Description

- Show photos live during a video call!
- Plenty of features provide flexible sharing options. Photo Snap allows you to share and crop photos live during a video call. Instantly start a video call using the Windows Live™ Call Button. One-Touch Blogging lets you add photos to Windows Live Spaces. And, LifeCam Backboard has all of the controls built into the conversation window!
 - CMOS sensor for quicker response times.
 - Integrated microphone offers crystal-clear audio. Built-in unidirectional microphone has acoustic noise cancellation and echo cancellation (available with Windows Vista, Windows Live Messenger and Microsoft® Office Communicator).
 - See clearly with high-quality VGA optics. The LifeCam VX-9000 automatically adjusts to low-light conditions. It pans, tilts and zooms (not available when capturing video at 1.3 MP resolution), and is always focused, with a focus depth of field of from 21" to 60".
 - Connects using USB 1.1 (USB 2.0 recommended).
 - Universal attachment base works on almost any unit. Bend, fold and shape the flexible base for the best angle on notebook computer screens, flat panels and traditional monitors.
 - Backed by the manufacturer's 3-year limited warranty.
