In Re: MAPP Construction, LLC and Travelers Casualty & Surety
Co. of America, applying for supervisory writs, 19th
Judicial District Court, Parish of East Baton Rouge,
No. 615354 c/w 615513.

BEFORE: WHIPPLE, C.J., WELCH AND CHUTZ, JJ.

WRIT DENIED. We find that relator should have sought supervisory review of the trial court's April 20, 2015 order relieving Mr. Shreves of his duties as commissioner in this matter; reinstatement of Mr. Shreves or the appointment of a new commissioner at this juncture would only serve to further delay the matter.

Welch, J., dissents and would grant the writ and reinstate the appointment of Bruce Shreves. I believe the trial court erred in removing Bruce Shreves because the parties stipulated that he would preside over the matter and because he issued approximately 53 recommendations, which were confirmed by the trial court, in conjunction with approximately 70 exceptions and motions that were filed.
