MASTER’S REPORT

Donna J. Gilmer and the United States of America (USDA Forest Service) each objected to Donna J. Gilmer, Deborah J. McCauley, Douglas J. McCauley, and Ryan Topel-Gilmer claim 43B 19268-00. On February 27, 2024 the parties filed a Stipulation To Resolve Objection which

resolves both objections. The Stipulation is viewable in the Court's FullCourt Enterprise case management system.

APPLICABLE LAW

A properly filed Statement of Claim for Existing Water Right is prima facie proof of its content pursuant to section 85-2-227, MCA. This prima facie proof may be contradicted and overcome by other evidence that proves, by a preponderance of the evidence, that the elements of the claim do not accurately reflect the beneficial use of the water right as it existed prior to July 1, 1973. This is the burden of proof for every assertion that a claim is incorrect including for claimants objecting to their own claims. Rule 19, W.R.Adj.R.

FINDINGS OF FACT

1. The Preliminary Decree states that the means of diversion is FLOWING. The means of diversion should be PIPELINE.

2. The Preliminary Decree states that the place of use legal description is the SESENW section 34, T6N, R3W, Jefferson. The legal description should be the NESWSW section 34, T6N, R3W, JEFFERSON. The following clarification remark should be added to the place of use: THE PLACE OF USE IS LOCATED ENTIRELY ON PRIVATE LAND.

CONCLUSION OF LAW

The settlement filed by the parties is sufficient to contradict and overcome the prima facie claim.

RECOMMENDATIONS

Based upon the above Findings of Fact and Conclusion of Law, this Master recommends that the Court make the changes specified in the Findings of Fact to correct the Preliminary Decree for this Basin. A Post Decree Abstract of Water Right Claim is served with this Report to confirm the recommended changes have been made in the state's centralized record system.
