IN RE JEANNA LAPOINTE

Original Mandamus Proceeding

Before Morriss, C.J., Stevens and van Cleef, JJ.
Memorandum Opinion by Chief Justice Morriss

MEMORANDUM OPINION

Relator Jeanna LaPointe petitioned this Court for mandamus relief. LaPointe complained of the trial court's order that she and Real Party in Interest submit to follicle drug testing.

Since Relator's request, the trial court has vacated its order. The complaint at the source of Relator's petition having been rendered moot and Relator having presented no further basis to maintain her request for extraordinary relief, we deny Relator's petition.¹

¹Our denial of Relator's mandamus petition renders Real Party in Interest's motion to dismiss this original proceeding moot. That motion is, therefore, denied.
