeed than with standard dial-up service. NetZero HiSpeed may not be compatible with proxy based software or services such as content filters or firewalls. NetZero HiSpeed is only compatible with Platinum service and specified browsers. Not available for Mac.

* Please note that, depending on the numbers you choose, your location, and your calling plan, you may incur long distance or toll charges in excess of your local service charges on your telephone bill. For a list of access numbers and their locations, go to http://my.netzero.net/s/numbers. To find out whether or not you will incur any charges, and if so, the amounts of such charges, please contact your local telephone company. You will be responsible for all such charges incurred. Additionally, live technical support is available for a fee of $1.95/minute ($2.95 CDN/min in Canada). NetZero reserves the right to impose hourly usage limitations. See Terms of Service for details. Service not available in all areas. Unless indicated otherwise, all prices shown are in United States dollars.

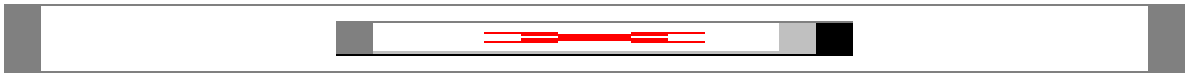
?? NetZero HiSpeed does not increase the transmission speed of files or attachments, including music or video.



1. What is NetZero HiSpeed?

NetZero HiSpeed is an exciting new product from NetZero that accelerates your Web surfing experience using your existing phone jack and modem. NetZero HiSpeed INCLUDES the NetZero Platinum service and requires NO additional equipment and NO waiting! It is the high-speed surfing solution with the convenience of dial-up.

2. What gets Accelerated?

Web pages - HTML markup and JavaScript

Graphics including JPEG and GIF images

Text

E-mail on the Web

Streaming media, audio and video files

Secure pages, such as those used for online banking and credit card forms

Files and attachments such as music or digital photos

3. How does it work?

Before the text and graphics that make up Web pages get sent to your phone line, NetZero HiSpeed compresses them using a proprietary technology. Less data is sent so your surfing experience is that much faster! In addition, NetZero HiSpeed stores elements of frequently visited Web sites so they load faster on future visits.

?? NetZero HiSpeed accelerates certain web page text and graphics when compared to standard dial-up Internet service. Actual results may vary. Some web pages such as secure or encrypted web pages will not be accelerated. NetZero HiSpeed is not a broadband service and actual data transmission rates are not faster than standard dial-up Internet service. Transmission of files including, without limitation, streaming audio or video, digital photographs, MP3 or other music files, executable files and other downloads, is not faster using NetZero HiSpeed than with standard dial-up service. NetZero HiSpeed may not be compatible with proxy based software or services such as content filters or firewalls. NetZero HiSpeed is only compatible with Platinum service and specified browsers. Not available for Mac.

* Please note that, depending on the numbers you choose, your location, and your calling plan, you may incur long distance or toll charges in excess of your local service charges on your telephone bill. For a list of access numbers and their locations, go to http://my.netzero.net/s/numbers. To find out whether or not you will incur any charges, and if so, the amounts of such charges, please contact your local telephone company. You will be responsible for all such charges incurred. Additionally, live technical support is available for a fee of $1.95/minute ($2.95 CDN/min in Canada). NetZero reserves the right to impose hourly usage limitations. See Terms of Service for details. Service not available in all areas. Unless indicated otherwise, all prices shown are in United States dollars.
