

IN THE SUPREME COURT OF THE STATE OF MONTANA

IN RE THE ADOPTION OF UNIFORM)
CASE FILING STANDARDS FOR) O R D E R
DISTRICT COURTS)

On April 22, 2005, the District Court Council (DCC) statutorily created to implement state assumption of district court expenses and allocate resources among the district courts, among other things, petitioned the Court to adopt Uniform Case Filing Standards for the District Courts. The DCC, together with the invaluable assistance of the Clerks of the District Courts, worked on these filing standards for approximately two years. The district courts and the clerks have had several opportunities to comment on, and seek revision of, the proposed uniform case filing standards. The courts, the clerks and the DCC are now satisfied with the filing standards and the DCC adopted them at its meeting on April 22, 2005.

The uniform filing standards will create a uniform filing system in all district courts which will promote consistency, and provide for efficient and effective administration of court business. The standards also will enable the clerks and courts to collect and report accurate and consistent statewide statistical information regarding the caseloads in the various district courts. In turn, this information will provide necessary management and resource allocation data.

The DCC requests that these uniform case filing standards be adopted without delay and without public comment, with an effective date of January 1, 2006. The DCC suggests that the time lag is necessary to provide sufficient time for training Clerks, county attorneys and others who will be impacted by the standards, and we agree. We also agree that public comment is not necessary on the standards since they are primarily an internal management and resource allocation tool of which the Clerks, District Courts and many, if not all, county attorneys are already aware.

THEREFORE,

IT IS ORDERED that the DCC's petition for adoption of the Uniform Case Filing Standards for the District Courts is GRANTED;

IT IS FURTHER ORDERED that the Uniform Case Filing Standards for the District Court, attached hereto and incorporated by reference herein, are adopted as of this date, with an effective date of January 1, 2006.

The Clerk is directed to mail a true copy of this Order and the adopted standards to the District Court Council, to the Executive Director of the State Bar of Montana with a request that the Order be included in the next issue of the *Montana Lawyer* and that the Order and adopted standards be posted on the State Bar's website, and to the State Law Library with a request that the Order and standards be posted on its website, as well as the Court's website.

DATED this 3rd day of May, 2005.

Montana Judicial Branch
District Court
Uniform Caseload Filing Standards

The District Court Council is preparing to conduct a study of workload across its 22 Judicial Districts in order to determine a means for the most effective and appropriate allocation of resources.

This study will be based on quantitative data regarding caseload in each of the state's 56 District Courts. In advance of this study, the DCC is completing development of a unified method to count cases and report caseload statistics across District Courts. The implementation of a unified case counting system will ensure that data regarding caseload reported by each District Court is consistent and can be used as a meaningful tool to determine the appropriate need for resources in each District Court.

Through this process, 13 District Court case types were identified. Within each case type decisions were made as to the procedures for the following key events relative to the maintenance of the court record in the office of the Clerk of Court: (1) OPENING of the case file; (2) CLOSING of the case file; (3) REOPENING of the case file; (4) designation of the case file as INACTIVE; and (5) other procedures based on a specific case type.

These procedures are intended solely for purposes of record-keeping within the office of the Clerk of Court.

Please note that terms such as "order," "judgment," "petition," et al are used generically in many places throughout the document.
