01/24/2017	172	** TEXT ONLY ORDER ** In plaintiff's unopposed motion to extend filing dates (dkt. 168), plaintiff pointed out that there is a pending motion for limited discovery (dkt. 157), along with several more substantive motions. Having read and considered the motion and attachments, as well as defendants' opposition (dkt. 166) and plaintiff's unbidden reply (dkt. 167), the motion is granted in small part and denied in the main. To the extent that plaintiff is asking permission to "discover" the October 3, 2016 and November 16, 2016 changes to the City's SOP on backup (which defendants already have provided, apparently informally), that request is granted and these documents may be considered in play for both sides. The court will not allow additional requests for production or interrogatories on these changes to the SOP on backup, nor will it allow plaintiff to depose Chief Koval or anyone else about these policy changes. That being said, both sides should follow through on their stated intent to flag this issue for Judge Peterson in their motions in limine so that the court can set parameters on whether and how these policy changes may be presented at trial. Signed by Magistrate Judge Stephen L. Crocker on 1/24/2017. (voc) (Entered: 01/24/2017)
