**MEMORANDUM OPINION**

Before Justices Lang, Myers, and Boatright  
Opinion by Justice Myers

Before the Court is relator's August 3, 2017 petition writ of mandamus in which relator asks this Court to direct the trial court to rule on his motion for post-conviction forensic DNA testing. On August 24, 2017, the trial court granted relator's motion for post-conviction forensic DNA testing. Accordingly, we deny as moot relator's petition for writ of mandamus.
