No. 06-15-00027-CR

ROGER DALE GAMMONS, Appellant

V.

THE STATE OF TEXAS, Appellee

On Appeal from the 8th District Court
Hopkins County, Texas
Trial Court No. 1423873

Before Morriss, C.J., Moseley and Burgess, JJ.
Memorandum Opinion by Justice Moseley

MEMORANDUM OPINION

In Hopkins County, Texas, Roger Dale Gammons was indicted on two counts of possession of more than four grams but less than 200 grams of a controlled substance and one count of tampering with physical evidence. Gammons entered an open plea of guilty to the charges and pled “true” to the two prior felony enhancements alleged by the State. After a hearing on punishment, the trial court sentenced him to life in prison for each of the three charges, with the sentences to run concurrently. Gammons was convicted as a habitual felon under Section 12.42(d) of the Texas Penal Code due to two prior non-state-jail-felony convictions in Kaufman and Van Zandt Counties. *See* TEX. PENAL CODE ANN. § 12.42(d) (West Supp. 2014).

Gammons has filed a single brief in which he raises issues common to all of his appeals. Here, Gammons appeals from his conviction for tampering with physical evidence. He contends (1) that his guilty plea was not voluntary because he was incompletely admonished regarding eligibility for community supervision; (2) that the trial judge erred by failing to recuse himself when he had personal knowledge of disputed facts relating to the enhancement paragraph(s); and (3) that the trial judge erred by failing to recuse himself after having previously served as Gammons’ counsel in related criminal proceedings.

We addressed these issues in detail in our opinion of this date on Gammons’ appeal in cause number 06-15-00026-CR. For the reasons stated there, we likewise conclude that error has not been shown in this case.

We affirm the trial court's judgment.
