MASTER'S REPORT

The United States of America (Bureau of Land Management) objected to James B. & Eileen C. Scrivner Living Trust claim 43B 13688-00. On May 16, 2022 the parties filed a Stipulation To Resolve Objections. The Stipulation is viewable in the Court's FullCourt Enterprise case management system.

APPLICABLE LAW

A properly filed Statement of Claim for Existing Water Right is prima facie proof of its content pursuant to section 85-2-227, MCA. This prima facie proof may be contradicted and overcome by other evidence that proves, by a preponderance of the evidence, that the elements of the claim do not accurately reflect the beneficial use of the water right as it existed prior to July 1, 1973. This is the burden of proof for every assertion that a claim is incorrect including for claimants objecting to their own claims. Rule 19, W.R.Adj.R.

FINDING OF FACT

The Preliminary Decree states that the place of use is section 21, T2S, R16E, SWEET GRASS. The place of use should be the N2NE section 21, T2S, R16E, SWEET GRASS.

CONCLUSION OF LAW

The settlement filed by the parties is sufficient to contradict and overcome the prima facie claim.

RECOMMENDATIONS

Based upon the above Finding of Fact and Conclusion of Law, this Master recommends that the Court make the change specified in the Finding of Fact to correct the Preliminary Decree for this Basin. A Post Decree Abstract of Water Right Claim is served with this Report to confirm the recommended change has been made in the state's centralized record system.
