The Honorable Thomas S. Zilly

UNITED STATES DISTRICT COURT
WESTERN DISTRICT OF WASHINGTON
AT SEATTLE

LISA MOORE,

Plaintiff,

v.

THE BOEING COMPANY, a Delaware
Corporation and DOES 1-10;

Defendants..

Case No. 2:17-cv-00800-TSZ

**ORDER GRANTING DEFENDANTS'
MOTION TO COMPEL
INDEPENDENT MEDICAL
EXAMINATION OF PLAINTIFF
LISA MOORE**

1 **ORDER**

2 Defendant The Boeing Company (“Defendant”) brought this motion to
3 compel the Independent Medical Examination (“IME”) of Plaintiff Lisa Moore
4 (“Plaintiff”), docket no. 45, (the “Motion”) before this Court. After considering all
5 papers filed in support of, and in opposition to, the Motion, the Court GRANTS the
6 Motion. The Court finds good cause to compel the mental examination of Plaintiff
7 pursuant to Federal Rule of Civil Procedure 35.

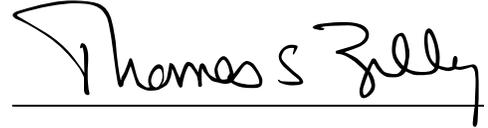

8 The Court therefore ORDERS Plaintiff to submit to the following
9 examinations:

10 1. Plaintiff shall submit to the mental examination conducted by Gerald
11 Rosen, Ph.D., a Board Certified psychiatrist, on October 8, 2018 at 9:00 a.m. and
12 October 11, 2018 at 9:00 a.m. at 1201 Third Avenue, Suite 5150, Seattle,
13 Washington 98101. Dr. Rosen will conduct a standard interview, which will
14 generally consist of questions about Plaintiff’s intentional infliction of emotional
15 distress and mental health damages claim, including but not limited to evaluation
16 and history of the mental illnesses alleged; past psychiatric and psychological
17 history; general medical and surgical history; history of substance abuse; inquiry
18 into the Plaintiff’s psychosocial and development history; relationship and marital
19 history; litigation history; educational, social, and occupational history; family
20 history; a complete review of all bodily systems and current symptoms; current
21 living situation; and exploration of other causes and other stressors, including
22 criminal history (e.g., history of arrest or incarceration) in Plaintiff’s life that may
23 have impacted and may continue to impact her mental health and/or mental state
24 and condition. To the extent that Plaintiff’s prior existing medical conditions and
25 treatment have impacted and may continue to impact her mental health and/or
26 mental state, Dr. Rosen may inquire into such subjects. However, Plaintiff will not
27 be asked about any of her conversations with counsel or her counsel’s evaluation of

1 her claims.

2 2. Dr. Rosen will also administer to Plaintiff the following psychological
3 instrument: Minnesota Multiphasic Personality Inventory-2 (“MMPI-2”).
4

5 Dated: August 29, 2018.
